ARRIVAL OF THE STEAMSHIP HIBERNIA. AT HALIFAX N. S

The news brought by the Hibernia was not received over the telegraph wires until a late hour on Monday evening. Such as it is, we find scarcely any thing of interest to the general reader.

The most important fact is a decline of 1-8d in Cotton, with small sales; the quotations for Uplands and Mobile being 54d and for New Orleans 61d. The market for Breadstuffs was also dull, with no change in quota-

AUSTRIA. Trouble with Prussia.

A telegraphic despatch received from Berlin, via Cologne, announces that the Austrian Cabinet has made a formal protest against the convocation of a German Parliament at Erfurt, and that in the despatch containing the protest, the Austrian Government alluded to the probability of armed interference by Austria in the affairs of Germany. The same telegraphic account stated that the Prussian Government had answered the Austrian despatch by a declaration that Prussia would maintain her position. These accounts have been substantially confirmed. A letter from Berlin, to the Morning Chronicle, says:

"At the end of October, Prince Schwartzer

burg, in a despatch to the Prussian Government, pointed out the dangers that were likely to arise from the convocation of this Parliament, insisting on the revolutionary tendencies to which it would give birth, and on the reaction that would be felt, not only in the Austrian States, but in Prussia likewise-On the 30th October, Prussia replied that she had duly weighed all these considerations, but that more elevated and pressing motives urged her to persevere in the plan. As regards real dangers, she would know how to meet them. Austria has not gone a step further, and has formally protested against the convocation of the Parliament. If I am well informed, and I have reason to believe that Yam, the last despatch addressed by Prince Schwartzenburg to the Prossian government insignates that even should the case require it. Austria will not hesitate to have recourse to an armed intervention. Behold us once more on the eve of a serious conflict. A Cabinet Council was held the day before

yesterday. The Council first adopted the Electoral Law of the Parliament. Each State will introduce such modifications as its organization may require. The Cabinet Council was then occupied with the reply to the Austrian note. The Ministry adopted a most important resolution. A despatch in reply to that of Prince Schwartzenburg, has already been sent to Count Bousdorf, the Prussian Envoy at Vienna. Prassia, in this document maintains, with energy, her right to carry out the limited federation-a right formally guarrantied. To the Austrian's despatch of armed interference, Prussia replies that "She awaits it."

The Prussian Chambers.

Accounts from Berlin of the 24th ult. states that after a debate of several days, the upper chamber had declined to return to its old constitution.-They divided no less than sixteen times, eight of which were by name. The proposition for a peerage was rejected by 105 against 40. The various amendments proposing either direct or indirect election by the highest authorities were rejected by various majorities. In addition to the regulation that the number of elective members shall in no case exceed 180, the following most cautious proposition was adopted; it

"The Constitution of the Upper Chamber is to be fixed by a future law, which must receive the sauction of both Chambers, and will then become part and parcel of the Con-stitution of the country."

LATEST FROM BERLIN.

The Cologne Gazette announces, in a telegraphic message from Berlin, that the King has signed the law for the election of representatives to the German Parliament, to be assemble at Erfurt.

TURKEY. Affairs with Russia, Aus'ria, Se. From Constantinople the news only confirms the previous pacific course of events. It is confidently stated that the British fleet has PRIESTLY, to Miss MARY M. TAGGART, both received orders to withdraw from the Dardanelles, and that it is indeed by this time at Malta.

Nothing further has transpired respecting the whereabouts of the Polish and Hungarian

The Russian Ambassador, M. Tituff, ha once mose been admitted to an interview with the Grand Vizier, and diplomatic relations may be presumed to be renewed be-

tween Russia and the Porte.

Austria appeared satisfied with what Tur-key had already done, by transporting the Hungarian refugees to the interior, and did not demand any thing further. Russia, on the contrary, demands that the Polish refugoes be expelled from the Ottoman Empire, aged about 64 years. and that the chiefs should be imprisoned in a fortress; the Porte being responsible for their safe custody, without even excepting those emigrants, who, like Bem, have cmbraced the Mahomedan faith. It was said that Russia also required the expulsion of a pertain number of Poles, who have been for many years inhabitants of the Ottoman States. The Ports received these propositions in such a manner as to show that they would not be accepted, and a council would be held on the 7th to take them into consideration.

The Rossian Minister was excessively anmoyed by the presence of the British fleet in the Dardanelles, which he declared a violation of the treaty; and has, it is said, refused to enter into negotiation until the English shall have quitted the Straits.

The Vienna correspondent of the Daily News writing on the 31st alt, says, "Letters of the 10th from Constantinople, mention from subjects of dispute between Russia and Turkey, in consequence of the energy with which the united diplomacy of England and France has followed up its victory on the re

fugee question. It is said that the Porte is also determined, at the expiration of the stipulated term, to withdraw those concession

Legislative Assembly into a constituent body by the addition of 150 members, and this new body be invested with the power of electing the President ; of extending the term of his office to such a period as may avoid the necessity of a frequent appeal to universal suffrage.

The personal quarrels of the members of the Legislative Assembly terminated in more than half a dozen duels, and have occupied the chief attention of the Parisians during the week. M. Pierre Bonaparte has figured in as many as three or four of these encounters. None of the contests have ended fatally, but they have increased to such a degree that the Government threatens to stop

them by very stringent laws. We have official information that the dis pute between the French and the Emperor of Morocco is satisfactorily adjusted.

We reached over and took a letter out of his hat, unfolded, and commenced reading it. He was so busy that he did not discover how we were paying him off in his own coin; until we asked him what it was his correspondent was writing to him about a woman? "Why, look here, Squire," says he, "you surely are not reading my private letters?" "Certainly, sir," said we, "you are reading our private manuscripts." He was plagued, begged us not to mention his name, promised to do so no more, and we quit even.

BRANT'S INDIAN PURIFYING EXTRACT

is such a Mediciae, in every respect; and there is abundant proof, in great cures effected, that ONE BOTTLE of it contains more purifying, heating virtue, and medical power, then there is contained in Four Bottle of any agrangement, and the such as a superilla, or any other medicine that has ever been offered for sale. There is undoubted proof in our pamphless, that by the use of this great Indian Parifar, they that were DVING yet LIVE—they that were LANK and CAIP-FLKD can now WALK—they that were SLCK, SCROPTLOG, and otherwise diseased, have been HEALED and CURED. Hundreds-Thousands-

Brant's 18 the Cheapers,
scause One Bottle of it has more medical, curative mater in it, and, in consequence, cures more disease in much
less time, than one bottle of any other medicine.
It, then, ONE Bottle of BRANT's PURITURE will cure
FOUR TIMES more disease than one bottle of paraparilla, "BRANT's PURITURE" would be as closen at four dollars a bottle, as sarsaparilla at one sheller. But BRANT'S rella. "Brant's Puniffers" would be as chesp at four dollars a boutle, as sursuparilla at our sheller. But Brant's PURIFIER is sold for only ONE DOLLAR a bottle; and as a bottle of it has cursed, and is equable of curing, Four Times as a much discusse as one bettle of strangarilla, therefore, sarshpurilla, in consequence of its less, power and less medical efficacy, should be said at no more than Theority Fire Costs per bottle, to be as cheap as the Punifier at One Dollar.

Thes is the case of a Dying man who get lives. He was exered of a worse case of Scrofula, by only Twelve Bottles of Brant's Parilier, than ever was cared by the use of Twelve Gallons of the best surveyperilla that was ever made, Sarsaparilla him not infficient medical power to effect the cure of such a recollingly happine case.

Mr. J. B. HASKIN, of Rome, Ouclide Co., N. Y., had Scrof the four years—was continued to his bed the bast gear—he was so much diseased and debilitated as to be unable to raise his hand to his head. He had the best medical advice—had used all of the best surveyswillar to no good effect—got werse and worse, and was considered to be in a Dying State, and could not live teenty few kours longer, when he commenced using BRANT's PURIFIER. His was such a nearly off, from car to or—a kole was enten through his windpipe, under his chan, so that he breathed through he hole—his car was so eaten around that it could be lifted up out of its place, it only holding by a small place—the use of one arm was develoyed by two Utcers—an Ulcer under the arm, as large as a min's kand, had nearly eaten through his side-into his hody. Thus, he was sufficed with Techny such patrid, arid, affansies Utcers—on virtual parts of his person. For further and full particulars, see our Pamphiles.

Duct, Thomas Williams, one of the most skillul physicians of Rome, was called to see Haskin the day before he commenced using Brant's Purisir. Doct. W. examined him, and then told him that all the medicines in the world could not care him—that his case was CANCEROUS SCROFULA!

Worse than Hopeless! Now hear Mr. HASKIN'S statement of cure. He said:
My wise procured one bottle of BRANT'S PURIFYING
EXTRACT of Blosell & Leonard, Druggists, of Rome
I commenced using that, and began to get better—That
notices are succeeded by the said of my beat purification of the known—the SECOND bottle enabled me to get
out of the known—the THEND bottle enabled me to get
out of the known—the THEND bottle enabled me to Walk
Two Miles, to Rome Centre, where I procured Six Buttles
more; and when I had finished using them. Seculera out
of Thereity Ulcers had beat up tr—and three bottles more
effected a PERFECT CURE of all the Ulcers, and restored me to good kealth.

FOURTEEN WITNESSES! Mr. HASKIN has sworn to the above facts, and the facts are witnessed and certified to by DOCT. T. WIL-LIAMS—Mr. G. R. BROWN, proprieter of the West Rome Hart—Mesers. BISSIL. & LEGNARD. Wholesale and retail Druggists—and ELEVEN other respectable witnesses. We Challenge the World

A man by the name of CLAPP has engaged with a coing man of the name of 8. P. Tovensend, and uses his ame to put up a Scraparilla, which they call Dr. Townsend's Scraparilla denominating it of GENUINE Original, etc. this Townsend is no doctor, and never was but was for-

OLD DOCTOR JACOB TOWNSEND, THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla! OLD Dr. Townsent is now about 70 years of age, and has long been known as the author and disseverer of the Gemine Original. "Townsent Sarsmarilla." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sates circumseribed to these only who have proved its worth and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed sore discusses, and saved from death, proclaimed its excellence and wonderful

HEALING POWER. HEALING POWER.

Knowing, many years ago, that he had, by his skill, science, and experienced, devised an article which would be of inculcanble advantage to mankind, when once knows and extensively used, he hoped and persevered, expecting the time to arrive when the means would be furnished to bring it into universol notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this

GRAND AND UNEQUELLED PREPARATION,

GRAND AND UNFQUELLED PREPARATION, Is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found inexpable of degeneration or deterioration.

Let every man ring throughout the land, that Old Dr. Jacob Townsend is now manufacturing the real 'Townsend's now manufacturing the real 'Townsend's required the real throughout the land, that Old Dr. Jacob Townsend Saraquarilla, which shall never sour in never changes its character.

From this day forth the people shall have the Pure Genuine Townsend Saraquarilla, which shall never sour in the stomesh, and it shall yet banish from the land all Fermenting, Souring, Exploding, Vinegary Saraquarillas, now in use. A good Saraquarilla, pure and genuine, ought to droop and the.

cilia ought to droop and die.

The Od Dr's. Sarsaparlia will keep pure and perfect 100 years.

Unlike young S. P. Townsend's it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the Art have all been brought into requisition in the manufacture of the OLD DR'S. SARSAPARILLA. The Sarsaparila root, it is well known to medical men, contains many melicinal properties, and some properties which are ment or useless, and others, which, if retained in preparing it for use, produce fermentation and seid, which is impurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lest in the preparation, if they are not preserved by by a scientific process, known only to those experienced is its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the variet essential medical properties of the root, which give to y all its value.

essential medical properties of the root, which give to 7 all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything else; they can then strain this install or vapid liquid sweeten with som molasses, and then call it "Sarsaparilla Extract or Syrap." But such is

then eall it "Sarsajarilla Extract or Symp," But such so not the article known as the GENUINE OLD DR. JACOB TOWNSEND'S SARThis is so prepared, that all the mert properties of the Sarsparilla root are first removed every thing capable of becoming acid or of fermentiatism, is extracted and rejected; then every particle of mestical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of lessing any of its valuable and healing properties. Prepared in this way, it is made the most pswerful agent in the CURE OF INNUMERABLE DISEASES.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it dring weathers in the cure of Consumption, Dyspepsia, and Liver Complaint, and in Rheumatism, Scrottin, Piles, Costiveness, all Cutaneous Eruptions, Pimpies, Biotehes, and all affections arising from

IMPURITY OF THE BLOOD. IMPURITY OF THE BLOOD.

It possesses a marvollous efficacy, in all complaints arising from milgestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, palpinition of the heart, cold feet and cold hunds, cold chills and hot flashes over the body. It has not its equal in Colds and Coughs; and promotes casy expectantion, and gentle perspiration relaxing stricture of the lungs, throat, and every other part.

But in mothing is its excellence more manifestly seen and neknowledged than in all kinds and stages of Female Cons-

plaints.
It works wonders in cases of Finor Albus or Whites,
Palling of the Womb, Olestracted, Suppressed, or Painful
Menors, Irregularity of the menstrual periods, and the like;
and is a effectual in caring all the forms of Kidney Discuss.
By remarking obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus
curres all forms of

current tormand.

NERVOUS DISEASES AND DEBILITY,
And thus prevents or refeeves a great variety of other maladies, as Spaint Irritation, Neuralgia, St. Vitus Dence,
Sweening, Epitestic Fits, Compalsions, &c.
And yet he would fain have it understood that Old Dr.
Jacob Thomsend's Getinine Original Sursaparilla, is an
IMITATION of his interior preparation!
Heaven forbat that we should deal in an article which
would bear the most distant resemblance to S.P. Townsend's stricke! and which would bring down upon the Old
Dr. such a mountain load of complaints and criminations
from Agents who have sold, and purchasers who have used
S.P. Townsend's Permenting Compound. We wish it
understood, because it is the absolute truth, that S.P.
Townsend's article and Old Dr. Jacob Townsend's Sursaparilla are henvel-wide apart and infinitely dissimilar; that
they are unlike in every particular, having not one single
thing in common.

hing in consmon.

As S. P. Townsend is no doctor, and never was, is no

the virtues used in preparing it, and which are incapable of changes which sught render them the agents of disease ininstead of health?

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience, to cook and serve up even a common decent meal, how much more important is it that the persons who manufacture medicine, designed for weak stomarhs and coffectied systems, should know well the medical properties of plants, the best manner of soming and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedica to these diseases?

It is not possible for this medicine to do good; it has nothing in it which can ever harm, it can never som or spoil, and therefore, can never loose its curnitive properties. It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good dige tion, releves the loweds of torpor and constipation, allays inflamation, purifies the skin, equalizes the circulation of the blood, producing gentle warmth equally allower the bedy, and at the insensible perspiration; relaxes all obstructions, and invigonites the entire nervous system. Is not this, then, the medicine you pro-commently need? But can any of these things be said of S.P. Townsend's inferior article? This young man is liqued is not to be
