Arrival of the Pacific. LATER FROM EUROPE.

Aspects of the War Unchanged. - Forts Hongo bombarded by Sir Charles Napier . Cotton unchanged. NEW YORK, June 11.

The Steamship Pacific, Capt. Nye, arrived in port about half-past 9 o'clock this morning, with Liverpool dates of the 31st ult.

The Pacific left Liverpool on the 31st ult. 2 o'clock, P. M., and has made the run in a little over eleven days. She brings 167 passengers.

The steamship Africa arrived out at 10 o'clock on the evening of the 28th ult. A steamship from Sir Charles Napier's

nas was bombarded on the 22d, without ef. The Interrogating Committee submitted a feet. Another attack was attended on the 29th.

The advanced works of Hongo in the Baltic, have been bombarded and destroyed, and Sir Charles was about attacking the main fortifications.

The allied fleets were blockading Sebastapol.

The Turkish fleet had arrived off Varna on its way to the Circassian coast. The telegraph from Belgrade announces

that Silistria still held out against the attack of the Russian forces on the 29th ult. The Russians had lost 1,500 in the attack

of the fortress Abdel Medjid. The Greek insurrection appears to be less

formidable. It is reported that King Otho accepts the

ultimatum.

Naples has declared its intention to maintain its neutrality.

The adhesion of the smaller German powers to the Austro-Prussian treaty has been

secured. Russia has certainly concluded a treaty

with Khiva.

The Russians before Silistria, have been driven back by the besieged four times, with loss.

Tunis is to furnish 10,000 men to the Porte. The Journal of St. Petersburg says, that two frigates had cannonaded Wittsland on the 19th, and that the next day they approached Ekenas but were repulsed.

Two thousand Greek insurgents are posted near Denmark, in Epirus. A French division had arrived at

Pirmus. The Russians are menacing Erzeroum, and have recently made a compulsory enrollment

of 30,000 Armenians. RUSSIA.

Two Russian War vessels have been presented to the Greek Government by Russia. A Russian steamship had sailed out of Sebastopol, notwithstanding the blockade, and captured an English merchantman in the Black Sea. Being discovered with her prize, she cut it adrift, and made her way back to Sebastopol in safety.

The Neva was free from ice, May 2d, and had risen so high that an inundation was feared.

GREECE light thousand French troops have landed t Piracus and taken possession. ' King Otho has accepted the ultimatum of France and England, and has summoned a new Ministry under Prince Mayrocordato. AUSTRIA.

An Austrian courier was to leave Vienna on the 2d of June, with the formal demand of Austria to the Czar Nicholas to withdraw his force from the Turkish territory. Doubtful rumors are again in circulation that the Czar will negotiate.

INTERROGATORIES BY THE PROHIBITORY LI-SUOR LAW COMMITTEE.

1. Do you believe a law, prohibiting the manufacture and sale of intoxicating liquors, except for sacramental, medicinal, mechanical or artistical purposes, to be constitutional ? and would its constitutionality, in your opinion, be affected by a submission of its repeal to a vote of the people, provided a majority voted in favor of the law ?

2. In the event of your election, should the Legislature enact such a law, will it receive your Executive sanction ?

GOVERNOR BIGLER'S LETTER.

HARRISBURG, June 6, 1854. Gentlemen :- I have been honored by the accept of your communication of the 18th ultime, propounding to me certain questions touching the subject of a Prohibitory Liquot

Law. To your first inquiry, I reply, that the Supreme Court of the State have repeatedly held, and I concur in the doctrine, that the

Legislature can exercise all law-making power not expressly forbidden by the State or Federal Constitution. Under this construction, I believe the Legislature have anthority to control the manufacture and sale of spirituous liquors; but in the use of that power, it must be obvious that a law might

be passed, which, in its details, would be a manifest violation of the Constitution, and hence the impossibility of answering your question distinctly, without seeing the exact terms of the proposed law.

As to the second point in the inquiry, it must be very clear that a law, constitutional in itself, would not be rendered otherwise by allowing the people to decide by vote whether the Legislature should repeal it or not, no

matter what that vote might be. ring. To your second inquiry I answer that I sincerely deplore the evils of intemperance. and am now willing, as I have always been, cannot pledge myself to sanction a law, the Cake of Schuylkill. tails of which I have not seen. The term
