We should like to have some solution of all this. There is bad management some left untried before the election. The imparty disclosed the facts. The penalty is where. There are careless or incompetent officers-either fault is equally reprehensible-employed, and the Canal Commissioners should see to it. The people cannot afford to have their money wasted or their revenue decreased. If incompetent men are employed, they should be discharged at once. By a slip received to-nigh from the Charlesafter directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. The Captain General, mustering the milita. on Monday the 18th day of November, between had caused them to be disbanded. This created much dissatisfaction between the Captain General and the people. The rumor is supposed to have originated by sugar speculators, with the object of bringing down the price of sugar.
