

CALIFORNIA NEWS.

ARRIVAL OF THE CERCENT CITY.

TWO WEEKS LATER FROM CALIFORNIA.

82,500,000 IN GOLD DUST

New York, May 2. The steamship Crescent City arrived here this morning from Aspinwall City, Navy Bay, bringing \$2,000,000 in gold dust on freight, and \$600,000 in the hands of passengers.

She left Aspinwall City on the 23d of April, and brings the mails brought down to Panama, by the steamship "Golden Gate" which left San Francisco on the 5th ult. Her passengers from San Francisco have come through in 27 days. They passed over the Panama Rail Road from Boons Vista to Aspinwall. The road is now completed from Aspinwall to within twelve miles of Gorgona, and passengers are then enabled to make the distance from point to point in one day.

Just as the Golden Gate was about leaving Aspinwall, an express arrived with intelligence that both houses of the Mexican Congress had rejected the Tehuantepec Treaty by a unanimous vote, on the 17th of April.

A line of American steamers will shortly be put upon the route between Panama and Callao, touching at all the intermediate ports.

The gold mines of Choco are exciting great interest at Panama. They are situated on the great water course between the gulf of Darien and the bay of Buenaventura. The water course will shortly be made navigable to the mines, as they are known to be immensely valuable.

Lead water still sells at Panama at two times per drink.

The dysentery has made its appearance on the Isthmus. It is of the most violent type.

The floods have entirely subsided, and business of all kinds is improving.

The intelligence from the mines is of the most gratifying character, the yield of gold having been immense.

The Mexican Boundary Commissioners left San Francisco in the Golden Gate, intending to cross the Plains by way of the Gila and Rio Grande, for the purpose of completing the survey.

The late floods have left a rich harvest for the miners.

Immigration from the cities to the mines had commenced, including large parties of Chinese.

At Yalcoita, recently a party mined up a lump of nearly pure gold, weighing twenty six pounds. At Sonora, the earth, since the flood, yields three hundred per cent more abundantly than ever.

Advices from all the mining districts are extremely encouraging.

A war of extermination has been declared against the Indians by the whites of Klamath. A party of settlers and miners surrounded two lodges, recently, at Indian Ferry, shot the men and several squaws, and destroyed the ranch. From thirty to forty Indians were killed.

REFORM IN CONGRESS.

The proposition to pay members of Congress a fixed annual salary, instead of the present compensation of eight dollars per diem, appears to us one of the most sensible reforms which has been proposed for a long time.

The suggestion is to give each member one thousand dollars for the short session, and two thousand dollars for the long one, a sum quite sufficient, we should think, and about equal to what is now received, mileage excepted. There can be no doubt that much time is now uselessly wasted at Washington, and as little, we believe, that this plan will assist to prevent this in future. When members know that no matter how long they remain in session, their compensation will not be increased, they will gradually fall into the habit of despatching business as soon as possible, in order to return to their private affairs; for human nature is the same with mighty Congressmen as with humble common folks. Our national legislature, in its despatch of business, compares most unfavorably with the British parliament, the only other legislative body in the world approaching it in freedom and majesty. It is a disgrace, in truth, to us that Congress has become so talkative, and has ceased to do its work. Every year that Congress continues in its present state, is a year that the country loses character, both with this country and before the world; and this loss of character must eventually be followed by a loss of power, unless a reform is applied. The present movement appears to us to promise some prospect of amendment, even though slight, and we hope, therefore, it will succeed.—Phila. Bulletin.

FATAL AFFRAY IN SCHUYLKILL COUNTY.

On Tuesday evening, at Brookville, a few miles east of Pottsville a quarrel occurred between Hugh Stephenson, a Scotchman, foreman at the Mines of Mr. Geo. H. Potts, and James Cogan, an Irishman, which resulted in the death of the latter.

HOSIARD'S GERMAN BITTERS.

Prepared and sold by Dr. Jackson, at the German Medical Store, 129 Arch street, Philadelphia, daily increase in their well deserved celebrity, for the cure of all diseases arising from derangement of the liver. These Bitters have, indeed, proved a blessing to the afflicted, who show their gratitude by the most interesting testimonials. This medicine has established for itself a name that competitors, however they try their scheme or seduce their promises cannot reach. It gained the public confidence by the immense benefits that have been derived from it, and will ever maintain its position.

MARRIED.

In this place, on Wednesday evening last, by the Rev. J. P. Shindel, Jr., M. LUTHER SHINDEL, Esq., to Miss CATHERINE LOUISA, youngest daughter of Mr. John Young, of this borough.

Who had me twice shot at? Who placed a noose upon my state at midnight, with a noose in his hand? Who, at a party at Mr. Somers', a gentleman residing near Munich (had it not been revealed by one of the conspirators to whom I had done a kind action on the morning of the very day) had a carriage, with four horses, ready to convey me to Spalburg, in Austria, the prison of Silvio Pellico, where I would have been immured to this day, but and unfeared?—These are truths and facts?

She "thinks God she is now in free America," where she will be allowed to produce her new play, embracing the principal events of her life, and to be acted at a party at Mr. Somers', a gentleman residing near Munich (had it not been revealed by one of the conspirators to whom I had done a kind action on the morning of the very day) had a carriage, with four horses, ready to convey me to Spalburg, in Austria, the prison of Silvio Pellico, where I would have been immured to this day, but and unfeared?—These are truths and facts?

On the 20th inst., by the Rev. E. M. Long, Mr. S. ROBINSON, to Miss C. FISHER, both of Northumberland County.

In Milton, on the 27th ult., by the Rev. Dr. LONGMOR, CHARLES A. KUTZ, Esq., Attorney-at-Law, to Miss EDITH LONGMOR, all of that place.

BRIDGING THE SUSQUEHANNA.

The Committee of the Maryland Legislature, appointed to visit Havre de Grace in reference to the proposed bridge across the Susquehanna, have made a report in favor of the project.

OPERATIONS OF THE MINT.

The Treasurer of the Mint, Mr. E. C. Dale, has furnished us with the operations of that institution, for the last month, from which we learn that the work of the month was the coinage of 2,976,826 pieces, of the value of \$3,473,939 82. The gold coined, was \$3,473,128, only about \$400,000 of the amount being in quarter eagles and gold dollars, while nearly two and a half millions were in double eagles. The silver-coinage in dimes and half dimes was about twenty-two thousand dollars; and in three-cent pieces, about thirty thousand dollars. We understand that this little coin is going largely into circulation, to the exclusion of the large and inconvenient cent. The deposits of gold for the month amounted to \$3,000,000, of which \$2,980,000 were from California. The deposits of silver for the same time, amounted to \$25,700. The coinage for April, it will be seen, is in excess of the deposits, tending well for the promptness and efficiency of the Mint.

GOLD COINAGE IN APRIL.

Table with 3 columns: Description, Quantity, Value. Includes items like 171,827 4-64 eagles, 15,700 dimes, 11,252 quarter eagles, 196,273 2-64 dollars.

SILVER.

Table with 3 columns: Description, Quantity, Value. Includes items like 98,000 dimes, 216,000 half dimes, 1,000,000 3-cent pieces.

COPPER.

Table with 3 columns: Description, Quantity, Value. Includes items like 1,800,244 pieces, 1,170,529 cents, 2,076,298 pieces.

GOLD DEPOSITED FOR APRIL.

Table with 3 columns: From California, From other sources, Silver deposited for April.

THE FOLLOWING IS A COMPARATIVE STATEMENT OF THE AMOUNT OF GOLD BULLION DEPOSITED, AND THE AMOUNT COINED FOR THE THREE MONTHS OF THE PRESENT YEAR, AND THE CORRESPONDING MONTHS LAST YEAR.

Table with 4 columns: Month, Gold Deposited, Gold Coined, Difference.

Notwithstanding the limited amount of small gold coined the past month, we understand that a large supply of small gold coin remains in hand, beyond demands of depositors.

Persons in want of three-cent pieces can be supplied, to almost any amount, in exchange for gold coin, if applied for in sums of \$20, 50, or \$100.—Phila. Ledger.

THE ERUPTION AT THE SANDWICH ISLANDS.

The Sandwich Islands papers contain long descriptions of the eruption of Matina Loa. The Polynesian says: "A column of molten lava, glowing with the most intense heat, and projected into the air to a distance of 500 feet, was a sight so rare, at the same time so awfully grand, as to excite the most lively feeling of awe and admiration, even when viewed at a distance of forty or fifty miles. The diameter of this jet is supposed to be over a hundred feet!—In some places this river is a mile wide, and in others more contracted. At some points it has filled up ravines of 100, 200 and 300 feet in depth, and still it flowed on. It entered a heavy forest, and, the giant growth of countries were cut down before it like grass before the mower's scythe! No obstacle can arrest it in its descent to the sea. Mounds are covered over, ravines are filled up, forests are destroyed, and the habitations of man are consumed like wax in the furnace. Truly, 'He touched the hills and they smok'd.' We have not yet heard of any destruction of life from the eruption now in progress. A rumor has reached us that a small native village has been destroyed; but of this we have no authentic intelligence.

Two vessels had sailed from Hilo, both filled to their utmost capacity with people who desired to witness this great eruption.

The eruption seems to have broken out through an old fissure, about one-third down the side of Matina Loa, on the northwest side, and not from the old crater on the summit, called Moequowoe. The altitude of the present eruption is about 10,000 feet above the level of the sea, and from the bay to Hilo (Byron's bay) must be some fifty or sixty miles. If it succeeded in reaching the ocean at the point supposed, after having filled up all the ravines, gulches and in, equalities of a broken country, it will undoubtedly be one of the most extensive eruptions of modern times."

FATAL AFFRAY IN SCHUYLKILL COUNTY.

On Tuesday evening, at Brookville, a few miles east of Pottsville a quarrel occurred between Hugh Stephenson, a Scotchman, foreman at the Mines of Mr. Geo. H. Potts, and James Cogan, an Irishman, which resulted in the death of the latter.

WILLIAM B. KIPP, Sheriff. God save the Commonwealth.

EMERSON'S ARITHMETIC Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

CHERRY PECTORAL.

For the Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, CROUP, ASTHMA, WHOOPING COUGH AND CONSUMPTION.

This remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its cure, that almost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When even tried, its superiority over every other medicine of its kind, is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our climate. And not only in the formidable attacks upon the lungs, but for the milder varieties of Coughs, Croup, Hoarseness, &c., and for CHILDREN it is the pleasantest and safest medicine that can be obtained. No family should be without it, and those who have used it, never will.

Read the opinion of the following Gentlemen, who will be recognized in the various sections of country where they are located—each and all as merchants of the first class and of the highest character—as the oldest and most extensive Wholesale Dealers in Medicine with an experience unlimited on the subject of which they speak. If there is any value in the judgment of experience, see

THIS CERTIFICATE We the undersigned, Wholesale Druggists, having been for long acquainted with Ayer's Cherry Pectoral, hereby certify our belief that it is the best and most effective remedy for Pulmonary Complaints ever offered to the American People. And we would, from our knowledge of its composition, and extensive experience, cordially commend it to the afflicted as worthy their best confidence, and wish the firm conviction that it will do for their relief all that medicine can do.

IMPROVED LIGHTNING RODS.

THE subscriber has constructed a LIGHTNING ROD on true Philosophical principles, by which buildings supplied with them are rendered perfectly secure against destruction by lightning. The connection and installation of the rod, as well as the preparation of the ground rod, is on an entirely new plan, making a more perfect conductor than any heretofore in use. Measures have been taken to secure Letters Patent for the improvement.

Persons desirous of securing their lives and property from destruction by lightning, can have conductors put up to their buildings in the most perfect and substantial manner, by applying either personally or by letter, to the undersigned, at the following prices:

For 40 ft. 1/2 inch copper rod gold plated point, solid platinum tip, \$22.00

And forty cents for every additional foot over forty.

For 40 ft. 1/4 inch tubular rods gold plated point, solid platinum tip, 13.50

For 40 ft. iron rod gold plated point, solid platinum tip, 12.50

For 40 ft. iron rod silver plated point, 10.00

And twenty cents for every additional foot over forty.

T. S. MACKAY, Milton, Sept. 6, 1851.—1y. cap 17, 1852.

ESTATE OF JOHN UNGER SEN, DEU. U.

NOTICE is hereby given that letters testamentary have been granted to the subscriber on the estate of John Unger, sen., dec'd., late of Shamokin township, Northumberland County. All persons indebted to said estate on book account, vendue notes or otherwise, or having claims against the estate, are requested to call on the subscriber for settlement, who will attend at the office of Charles Leisenring, in Shamokin township, on Tuesday the 23rd day of May next, for that purpose.

WILLIAM H. MUENCH, EXEC. Shamokin tp, April 10, 1852.—4f.

MORE NEW GOODS!

FREILING & GRANT.

RESPECTFULLY inform the public and "the rest of mankind," that they have received a large assortment of
