Dr. Townsend—Dear Ser. I had two children cured by your Saraparilla of the annunct complaint and dysentory; one was only 15 month old and the other 3 years. They were very much reduced, and we expected they would die; they were given up by two respectable physicians. When the doctor informed us that we must lose them, we resolved to try your Saraparilla we had leaved so much of, but had little confidence, there being so much stuff advertised that is worthless; but we are thankful that we did, for it undombtedly saved the lives of both. Decombet 31st says:

AN INVALUABLE MEDICINE.—We have frequently heard the Celebrated German Bitters, manufactured by Dr. Hoodhald, spoken of in terms of commendation, and we know deservedly so. It is a too common practice, in certain quarters, to puff all manner of useless trash, but is the above. Bitters, hundred, her fiving witnesses of their great moral and physical worth. As a medicine of the Liver Complaint, Jaundicc, Nervous Delaitty and Dyspessis, it has been found invaluable, effecting cures and theroughly cradicating diseases, when all other medicines have failed. We feel convinced; that in the use of the German Bitters, the patient chose not become debilitated, but constantly gains strength and vigor to the frame—a fact worthy of great consideration. The Bitters are pleasant in taste and smell, and can be administered under any circumstances, to the most delicate stomech.—Indeed, they can be used by all persons with this most perfect safety. It would be well for those who are much affected in the nervous system, to commence with one ten spoonful or less, and gradually increase. We speak from experience, and are of course, a proper judge. The press tar and wind, have united in recommending the German Bitters, and to the afflicted we most cordially advise their use.
