

THE SEVENTEEN YEAR LOCUSTS.

According to the prognostication of those acquainted with the subject, we are to have, during the coming summer, in this vicinity the seventeen year locusts.

In the whole range of natural history there is nothing more strange than the fact, which has been established with as much certainty as any fact in astronomy ever was, that a little insect not as large as the smallest ant shall pass into the ground and remain there seventeen years and emerge in the form of a comparatively large insect; or, that a certain tribe of insects shall appear here in immense numbers—numbers almost equal to those of the sands on the sea shore—exactly once in seventeen years, always in the same month, almost on the same day and same hour.

From the 1st to 20th June, all shrubbery of value should be protected, either by carefully covering it with cheap gauze, or in the case of pot plants, by keeping them in the house. About the 25th of July the eggs will be ready to hatch. Then take a limb containing them, cut carefully till you expose the eggs, and take them out, place them in the palm of the hand, and they will hatch in a few minutes.

These observations can only be made with a good magnifying glass. By the aid of the glass you will see the young insects has every feature and member precisely the same as the large one had when he came from the ground in the spring.

limb, and repeat the operation, till she has laid about 400 eggs. The eggs are white, or pearl color, about the 12th of an inch long and about one sixth as thick as they are long.

EDITOR'S TABLE.

Business Notices.

We refer our readers to the advertisement of Mrs. Mary Weaver, of Pottsville, who has opened that large and commodious Hotel, THE AMERICAN HOUSE, in that place.

WACOUTA ON THE PROPHET—An Indian Tale by Major Richardson.—This is a republication of a most exciting border tale, which we read with deep interest some ten years since when it was first published.

PRINTING INK.—A few kegs for sale for cash at this office.

We are indebted to the Hon. John A. Gamble, Esq., for the Canal Commission's Report. To the Hon. Joseph Casey for another volume of the Congressional Globe.

The rain of Sunday night and Monday last, has raised the river, and the ice was carried off on Tuesday evening last.—The Susquehanna was frozen over in one night, about ten days previous. The ice was about six inches thick and was strong enough to cross with a team, though it was only used by foot passengers.

In the House of Representatives on Wednesday the 5th inst., Mr. Packer read in place a bill relative to the Danville and Pottsville Rail Road Company, also a bill to incorporate the Big Mountain Improvement Company; and also a bill to incorporate the Carbon Run Improvement Company.

JUDGE WOODWARD.

At the late January Court held at Bellefonte, Judge Woodward, at the close of his charge to the Grand Jury, embraced the occasion to deliver to them and to the Court his farewell address.

The election of directors of the Pennsylvania Railroad Company took place in Philadelphia, on Monday the 3d inst., and after a spirited contest the following named gentlemen were chosen.—Wm. C. Patterson, Thos. T. Lea, Geo. W. Carpenter, John Yarrow, Samuel V. Merrick, David S. Brown, C. E. Spangler and Washington Butcher.

If the Muncy Luminary don't quit calling the "Star" a "rascal non-descript" paper and raising it in company with the Sunbury American, Danville Intelligencer, &c., there will be a libel-suit on something else desperate. We are good natured but we can't stand that.—Blossburg Star.

Nor can we stand any such insinuations. We supposed friend Painter had a greater regard for our reputation as a consistent democrat and friend of American industry, than to put us in the same category with those whose doctrines tend to the promotion of British and foreign industry generally, in preference to our own.

The Muncy Luminary says some "graceless scamp" stole eight chickens from the coop of one of the citizens of that place a few nights since. We have a number of the same gentry in this place, but we call them thieves, and look upon them as the meanest kind of thieves, not even excepting the sheep thief.

Some fellows, we learn from the Luminary, a few nights since stole the horse of Joseph Stauffer, of Muncy township, but fearing he would be tracked in the light snow, let the horse loose at House's tavern in Montour county.

SHOOTING MATCH.—The great shooting match for the large ox weighing 1300 lbs., was to have terminated on Thursday last, but was continued the next day.

APPOINTMENT.—We neglected last week to notice the appointment of Charles J. Bruner, Esq., of this place, as Commissioner under the Fugitive Slave Law.

JUDGES OF THE SUPREME COURT.

The subject of the election of the Judges of the Supreme Court is already exciting considerable attention in almost every section of the State. We mentioned last week that Charles W. Hedges, Esq. of Pottsville and recently of this place was highly recommended for that station by the Pottsville Register.

J. W. Maynard, Esq., of Lycoming is also recommended in the last Lycoming Gazette for that station. Mr. Maynard is one of the most talented lawyers in Northern Pennsylvania. His qualifications for the station are undisputed.

Joshua W. Comly, of Danville, is also recommended by the Danville Democrat for that station. Mr. Comly sustains a high reputation at the Bar for his legal learning, and possesses all the requisites, as a gentleman and a lawyer, necessary for that station.

LIEUTENANT GENERAL.—The Senate has passed the bill conferring the rank of Lieutenant General on General Scott.

THE FOUR GREAT STATES.—The complete census returns of Ohio give her a population of only 1,933,140—a full hundred thousand less than was expected.

We have the Old Keystone even ahead of Ohio, and showing a per centage of increase which may make her neighbors, North, South and West, stand aside. It will be interesting to look a little further back—say as far as 1820, when Virginia was the second State of the Union, and compare the growth of these four States from that period:

Table with 4 columns: State, 1820, 1850, Increase, Per cent. Rows for New York, Pennsylvania, Ohio, Virginia.

SENATE.—Petitions, Memorials, and Resolutions.—Petitions and memorials were presented for and against the change of place of holding elections in Bloekley township; in favor of an alteration in the constitution so as to extend the right of suffrage to all persons without distinction of color; for and against the repeal of the kidnapping laws; a memorial from citizens of Philadelphia in favor of the passage of a law making county officers in the State House Row salary offices, in favor of renewing the charter of the Easton Bank; against the erection of the new county of Mahoning; in favor of a law allowing banks in this State to issue small notes; in favor of the construction of a railroad from Pottsville to Philadelphia; in favor of free banking; against consolidation.

THE OWEGO MURDER, &c. Owego, Feb. 8, 1851. It appears from the evidence, that there was a difficulty between Garrison and his wife, so that Mrs. G. had left his house the day before, and gone to the house of her brother, John M. Thurston. She took their only child, a girl six years old, with her.—Thurston went in the afternoon to see Garrison in relation to the custody of the child, and had invited Garrison to come to his house in the evening to talk the subject over with his wife, when they separated, Thurston returning home.

Soon after, Garrison started to go to the house of Thurston, and again met Thurston near his own house. Thurston returned in company with Garrison to the house. Garrison stopped at the door, and requested the child to be sent to him. His wife said if he wanted to see the child he must come in.

Garrison then went in, and Thurston handed him a chair, and immediately passed out through a back door to the wood house. Garrison had become seated, and taken his child on his lap, and was playing with it, when Thurston returned from the wood house with an axe, and approaching Garrison from behind, struck him in the head with the edge of the axe, burying it in his brain. He then repeated the blow, which took effect on the side of his face, severing the lower jaw from his face.

Garrison died instantly—retaining his position in his chair, and the child on his lap. Garrison's wife asked her brother why he had killed Garrison? He replied that "he could not help it."

Thurston does not evince the least contrition for the deed, but told the Sheriff to take that he had "served Garrison right, and he was not sorry he did it."

A RICH FISHER, in Auburn, N. Y., is to be buried in Owaseo Lake, a beautiful sheet of water near that town. He has a stone coffin made, which takes twelve yoke of oxen to draw it. He gives a man a nice farm for burying him. He is to take him into the middle of the lake, and sink him.

It is said that the coast of New Jersey is amply supplied with Francis' life boats, and that more than 400 lives have been saved by these within the past year.

PENNSYLVANIA LEGISLATURE—Session 1851.

HARRISBURG, Feb. 8. House.—Original Resolutions.—Mr. Gossett moved that the Committee on Ways and Means be instructed to report a bill ascertaining and fixing the amount of tax on tonnage, and all duty on all passengers over the York and Cumberland railroad, agreeably to the charter of the company. After a debate the resolution was adopted.

Mr. Haideeman moved that the Committee on Inland Navigation be discharged from the further consideration of the supplement to the York and Cumberland Railroad company; and that it be referred to the Committee on Corporations. After debate it was disagreed to.

Mr. Cassidy moved that this House do not hereafter consider any petition for a divorce, unless the petition has appended to it an affidavit of service of thirty days' notice on the opposite party, of the presentation of the same; and that no depositions will be considered unless proof of service of ten days' notice on the opposite party be given, and was agreed to—yeas 57, nays 26.

Reports of Committees.—Mr. Busham, (Judiciary,) a bill to encourage the apprehension of those who may have committed murder in the first or second degree; also, a further supplement to the act relative to the acknowledging and recording of deeds.

Mr. Cassidy, Judiciary, with amendments, a bill requiring Justices of the Peace in criminal cases to return a transcript of their docket; also, with a negative recommendation, a supplement to the act for the limitation of actions; also, with amendments a bill relative to actions on policies of insurance against fire.

Mr. Bigham, Judiciary, with a negative recommendation, a bill to compel assignees to settle their account; also, a further supplement to the act to enable aliens to purchase and hold real estate, with a negative recommendation.

Bills in Place.—Mr. Feather, a supplement to an act entitled "An Act to revise the Militia system, and provide for the training of such only as shall be informed," passed the 17th day of April, 1849.

Mr. McLean, a supplement to the act regulating Banks, 1850.

Mr. J. Brown, in the incorporation of the Farmers' and Mechanics' Bank of Easton.

Mr. Packer, a bill relating to the granting of new trials in the courts of quarter sessions.

The Tariff resolution came up in order, when Mr. Laughlin continued his remarks in favor of protection. After he had concluded, Mr. Griffin commenced his remarks on the subject, when the House adjourned.

SENATE.—Petitions, Memorials, and Resolutions.—Petitions and memorials were presented for and against the change of place of holding elections in Bloekley township; in favor of an alteration in the constitution so as to extend the right of suffrage to all persons without distinction of color; for and against the repeal of the kidnapping laws; a memorial from citizens of Philadelphia in favor of the passage of a law making county officers in the State House Row salary offices, in favor of renewing the charter of the Easton Bank; against the erection of the new county of Mahoning; in favor of a law allowing banks in this State to issue small notes; in favor of the construction of a railroad from Pottsville to Philadelphia; in favor of free banking; against consolidation.

Pennsylvania and the World's Fair.—The Senate adopted a joint resolution, authorizing the Governor to nominate Peter A. Brown, Esq. of Philadelphia, to the Executive Committee of the World's Fair now sitting at Washington, to proceed to London to attend to the Fair, and there take charge of the interests of such Pennsylvanians as have sent thither objects for exhibition; to use his best endeavors to collect information that may be useful to us, and to make a report at the next session of the Legislature.

Bills Passed.—A bill providing for the publication of the Colonial records and other original papers in the office of the Secretary of the Commonwealth.

HOUSE.—The Pennsylvania Volunteers.—At the afternoon session, the House passed finally the bill relative to the payment of First and Second Regiments of Pennsylvania Volunteers, who served during the Mexican campaign.

A FIELD OF CORAL. In the immediate vicinity of Bermuda, says the New Orleans Picayune, is a field of corals, some twenty miles by ten in extent, which, seen through water several feet deep and perfectly transparent, presents an object of great beauty and richness. The prisoners at that establishment are frequently employed to procure, by diving, specimens of coral from that exhaustless field of beauty and richness, which are sent to numerous cities and individuals on both continents, for ornaments upon mantle pieces. In many places coral rock is used as the only building material. For forts it is probably preferable to any other material. It is more difficult to shatter by cannon balls than any other rock. Though not hard, it is tough.—Coral is the carbonate of lime. The Potomac marble, used for pillars in the assembly chambers in the American Capitol, is calcareous pudding stone. It is composed of pebbles of the carbonate of lime, of various sizes, from that of a man's head to grains smaller than a pea.

LEAD FOR INDIA.—The St. Louis Intelligencer says that Messrs. Whittaker & Palmer of that city, are filling an order for Babcock & Funnell, of New Orleans, of 12,000 pounds of lead, intended for shipment to Calcutta. The lead is put up in cans of 25 pounds each, and is the first shipment ever made direct for that quarter.

A WORD TO THE MARRYING.—Let thy liking ripen before thou lovest; let thy love advise before thou makest choice; and let thy choice be fixed before thou marriest."

GEN. MIRABEAU B. LAMAR, ex-President of Texas, was married in New Orleans the 29th ult., to Henrietta N. Maffit, daughter of Rev. J. N. Maffit by his first marriage.

Miscellaneous Matter.

TROUBLE AMONG THE MORMONS.—The Detroit Tribune says that application has been made to the military commanders in Mackinac for the interposition of the U. S. troops to protect the rights and government of citizens at Beaver Island, from the outrage of the Mormons.

DR. JOHN COOPER, an old and respectable physician of Easton, died at his residence on Sunday evening last, in the 87th year of his age.

M. THURM is reported to have said in a speech in one of the bureaux of the French Assembly during the discussion of the Changar difficulties, that he defied any one to restore absolute power in France. He also made up this remarkable expression, "If Napoleon rose from his grave he could not do it."

REVENUE OF ILLINOIS.—It is stated in the Message of the Governor, that now, for the first time for several years, the revenue of Illinois, exclusive of that appropriated to specific purposes, is sufficient to meet the demands on the treasury. The state debt is \$16,627,507 91.

THE CHESTER COUNTY MURDER.—CONVICTION OF PHAROAH.—George Pharaoh, tried at West Chester last week, for shooting Miss Sharpless, the teacher, has been convicted of murder in the first degree. Pharaoh is a nephew of Jabez Boyd, who was convicted and hung for the murder of Wesley Patton in Chester county some five or six years ago.

VAYER'S CHERRY PECTORAL. For the Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, CROUP, ASTHMA, WHOOPING COUGH AND CONSUMPTION.

The uniform success which has attended the use of this preparation—as salutary effect—its power to relieve and cure affections of the Lungs, have gained for it a celebrity equalled by no other medicine. We offer it to the afflicted with entire confidence in its virtues, and the full belief that it will subside and remove the severest attacks of disease upon the throat and Lungs.

VALENTINE MOTT, M. D., Prof. Surgery Med. Coll., New York, says— "It gives me pleasure to certify the value and efficacy of Ayer's CHERRY PECTORAL, which I consider peculiarly adapted to cure diseases of the Throat and Lungs."

THE RT. REV. LORD BISHOP FIELD, writes in a letter to his friend, who was sinking under an affection of the Lungs— "By the CHERRY PECTORAL and my medicine can give you relief, with the blessing of God that will."

CHIEF JUSTICE ESTLIN, of Louisiana, writes—"That a young daughter of his was cured of several severe attacks of Croup by the CHERRY PECTORAL."

ASTHMA AND BRONCHITIS. The Canadian Journal of Medical Science states, "That Asthma and Bronchitis so prevalent in this temperate climate, has yielded with surprising rapidity to Ayer's CHERRY PECTORAL, and we cannot too strongly recommend this skillful preparation to the Profession and public generally."

Let the relieved sufferer speak for himself.— HARRISBURG, Jan. 26, 1852. Dr. J. C. Ayer—Dear Sir—Having been rescued from a painful and dangerous disease by your medicine, gratitude prompts me to send you this acknowledgment, not only in justice to you, but for the information of others in like affliction.

A slight cold upon the lungs, neglected at first, became so severe that spitting of blood, a violent cough and profuse night sweats followed and fastened upon me. I became emaciated, could not sleep, was distressed by my cough, and a pain through my chest, and all the alarming symptoms of quick consumption. No medicine seemed at all to reach my case, until I providentially tried your CHERRY PECTORAL, which soon relieved and now has cured me.

Yours with respect, E. A. STEWART. Albany, N. Y., April 18, 1851. Dr. Ayer, Lowell—Dear Sir—I have for years been afflicted with Asthma in the worst form; so that I have been obliged to sleep in my chair for a large part of the time, being unable to breathe on my feet. I had used a great many medicines, to no purpose, until Mr. E. A. Stewart presented to me an experiment, your CHERRY PECTORAL.

At first it seemed to make me worse, but in less than a week I began to experience the most gratifying relief from its use; and, now, in four weeks, the disease is entirely removed. I can sleep on my bed with ease, and enjoy a state of health which I had never expected to enjoy. GEORGE S. PARANT. Prepared by J. C. AYER, CHESTER, LOWELL, MASS.

Sold by Henry Messer, Sunbury; Mary A. McVay, Northumberland; Dr. Gearhart, Northampton; Dr. Bidley, Danville, and Druggists generally.
