The report shows that the increase in the Anthracite coal trade in 1852 was not what H. B. Massen, Esq. many anticipated, and much less than the increase in 1851. Last year the increase from the three great regions was about 544,-814 tons, while in 1851 the inctrease over the tonnage of 1850 was 1,001,051 tons -Notwithstanding the disappointment in the believe it will pay more than ten per cent. GREAT RAIL ROAD PROJECT .- A Legislative letter from Albany, New York, says :-"The Mammoth bill incorporating the Atlantic and Pacific Rail Road Company, contains the names of six officers of the State government, as corporators, with the consent of the general government, to construct a road from the Mississippi to the Pacific. The proposal is to survey six hundred miles of the route by April, 1854, and construct a single track within five years after, together 30 bushels of good wheat to the acres. On with a line of telegraph. The capital is to consist of one hundred millions of dollars .-This is the most magnificent enterprise which humanity has ever conceived, and if any set of men in the country can finish the work, it is probably those who are applying for this privilege."

Seven years since I purchased a farm, the cleared land was so poor that it had been abandoned for several years as unproductive. The first summer I limed the whole of it, about 75 bushels per acre, sowed a part of it with buckwheat, the lime caused the buckwheat to grow luxuriantly, when in bloom I ploughed this crop under, sowed it with clover seed, the clover took well, but was short, the second year I turned the clover under, when it was about half ripe, put on 100 bushels of lime to the acre, sowed it with wheat, the ensuing harvest I gathered those fields I can now raise as heavy crops of Wheat, Rye, Corn, Oats and Potatoes as any of my neighbors, and I thought much

better than those who say lime is to expen Shampkin, January, 1853.
