Caution, Caution.

Caution, Caution.

Take notice,—The public in general, but especially those who suffered by the swinding operations of a net of semans who, during the Spring and Summer of 1833 were industriously engaged in potting up as suited—LIGHTNING RODS. A new phase or mode of swinding has been adopted by the same gang of operators. It is this. They are travelling about the City as well as the Country, selling what they represent to be my magnetic points, or something still better. In some instances they have succeeded in guilling the ansaspecting by taking off the Pewier Point and placing one of their valuable and highly improved points in its place. But strongs to say, on examination the new point proved to be similar to those taken down. They are made of Pewier, Load, Copper, Cast and Wrought from. Some of Brass with aim boass. There may be many more kinds effect to the public, but the above I have been called on to examine, and I pronounce them worthless, and worse than note at his. There is something strange about those follows: they know nothing of the former congony, and yet than out they carry fit the tops of the rook exacting and even the thread of the screen within a law of these contents. ng of the former company, and yet the positive they carry in the tops of the rody exactly, and even the intend of the acrew is the same. I have converged with two of these genery within is few days, and I know them to be the same men that put up the same kind of rods hast season, only in a different section, and under different names. Some of these gentlemen carry rods with them, and will sell either rods, points or both. To prevent further fraud, I GIVE NOTICE to all whom it may concern, that all my agains carry with them tegular printed forms of against, days signed by me, and acknowledged by adderman Simpson of this city. All coders wholesale or remit sent to his factory will be attended to at the shortest motice, and at the lowest cash prices. "Eureka, Eureka." WE HAVE FOUND IT AT LAST. NOW for the little ones. Why will parents waste hours and days in fruitless endeavors to get perfect pictures of their children and after all get nothing but a poor, miserable caricature ! We would say, come to our

EXCELSOIR GALLERY

and we will guarantee to make you a perfect picture, by our ELECTRO CHEMICAL PROCES, that works in from } to 2 seconds. We defy any Daguerrean in Philadelphia or elsewhere, to compete with us, as we are the inventors, and the process is used only in our dif-Middle States. For pictures of adults, the silver medals we have received from the American Institute, New York and Franklin, Philadelphia, together with the numerous premiums from County Fairs, is sufficient proof that they are

the Ne Plus Ultra of perfection.
