In the Lives of the Members of the Legis. lature of Pennsylvania, published in 1848, we find this notice of Mr. Morison, the Democratic nominee for the office of Canal Com-

"William T. Morison, whose parents removed from Petersburg, Virginia, and located in Abington township, Montgomery county, in the year 1801, was born and now resides, on the farm where his father first located. He received a liberal education, and at the age of 21 he engaged in agriculture, which pursuit he has continued to follow up to the present time. He has frequently been called, by his fellow citizens, to fill various places of trust and honor. He has officiated as Justice of the Peace, Director of the Public Schools, County Commissioner, and in 1848 he was elected to the State Legislature, in which he performed the part of a faithful and able representative, and won the good opinion of his fellow members by his correct deportment and gentlemanly

Mr. M. was re-elected to the House in 1849, and held a seat during the last session. Always at his post, he never shrunk from responsibility, but met every question as it came. His votes were Democratic.17

Mr. Morison, we should suppose to be about 45 years of age—is nearly six feet high, slightly but compactly built, and erect as an arrow. He is active and punctual in the discharge of business; and in the very prime of life, bodily and mental.

#### LATER FROM HAVANA.

We learn from Capt. Ward, of barque Rapid. which left Havana on the 13th instant, and arrived at New York on Sunday, that the trial of the prisoners taken at Woman's Island was still going on, on board of the Spanish seventy-four tying in the port. A large numfrom communicating with her.

The U. S. Consul, Mr. Campbell, and compersons confined on board, but the authorities refused to allow them to hold any communication, stating that they would be tried by the laws of maritime nations, and if found by the canal, and fronting on Northway, being 60 feet in front and —— feet in depth and known guilty, would be dealt with accordingly.

There have been several deaths among the persons confined on board of the seventy-four dwelling house. gun-ship. The captains were kept in confinement on board of the same vessel with those taken from Woman's Island.

Several persons have been arrested, put in prison, and their property confiscated, on and - feet in depth, and known in the general suspicion of being concerned in the invasion plan of said Borough as let No. 19, whereon are by General Lopez.

The U.S. sloops of war Albany and Germantown were lying off and on in the harbor, awaiting orders. It was the opinion of the American Consul that should the United States government demand the release of the persons taken from Woman's Island, they would be given up without further trouble. Spirit of the Times.

THE CABINET AT BALTIMORE.-The rabid Galphin correspondent of the New York Tri- said Borough, bounded on the north-west by 4th bline, writing from Baltimore, says:—"It is south-west by an Alley, and on the south-reast by much to be regretted, but it is nevertheless Alley, and known in the general plan of said Bo the fact, that the present Administration, so rough as lots No. 265, 166, 267 and 268, containfar as a portion of the Cabinet is concerned, ing each one-fourth of an acre more or less. has rendered itself peculiarly obnoxious and unipopular with many of the Whigs of this city, who were the first to support honest old street, north east by - street, on the south east Zack Taylor. The injury done the Whig by Washington street, and on south west by Susparty cannot easily be remedied."

APPOINTMENT OF MR. LAWRENCE CON-FIRMED .- Mr. Lawrence, our Minister to Scized taken in execution and to be sold as the England, was confirmed, on Tuesday last, property of John Shriner. by the Senate. Mr. Webster moved the confirmation, spoke carnestly in favor of it, and voted aye. A large number of other diplomatic appointments were confirmed at the TO THE VOTERS OF NORTHUMBERsame time.

The Conspiracy against California. -On Wednesday, Mr. Berrien, of the Senate, gave notice of an amendment to the Omnibus Bill-providing that California shall have one Representative only, and two Senators-the latter to be chosen by the Legislature after the duties of said office faithfully and to the best the passage of the act.

This is Nullification in its worst aspect-the dictation of the Federal authority to the States. The principle upon which California claims admission to the Union has been recognized in the cases of the Michigan, Arkansus and

She has a population, present and prospective, which justifies her in her claim to two Representatives. Yet the proposition to raze her down to the lowest rate of representation, is deliberately coupled with provisions for creating rotten-borough slave States, without actual population, out of Texas and New Me-

"How much unhappiness, discontent, and 'all uncharitableness' might be avoided, if men would daily school themselves to contemplate and realize the truth, not only of their own mortality, but of the transient and perishable character of all human fame.-The applause of the multitude is sweet, but it is the thing of a day-the flower that is fresh and fragrant in the morning, but droops in the hot noontide, and dies after a brief season. The cultivation of the neart after all produces a more desirable result, is unaffected by the heat or cold of human vicissitudes, and yields us choicest satisfaction in that dying hour when man most needs consolation and support."
