A NEW PRODUCTION:

The Journal of Commerce gives an account of a novel production which the Bay State Mill-those which recently drave the Britsh Shawls out of the market-have produced. It is a Felt-Cloth Carpet, printed in black work, and designed according to weight either as a floor-cloth or drugget. The threads of Bennet Mathew wool are not spun or woven, but drawn out Bloom Wm and laid together, the whole mass being fel. Bower Christian ted like a hat body. Within a few mouths, Bickurd sr Jacob fabrics have been put together in this way, Campbell John showing a different color on either side, and Culp Jeremiah designed for coats to be made up without Choser K J lining. The Bay State Mills make this Chamberine Elbeth H Strickland James cloth with a white ground, about 48 inches wide, weighing from 4 to 21 ozs. per yard, Deats Gilbert and print it in elegant carpet designs, show-259,164 83 ing the richest combination of brilliant Ebright John colors, and furnish it at 75 to 90 cents per Frick Chas II yard Already the carpet-bag makers are ordering entensively for their own use-and Gass Joseph for the floor of a drawing room or chamber Kreighbaum P there is no covering so cheap, at all compar- Keeler Margaret able with it for appearance or comfort -The Bay State Mills, the Journal says, have Lamfers Chas been driven to invent something new by the Lower Tilehman home competition in the shawl trade. The Martz Solomon moment any branch of industry is so well established as to yield a profitable return, a rival enterprise is immediately started, which takes advantage of the experience gained without cost to itself, and divides the business with the pioneers in the work.

PROSPECTUS FOR THE GLOBE. The approach of Congress cain for the renewal of my programs and preparations to spread its debates before the public. The success which has believed attended this underteating it is looped will creating, and camble me to perpetuate the full history of the proceedings and discussions of the body on which the desired of the Republic depends.

undertishing it is hoped will continue, and eachie me to perpetione the fold history of the proceedings are described in the post of the body on which the destiny of the Republic depends.

The adoption of Congress has given the Gross as official character as the reporter of all that is said and done in the body. This sometion has been rotted at every successive assaion for many years, and by members of all parties. The press, two, of all parties has been been for the desiry with which the delpt thus consided has been performed.

The celerity with which the letter writers for the distant press circulate through the being raph their fourisd accounts and views of the debates of Congress, reader more important than ever the full and exact official reporter. He concernsional Globes, for the met part, the exact reporter when down by reporters, and which formerly, in a shape more of less abbreviated, went the rounds of the press.—Now to be feeling accounts, with all their emperiestions and viver down by recommendation of the construction of less abbreviated, went the rounds of the press.—Now to be feeling accounts, with all their emperiestions and variety of colorings, take the run of the construction and variety of colorings, take the run of the construction of less but the delate with the proceedings of both Houses uncontributed, buttered, no newspaper can good farm, and have room for advertisements and the miscella, some matter exemble to their existence. While, a erefore, the telegraph administers to the cager appetite of the public. The congress over publishes the fall in the case of the follows of the public of the official received in the case of the follows. Still there are a great many mea of lebuce and thought who like to see what is actually and more the necessations of the public of the public of the case of the follows of the department of the three parts and thought who like to see what is actually and there are a great many mea of lebuce and thought who like to see what is actually easily and the leaves

the next session, and there will scarcely be a measure introduced, or a speech made, that will not have some bearing on that attendancing question. If national con-ventions of the respective parties are celled together to nominate the candidates of each, the Congress which precedes the conventions always salars the occasion, by precedes the conventions always seizes the consistin, by intricipation, to discuss, in connection with public measures, the users of the men looked to the give them effect in the administration. If the people, then, would have their share in the choice of them first functionaries, they ought to study well the character of condidates as developed by themselves, their friends, and their member in Congress. The canied will be the natural from which the people of the United States will be addressed on the subject of the United States will be addressed on the subject of the United States will be addressed on the subject of the United States will be addressed on the subject of the United States will be addressed on the subject of the United States will be addressed on the subject of the United States will be addressed on the subject of the United States will be addressed on the subject of the United States will be addressed on the subject of the United States will be addressed on the subject of the Chief and in the impartial reports aloud be obtained of the action of a body, which will give an impalies to the Republic in a new career, and which, in a very great degree, influence the public mind in the choles of the Chief Magastrate who is to carry out the will of the people as constitutionally expressed.

The undersigned has made preparations commensurate with the increased importance of the duty he has underse.

with the increased may make preparallies commonwrate with the increased importance of the day he has undersken as the only reporter and publisher of the complete debates and proceedings of both Houses of Congress. The camp easier will probably be estimated into months, and the reports will not be comprised in less than 35,000 nen.
I will publish in the Appendix for the next session, all

laws that may be passed during the season, which has not been done herets ore. Although this will increase in as small degree the expense of the publication, the subscrip-tion price will be the same that it am been for several years past.

The Datty Globe will be published during the session on a superfine double royal suect. It will contain the debates as taken down by the reporters, and as altered

on a superfine double royal sneet. It will contain the debates as taken down by the reporters, and as altered by the speciators, whenever they make any siterations; the current news of the day and the micellaneous matter. The main object for publishing the daily paper is, to susbite Members to see their remarks in it, and after them if they shall think proper before they are published in the Cangressional Globe and Appendix.

The Congressional Globe is made up of the daily proceedings of the two Houses of Congress, and printed on a daube royal paper, with small type, threvier and majorited in quarts paper, with small type, threvier and majorited in quarts paper, with small type, therefore and majorited in quarts paper. The speeches of the Members, in this form are sametimes condensed—the full report of the prepared speeches being reserved for the Appendix.—All resolutions, in chost and other proceedings, are given in the form of the Journals, with the year and may one every important question.

The Appendix is made up of the President's Annual Message, the Reports of the principal Officers of the Government that accompany it, and all Speeches of them bets of Congress, written out or revised by themselves.—It is princed in the stood form as the Congressional Gioleg, and manually makes about the same number of pages during a session.

Derivate the few means of an assession, there

one assume about the same number of pages during a session.

During the first month or all weeks of a session, there is rarely in ore bishores done than will make two numbers a week—our of the Congressional Globe and one of the Appendix, but during the remainder of a session, there is askindly sufficient matter for two or three numbers of sech and every week. The next session will be unumerably interesting; therefore, I calculate that the Congressional Globe and Appendix together will make at least 35,000 large quarter pages, printed in small type—bravier and a upstriet. Conglete Indexes to both will be formatted at the end of a season.

I will indexes to the state of a sufficient number of ascolus.

inshed at the end of a session.

I will indexive to print a sufficient number of strplas copies it supply at that may be miscarried, or lost in the mails; but subscribers should be very particular to file their papers carefully, for fear that I should not be able to supply all the lost numbers.

If subscribers sholl not be extended with the work, the many paid by them for it will be refunded to them whenever they return the numbers which may have been received by tiften. I will give subscribers the subscription price for any of the previous volumes of the Congressions! Globe of the Appendix, except for the last tession, and will thank may person who will tell me here then.

hem.
I have a few copies of the back volumes of the Con-ARRANTED to stand equal heat with any other Chests in the country, and to at least \$10 a volume, as they cannot be repless than that sum. There are 25 back volumes

TERMS.

For one copy of the Daily Globe during the session, For one copy of the Congressional Globe during the session.

For one copy of the Appendix during the session, The money may be remitted by mail at my risk. Bank notes current where a subsreiber re

sides will be received at par. Subscription, should reach here by the 15th December, at furthest to insure the number. The prices for these papers are so tow that ? cannot afford to credit them out ; therefore no person need order them unless the money ac. m-
