SEVERAL VALUABLE TRACTS OF TIMBER LAND, comprising about 2,500 acres, part of which is situated on Tobyhanna Creek, and part on Muddy Creek, within three miles of Lehigh River, in Penn forest township, Carbon County, one of the great Coal Counties of Pennsylvania, can be had at a bargain, if ap-

plication be made soon.

These lands are thickly covered with the best timber of that region. While it is believed that 75,000 feet of lumber to the acre, can be cut from a large portion of the land, the balance will average not much less than this figure. The kinds of timber found on the land are Hemlock, Spruce or White Cedar, White Oak, White Pine and Chestnut-but principally made up of White Pine and Hemlock.

The Tobyhanna and Muddy Creeks are large and rapid streams, yielding a vast amount of water power, and are capable of driving a large number of saw mills. They empty into the Lehigh, which stream, with the Lehigh Canal affords an outlet to the most desirable lumber markets.— (Thinly) they are the only medicines offered before the public.—
