#### VEGETABLE CATTLE POWDER PREPARED BY

BREINIG, FRONEFIELD & CO. No. 187 North Third Street, Philadelphia. No. 187 North Third Street, Philadelphia.

THIS powder is entitled by the united tentimony of all who have used it to the first rank of all those CAT-TLE MEDICINES, which have been thought praireworthy for may years. Indeed we challenge any persent to make a superior, or may powder that acts in the same manuer. If the animal be perfectly healthy it will either increase the amount of milk or cream and batter; or the animal will improve rapidly in fat. It will therefore in time be considered we have no doubt one of the simple articles of overy Farmer, who keeps a diary; and of every person owning a house. It is not one of those kind of Mixturnes that merely swell an animal up for a short time, but it will by the expanity which it has of converting HIPPURIC ACID (which is an effets matter) into Lactic ACID (which is an effets matter) into Lactic acid of other cases a greater amount of nutritions matter to be extracted from the same amount of food, than possibly could be, were the active principles of matrition to poss out of the system in the form of Hippurae Acid.

We have received a multimde of evidence to prove what we have said above. Suffice to say:

We have mixed the active agent, with a great number of Vizing anity plants and better appetite and promoting digestion of the food; thus securing a healthy condition of the blood, from which the Milk and Fat must be formed. It may be used for Honsels, Cows and Hous for the following complaints and diseases.

HORSES.

HORSES. YELLOW WATER, a dangerous sickness, which de-stroys many valiable houses every year, is very often entirely cared by the free use of this powder, in all cases it will prevent the disease from coming on. This disease is owning to a bad and impoverished state of the blood which becomes thin, watery and of all yellow

This powder by improving the stomach and giving to

This powder by improving the stomach and giving to the blood a greater quantity of red particles, affords the best and only possible chance of recovery. If the horse is far gone, give morning and night a lablespoonful in wet feed, if in the beginning once a day at noon, if only to prevent the disease twice a week.

SLABBERING.—This is the rubation of many values the Horses by exhaustion; by a constant discharge of saliva which ought to go into the stomach to assist digestion. It is a species of salivation often produced by Evan's To-bacco growing in the pasture ground. A Tablespoonful three times a week will frequently arrest the flow, if it does not depend on the Tonacco in the grass, under such circumstances the animal must be kept in the stable.

DISTEMPERI.—If the powder is early and freely used, no other remedy need he used, it has already cared busifieds of Houses of this troublesome disease to the surprise of those who used it. If not used early, before matter has formed in the neck it cannot restore the animal perfectly until the matter is discharged, use it early and prevent such a result. A Tablespoonful once or twice a day is easingh.

GIANDERS.—This discuse has baffled all Farrins,
—Give this powder a fair trial and it will do wonders in
this territise and hitherto incurable smalady. It is a discuse
of the glandaria system and kept up by imperiect nutrition,
in such cases a Tablespoonful every day twice for a month

cows. COWS.

A Ball is to be given within the palace of class, the profits of which are to be handed of Milk, Cream and Butter; some who have tried the experiment say a Pound a. Week, others say half a pound while one person insisted upon it that he made two pounds more a week from — h Cows. We think it will be found to average from a f 'to a pound per week on each Cow, if the Cows are pertectly healthy. This additional amount is made by the conversion of the Hippaire Acid into Nitrogenous and fatty compounds; also by supplying the coygen taken in by the lungs, with the elements of reaction; without taking any of the Nirrogenous portion of the feed. HOLLOW HORN or WOLF; HOOF DISEASE, and all other diseases of near cattle depending upon a laid state of the fluids, are removed speedly and effectually.—Cows, whose milk is bloc, thin and watery said where it does not yield much cream, or where Cows give bloody milk, or which are used to stand long dry, it will be found an almost infallities remedy, by improving the condition of the blood and creating a healthy digestion; a Tablesquonful every day or every other day as it may be necessary.

HOGS.

Pigs in the summer often overheat themselves, get awalled necks, coughs, alters in the Lungs and Liver, which cause them to die very suddenly, these may be prevented eatirely by patting a pound or a half into a Barrel of swill; and it will at the same time considerably hasten the fattening process.

As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to it their health, as we know from experience the salutary effect they have upon week systems."

More Evidence. The "Philadelphia Saturday Gazette," the best family ewspaper published in the United States, the editor says

Dr Hoodand's German Bitters. Dr. Hoo famil's German Bitters.

"It is schom of a we recommend what are termed Patent Medicines, to me confidence and patronnes of our readers; and, therefore, ben we recommend Dr. Hoof-lad's German Bitters, we wis it to be distinctly under stood that we are not speaking of the nestrants of the stood that we are not speaking of the nestrants of the gotten after they have done their guilty race of unsched, but of a medicine long established, universilly prized, and which has not the hearty approval of the Paculty steef?"

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strengest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nestrous combined, a fact that can easily be established, and fally preving that a scientific proparation well meet with their quest approach

a ract that can easily be established, and faily proving that a scientific proportion will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Considers and Dyspersia, no one can doubt, after using it as directed.
