COh! I think I know what you mean.-You mean that your father made a will and died. Yes, yes! that most be it!"

THE HORSE.

exhibition of horses in Springfield, we have by not seen that any one of the speakers alloded to historical matters respecting that noble and useful animal or gave any statistics in regard to horses in this country.

The first horses brought into any part of the territory at present embraced in the United States, were landed in Florida by Cabeca de Veca, in 1527, 42 in number, all of which perished or were otherwise killed. The next importation was also brought to Florida, by De Soto, in 1539. In 1609 the English landed at Jamestown, in Virginia, having seven horses with them. In 1629, Francis Higginson imported horses and other domestic animals in the Colony of Massachuset's Bay. In Harrisburg: 1625 the Datch Company imported horses into New York. In 1750, the French of Illinois were in possession of considerable numbers of horses.

According to the census returns for 1850, there were 4,335,358 horses in the United States, exclusive of those in cities which were not returned. The four and a half millions of the courts. Your forms of declarations being, of these animals in the United States, consilwill be a saving of labor to the pleader, and contute a proportion of one to five of the inhab. duce to safety and brevity in our pleadings. itants. New York, has one horse to seven. It should be in the hands of every practising persons. Peopsylvania, one to six and sixpersons. Pennsylvania, one to six and sixtenths; Ohio, one to four; Kentucky, one to three free inhabitants. In Ohio and the new States of the North-west, the increase of | L. Stone Cutters and Laborers WANTED!

Chapman, Sept. 17, 1853 -- tf.

2,500 Acres Timber Land FOR SALE.

SEVERAL VALUABLE TRACTS OF TIMBER LAND, comprising about 2,500 acres, part of which is situated on Tobyhanna Creek, and part on Muddy Creek, within three miles of Lehigh River, in Penn forest township, Carbon County, one of the great Coal Counties of Pennsylvania, can be had at a barguin, if application be made soon.

These lands are thickly covered with the best

timber of that region. While it is believed that 75,000 feet of lumber to the acre, can be cut from a large portion of the land, the balance will aver-The Summer Term of this flourishing Insti-tute will commence on Monnar, July 25, 1853. age not much less than this figure. The kinds of timber found on the land are Hemlock, Spruce or White Cedar, White Oak, White Pine and Chestnut-but principally made up of White Pine and Hemlock.

The Tobyhanna and Muddy Creeks are large and rapid streams, yielding a vast amount of water power, and are capable of driving a large number of saw mills. They empty into the Lehigh, which stream, with the Lehigh Canal affords an outlet to the most desirable lumber markets.— There is, too, under contemplation, a railway leading to the cities of New York and Philadelphia which runs within one mile and three quarters of the land. Through these avenues lumber can be tress, who is a graduate of Castleton Pemale delivered in either of the cities named, for about Seminary. Vermont, and comes recommended 57 per thousand feet—thus enabling persons enthe Principal of that Institution, as "a young gaged in the trade to derive greater profits than attend investments generally.

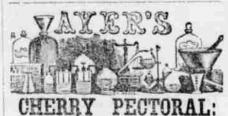

In addition to the timber, convertible into eve-Young ladies and gentlemen who design to 'ry shape of lumber, there is much that will an-

Unlike most of the lands on the Lehigh there has, as yet, been no culling of the timber on this property. It stands undisturbed by the wood-man's axe. It is, therefore, the more valuable. The lumber trade of the Lehigh has been carried on to such an extent for years post, that a scarcity of good timber is beginning to be felt. Every season necessarily increases this difficulty. consequence must be an enchancement of the value of timber lands. Those un-culled tracts with the advantage of avenues to market, such as the lands offered for sale, possess, cannot fail

to be the sources of supply hereafter. But the land is not alone valuable for the timber it contains. It is of good quality for farming, nearly every acre being susceptible of a high state of cultivation.

Capitalists desiring to make investments, would do well to turn their and further information apply to CHAS. M. HALL. do well to turn their attention to these lands. For Office in "Mining Register" building, Potts-

ville, Pa. August 6, 1853 .- tf.
