IMAGINARY EVILS.

BY CHARLES SWAIN.

Let to-morrow take care of to-morrow; Leave things of the future to fate ; What's the use to anticipate sorrow, Life's troubles come never too late ! If to hope over much be an error, 'Tis one that the wise have preferred ; And how often have hearts been in terror Of evils that never occurred !

Have faith -- and thy faith shall sustain thee-Permit not suspicion and care With invisible bonds to enchain thee, But bear what God gives thee to bear. By his spirit supported and gladdened, Be ne'er by "forebodings" deterred ; But think of how hearts have been saddene By fear-of what never occurred !

Let to-morrow take care of to-morrow; Short and dark as our life may appear, We may make it still darker by sorrow-Still shorter by folly and fear! Half our troubles are half our invention ; And often from blessings conferred Have we shrunk in the wile apprehension Of evils-that never occurred

"Billy,' says he, 'yon know Mazeppa; he has earned me a great deal of money, and 1 will not permit him to be misused, but if you want to ride him you may, and my stage manager, Tom Flynn, will go with you to the stable."

"So down I goes to the stable with Tom Flynn, and told the man to put the saddle on him."

"On Tom Flynn !" says Burton. "No, on the 'orse. So after talking with Tom Flynn awhile, I mounted him." "What, mounted Tom Flynn ?" "No, the 'orse ; and then I shook hands with him, and rode off."

"Shook hands with the horse, Billy ?" "No, damn it, with Tom Flynn ; and then I rode off up the Bowery, and who should I meet in front of the Bowery Theatre but Tom 'Amblin, so I got off and told the boy to hold him by the head."

PHENOMENA ATTENDANT ON IMMERSING that he has opened an entire new stock of elegant THE HANDS IN MOLTEN METAL .- Mr. Corne, styles of in a paper submitted to the Paris Academy of Science, says :

"Having determined on investigating the question whether the employment of liquid sulphurous acid for moistening the hands would produce a sensation of coldness, when they are immersed in the melted metal, I immersed my hands, previously moistened with sulphurous acid, in the metal lead, and experienced a sensation of decided cold. I repeated the experiment of immersing the hand in melted lead and infused cast-iron. Before experimenting with the melted iron, I placed a stick, previously moistened with water, in the stream of liquid metal, and on withdrawing it found it to be almost as wet as it was before, scarcely any of the moisture was evaporated. The moment a dry piece of wood was placed in contract with the heated metal, combustion took place. M. Coylet and I then dipped our hands into vessels of the liquid metal, and passed our fingers several times backwards and forwards through a stream of metal flowing from the furnace, the heat from the radiation of the fused metal being at the same time almost unbearable. We varied these experiments for upwards of two hours ; and Madam Covlet, who assisted at these experiments, permitted her child, a girl of nine years of age, to dip her hand in a crucible of red hot metal with impunity. We experimented on the melted iron, both with our hands quite dry, and also when moistened with water, alcohol, and ether. The same results were obtained as with melted lead, and each of us experienced a sensation of cold when employing sulphurous acid."

Brown's Essence of Jamaica Ginger. Prepared only by Frederick Brown, at hi Drug and Chemical Store, North East

Corner of Fifth and Chestnut streets, Philadelphia.

THE Essence is a preparation of unusual ex-L cellence and of varied properties. In all cases where a powerful and safe stimulant is required, it is unrivalled for efficacy as well as immediate action. To the traveller and to the family circle it is invaluable, as a few drops diluted in sugar and water present a safe and agreeable remedy to the invalid who requires immediate relief, as well as to the convalescing patient who needs a gentle tonic. In a Southern climate, where the relaxa-

tion of the system so generally induces thirst for stimulants, it will always be found an excellent substitute for those tempting beverages which de-bilitate the stomach and cause a morbid condition of its powers. In dyspepsia, in relaxation of the bowels, in naussea and sea-sickness, it is an active and safe as well as a pleasant and refreshing remedy, and is prescribed by the most eminent of the medical faculty. A supply of the above received and for sale by H. B. Masser, Sunbury.

PHILADELPHIA, October 31, 1840. PHILADELPHIA, October 31, 1846. Several years since I was attacked with a breaking out on my neek in the form of Tetter, which I am convinced was contracted at the likerber's Shop. It grandually extend-ed over my face until it reached the upper part of the cheeks. During the several muths that it continued spreading, I used different applications, sume of which had the effect, apprently at least, of increasing the disease, but from none of them fild I perceive the least beneficanti I applied the Rose OTSTRENT. By the use of one jur of it, I was perfectly cured and have remained free of the affec-tion.
