IMPORTANT EUROPEAN PROJECT .-- Mr. Thomas Wilson, of London, formerly a Dutch merchant, had proposed a plan for opening a canal communication between the Black Sea and the Danube, from a point in the Bay of Kustendje to a part of the river between Chernavoda and Rassova, the line followed being nearly identical with that of the remains of Trajan's Wall. The distance to be traversed would be little more than thirty miles, and the route would effect a saving of about 250 miles by navigation in transporting produce from Servia, Bulgaria, and most part of Wallachia, while it would also be away from the neighborhood of Russia. Mr. Wilson is said to have sent out some engineers to survey the locality; and it is added that the Turkish authorities in London look favorably upon the project.

SERIOUS COLLISION WITH THE ARMY OFFI phant.—Some disgraceful scenes appear to bave been transacted lately in Utah. Since Col. Steptoe has been nominated as Governor, the Descret News, Brigham Young's organ, has been teeming with panegyries on the "gallant Colonel," and Orson Hyde, the chief of the Twelve Apostles, has declared to the universal world that "Col. Steptoe is a gentleman." Those who were not previously aware of the fact now know it for a certainty, for it is endorsed by the venerable apostle. But while the most fulsome praises of the Colonel have been circulated by the columns of the church paper, merely to deceive per-sons at a distance, the officers and men of casions, been publicly blackguarded and insulted in open day.
