To the traveller and to the family circle it is invaluable, as a few drops diluted in sugar and water present a safe and agreeable remedy to the invalid who requires immediate relief, as well as to the convalescing patient who needs a gentle tonic. In a Southern climate, where the relaxation of the system so generally induces thirst for stimulants, it will always be found an excellent substitute for those tempting beverages which debilitate the stomach and cause a morbid condition of its powers. In presenting the public with a remedy for the treatment and core of FEVER AND AGER and other billions diseases, no apology is needed. Vest numbers in the United States, who saffer from these affections in their varied forms, are compelled to seek relief from other sources than the immediate prescriptions of the regular physician. It becomes therefore an object of humanity, as well as of public interest, to bring before them a remedy prepared from much experience, and which may silvery be relied upon as SAFE, EFFECTUAL, AND HARMLESS TO THE CONSTITUTION. That such is the true character of the INDIA CHOLAGOGUE, is amply attested by the universal success with which it has been employed.

COLUMBIAN SERIES OF

Arithmetics. work is already introduced into some of the best Acadamies and a large number of Schools, where its use has given decided and universal satisfaction, both to teacher and pupil. It is purely American in its character, based upon our own beautiful decimal system of currency. It contains more, the arrangements are better, and it is the easiest and cheapest work of the kind now in use; and it is so considered by hundreds of the most competent teachers and men of science in the Uni-on, who have recommended it. It is the book,

particularly and expressly prepared for our Ameican Scholars . By Almon Ticknor, The Youtu's Columbian Calculation.—This ume contains 91 pages, with about 900 examples for solution on the slate. It embraces the Fundamental Rules, Compound Rules, Simple and Compound Reduction, Single Rule of Three,

Proportion, &c. TICKNOR'S ARITHMETICAL TABLES, is destined for the use of younger classes in the Schools of the United States. A beautiful little book and pleasing to children, and the only one of the kind of any

There are Keys to both Arithmetics bound single or double, for he convenience of teachers, in which the solutions of the questions are given with much extra matter for the black board. These Keys are the most complete works of the kind over published, and contain, in addition, about two hundred examples in Mensuration, &c., for the use of the Teacher. All that is wanted is to have the above books examined, and no teacher who is acquainted with the science of Arithmetic, will hesitate to pronounce them the best works that have ever been published in this or any other

Although issued but a few months, they have already been introduced into the Night Public Schools of New York City—in all the Schools public and private, except two, in the City of Reading, Also, in about twenty Acadamies in the Schools in the American Republic, by Alms State of Pennsylvania—in a large portion of the Ticknor, a Teacher of twenty-five year's exper Schools in the City of Wilmington, in the City of Lancaster, and in the Boroughs of Harrisburg, York, Chambersburg, Lebanon, Doylestown, Potis

As I thus that a public acknowledgment of the great benefit I have received from the use of your medicine is not only due to you, but may be useful to others, I now make it. For several years I suffered from Dyspepsia, which increased to such an extent that my health and constitution were rapidly sinking under it. I was compelled to restrict myself other nost simple fixed, and even that I could not digest. I felt a loss of strength, diamelement, a general foeling of depression and indescribable weariness. In the year 1838, hearing from others high recommendation of your Auti-Dyspeptic Elkin, I procured and used it with the most bappy effect; under it influence language and wurdense grashably passed away, and my appetite returned which I could gratify soith impanity. Ten years have now clapsed, and my confidence in the curative powers of your modicine has of course increased, for it completely cared me when I failed to obtain relief from any other source.

Very respectfully yours.
