ELEVATING THE MASSES. - This is what takes place on the Mississippi every time a high pressure steamer busts up.

They are fortifying San Francisco harbor at a cost of two millions. The fortifications are to consist of two lines of batteries.

Nicholas, Emperor of Russia, is fifty-nine years old, six feet one inch high, erect and soldier-like in form, and, when young, was decidedly handsome.

The Charleston (S. C.) News says in a late number -- "We saw, this morning, a change for country produce, at the highest market small snap bean, the produce of a seed from the inside of an Egyptian mummy."

The steamship Franklin is reported to have perhaps the most valuable cargo (which is safe) ever brought from France to this country, being estimated at over two millions of

A SNAKE WAR .- In Spottsylvania county, Va., recently, a man is said to have killed sixty snakes which had made their nest under his own house. How he managed to do this without being bitten to death himself in the encounter, it is not mentioned.

ONE PHASE OF BRITISH PHILANTHROHY .-A female, aged seventy-seven years, was recently sent to prison in Great Britain for four months, for having contracted a debt to procure the actual necessaries of life, without having any reasonable expectation to pay it.

INDIAN MEAL IN IRELAND .- The Belfast (Ireland) Mercury says, the extent to which the sale of Indian Meal is carried on through the rural districts, seems really wonderful. At one steam-mill the average quantity turned out, for the last couple of months, exceeded fifty tons per week.

MAINE LAW FEELING IN ALABAMA.-The town council of Marion, Ala., fixed the license for retailing liquor at \$1500 per annum, thinking that this would prevent all applications An enterprising individual was, however, about to open a shop, even at this high figure, when the council met again and raised the license to \$3000.

A NOVEL SPECULATION .- A Coffe Palace" has been opened at Paisley, England. The palace was recently a whiskey shop, but it is fitted up in the highest style of elegance and comfort, a sum of £250 having been subscribed to start and sustain it. The principal room is 70 feet long, and is capable of accommodating 120 persons at once.

THE BEAUTY OF DEATH.-Sometimes sel. fishness is merged in that "perfect love which easteth out fear." An English East Indiaman on the coast of Cornwall was recently wrecked. The captain, finding that there was no hope of saving his daughters: who were on board the ship, took them on his knees, and said : "My children, we will die together."

A NICE PUBLIC INSTITUTION.-The cholera has been very fatal in the Buffalo poor house, and the fact induced the physicians to go and inspect the state of affairs. Within twenty-four hours fifteen insane persons and seven others had died of cholera, and four others were then in a collapsed state. The house was found to be so foul that it was almost impossible for persons to enter it. Its immates are in the most awful condition i maginable. On inquiry, it was found they had been kept on insufficient food, and that of the worst quality. Several deaths from starvation, it is said, had occurred among the children, and the scurvy was as bad nearly us the cholera.
