Business Notices.

Advertisements.—Our readers will find a number of new advertisements in our columns this week. Several have been crowded out this week that will appear in our next.

Most of our first page, this week, is taken up with the Address of the Native American National Convention, which we publish at the request of a number of our subscribers, a portion of them prominent members of the Democratic party. As the American party has no organ in this county and as they complain of having been grossly misrepresented, it is but right and proper that they should have an opportunity to be heard.

SUNBURY AND ERIC RAILROAD.—We understand the company intends to open the road from Northumberland to Milton on the 20th ult., if possible. The grading, with the exception of a few short links, has all been completed, and the track is now nearly all laid.

The grading between this place and Northumberland, is progressing. The work on the bridge has been greatly retarded by high water, but the piers are now all above water, and one of them completed.

THE RESULT AS PREDICTED.

After the Standing Committee had issued their manifesto, requiring the democracy of Northumberland county to vote as they directed, we predicted that the people would, indignantly, repudiate the action of the committee. The result of the late primary election has fully verified our prediction. "The whole vote polled will not reach 550, while five townships were wholly unrepresented, and paid no attention, whatever, to the mandates of this political inquisition. If such a rebuke does not satisfy them that the people have no confidence in them, we can hardly imagine any thing that will. "The untried chairman of the committee," and his friends might explain in the language of a more renowned hero, "another such a victory, and we are ruined."

TERRIBLE ACCIDENT!

ON THE CANADA AND AMBOY RAILROAD.

We stop the Press to record another terrible accident which occurred on the Canada and Amboy Railroad, on Wednesday last, by which twenty-one persons were killed, and fifty or sixty wounded.

The train of cars which left Philadelphia, reached Burlington just before 11 o'clock. It then stopped, waiting for the 8 o'clock New York train, which passes at that place. After waiting five or ten minutes, and the New York train not appearing, the Philadelphia train went forward slowly, watching for the approach of the downward train. It had gone forward about a mile and a quarter, when the New York train came in sight. The Philadelphia train commenced backing, and soon got under rapid headway for Burlington again. The engineer being with the locomotive, of course had not the advantage of seeing what was ahead of the backward going train. He had run but a quarter of a mile, and a mile from Burlington, when the first passenger car came in collision with a light pleasure wagon, driven by Dr. Hannegan, of Columbia, N. J., who attempted to cross the track in front of the cars.

The wagon contained Dr. Hannegan, his wife, and two children. The farmer, it is said, is hard of hearing, and by his infirmity caused an accident nearly similar, but not so fatal, near Beverly, about a year ago. The doctor had seen the cars pass as he was driving down the road, and supposing all safe, neglected to keep a proper lookout. The first passenger car struck the two horses in the wagon, just as they were crossing the track, killed them instantly, and threw one thirty feet on one side of the track, and the other forty yards on the other side. The wagon was turned round and upset, none of its inmates being injured, except in slight bruises. The front car, A, after striking the horses, ran forward, and off the track, about one hundred yards, and over a small embankment. The second car, B, was thrown directly across the track. The third car (C) went through car B and stopped diagonally across the road, the fourth car (D) followed and ran into C. The fifth passenger car and the baggage car stopped without leaving the track. The two latter were not injured, but three of the other passenger cars were knocked to pieces, and many of their occupants were killed, wounded, and maimed.

The killed and wounded were taken to Burlington. Two special trains were dispatched from Philadelphia containing Physicians, friends, relatives, &c.

Circles.—Our readers will observe that Francis's Circus will have an exhibition at this place, on Friday, the 31st inst. Our contemporaries of the neighboring towns, speak in terms of high commendation of the performances. It will, by no doubt, well attract the masses of the weak and the helpless.

THE STANDING COMMITTEE'S CONVENTION.

The Standing Committee Convention, assembled at the Court House on Monday last. It was but meagerly attended, and was, perhaps, the smallest specimen of an attempt at a convention that ever met in that building. Five townships, viz: Chilsaque, Coal, Cameron, Jordan, and Mount Carmel, were not represented. The number of delegates or Judges was sixteen. The whole number of votes polled, when summed up, amounted to a little over 500 or less than the democratic vote of Shamokin and Augusta townships. We were not furnished with the proceedings, but took a note of some of them at the time. The following is the vote of J. H. Zimmerman, Esq., the candidate nominated for Assembly:

Turbet	19	Upper Mahanoy	31
Lewis	15	Lower "	26
Delaware	42	Little "	5
Milton	36	Shamokin	56
Point	15	Zerbo	39
Northumberland	68	Rush	29
Sunbury	64	Jackson	24
Lower Augusta	49	Mt. Carmel	6
Upper	10		
		Total	514

There were but a few scattering votes. For Register Recorder, &c., C. Hoyt Fursell had 493 votes.

For Treasurer, George Bright had 523 votes.

For Commissioner, Chas. C. Hottenstein, of the upper end was nominated for 3 years, and Frederick Haas, Esq., of Augusta, for 1 year.

Wm. T. Forsyth, of Northumberland, was nominated for Auditor.

The committee then proceeded to the nomination of delegates to the State Convention, when D. B. Montgomery was nominated Senatorial, and Jacob Leisenring representative delegates. The delegate from Point proposed to nominate Major Dewart as a delegate to the National Convention, but as the resolutions of the Inquisition had made no provision for this change, it was deemed advisable to let the State Convention perform that duty as heretofore.

The next business in order was the appointment of the Standing Committee, or rather the re-appointment of themselves. The people, of course, had no say in the matter. The Committee had appointed the Judges or delegates, and they, of course, were in duty bound to return the compliment, by re-appointing the committee. In this way they will be able to perpetuate their power and re-appoint each other to the end of time if the people do not take the matter into their own hands again.

The Standing Committee have certainly but a poor opinion of the democracy of Northumberland county; they cannot trust them with the choice of their own Judges and require them to swear that they are democrats.

During the convention a letter was read from Cameron, stating that the small vote of that township did not justify sending in a delegate. Mount Carmel was pretty much of the same opinion, but sent in six votes by letter, thinking, perhaps, that small favors were to be thankful received. The democracy of that township have grown exceedingly negligent since the last delegate election.

One of the remarkable things of the convention was the omission to pass any resolutions. Perhaps the odium attached to the late resolutions of the Standing Committee gave them a surfeit, but surely the sworn democracy ought not to be afraid to express their views on any subject.

BOONY LAND WARRANTS.

From an official record in the Union of the business transacted at the Pension Office for the week ending the 21st inst. we receive the following Applications under act 3d March, '55:

Examined or re-examined, 3,000

Allowed, 1,710

Warrants issued, 2,320

Total number of applications, 206,800

Acknowledged, 165,600

Waived or certificates issued, 22,886

From this we observe there has been an average issue of 1715 warrants per week for twelve weeks since the first of June. It is to be hoped that the Department of the Interior will adopt measures greatly to increase the number, as the number of the applicants are poor and feeble, most of them ranging from the ages of 60 to 104. The bounty, to be beneficial, must be speedy, for to these old folks time flies with untiring wings, and the sands of their lives are fast running out.

THE YELLOW FEVER AT NORFOLK.

Dr. Stone says, in a letter to Norfolk, that which the Croreos call *la peste*, which visited New Orleans in 1853.

"It seems to differ from the old type of yellow fever in manner of attack, in treatment required, and in its locality, in that which the work of death is performed—many of its victims dying within a few hours of their attack. The preliminary symptoms are simply a sharp, acute pain, like rheumatic pain, or sometimes a paralytic shock in some part of the body. Others are attended by a sharp pain across the knuckles of the hand, unless attended to immediately, the pain extends over the arm or leg, and gradually over the entire body. Internal fever is rapid, while the skin and extremities are icy cold. The first effort is to bring about a reaction, by wrapping the patient in ice, followed by hot mustard applications, the object being to produce perspiration, which, if successful, is generally followed by a cure. Very little, if any, internal medicine is given, or allowed, except, perhaps, a slight tonic."

The number of deaths in Norfolk is now averaging about seventeen daily, and about twenty in Portsmouth. The increase of new cases is, however, in a much larger proportion than the increase of deaths, showing that it is more readily yielding to medical treatment.

THE NORFOLK AND PORTSMOUTH SUFFERERS.

The contributions in aid of the sufferers of Norfolk and Portsmouth are being swelled to a considerable amount, but it will be required, and probably a great deal more. The following are the amounts contributed, as far as can be ascertained—

Baltimore, \$10,312; Washington, \$2,000; New York, \$2,000; Philadelphia, \$2,000; Richmond, \$2,000; Charleston, \$2,000; Providence, \$2,000; Boston, \$2,000; New Orleans, \$2,000; Total, \$50,712.

BEWARE OF COUNTERFEIT \$5s AND \$10s

of the Bank of North America, some dated Philadelphia, some in Rhode Island. From \$70 to \$100 were left in Wilkes-Barre the past day or two. Many of the counterfeiters are said to be very well executed, having a genuine vignette, and looking new and bright. A \$10 bill before us, dated Philadelphia, March 10, 1855, looks bad, by holding it up to the light, the name of the Bank and "Phila." look as if pasted on. Refuse all notes of the kind.

PARTY FAIR FOR MISSOURI.

The St. Louis (Mo.) Republic states that on one acre of ground on the farm of Judge John Franklin county, State of Missouri, there was raised and cul eleven thousand five hundred and nineteen pounds of hay.

THE WAR IN THE CRIMEA.—

The arrival of the Canada brings important news from the seat of war. The Russians attacked the position of the allies at Tchernaya, with 60,000 men, under Liprandi. The action lasted three hours. The Russians were repulsed by the French and Sardinians, with a loss of 4000 or 5000. The loss of the allies is much smaller. Swaborg has been bombarded by the allies, and the store houses, arsenals, and magazines, with many other buildings, were destroyed. Breadstuffs have declined.

DEATH OF HON. ABBOTT LAWRENCE.

The telegraph informs us that the Hon. Abbott Lawrence, whose feeble health has for some time given his friends fears of approaching dissolution, expired at 11 o'clock on Saturday morning. His disease is said to have been congestion of the liver. This sad event will be regarded with much sympathy throughout the country, for the deceased was undoubtedly a man of great mark, both in private and public life. Mr. Lawrence was born in 1792, in the village of Groton, Mass., and was therefore, at the time of his death, about 63 years of age.

His father was a respectable farmer of Middlesex county, whose means were too limited to allow him to give his children any more than a common village school education. In 1808, Abbott went to Boston, whither his elder brother, Amos, had preceded him, and started in business as a retail dealer. In the course of a few years he was so successful that he was enabled to enter into partnership with Amos, as an importing merchant. The firm did an extensive business in British fabrics, and Mr. Lawrence, for some time in England, superintending the interests of the concern. He continued in this branch of trade until the establishment of manufactures in New England, when he invested a large capital in the mills of Lowell. He displayed high talents in the management, and as Lowell grew in size and importance, he amassed a princely fortune. For many years, he was the head of the firm of A. & A. Lawrence & Co. Lowell is much indebted to his enterprise and liberality for its wonderful progress.

Mr. Lawrence first entered public life in 1835, as a representative from Boston in the twenty-fourth Congress. He served in that body with ability and industry until 1839. In 1843 he was selected as one of the Commissioners for the settlement of the Northeastern boundary question—a very honorable appointment, considering the importance of the interests confided to the Commissioners. In politics, Mr. Lawrence was an ardent Whig, and for many years he was the principal supporter of Daniel Webster. In 1845, however, he separated from that statesman upon the question of the fitness of Gen. Taylor for the Presidency. Upon the accession of Gen. Taylor to the Chair of State, Mr. Lawrence was offered the post of Secretary of the Navy, which he declined, and was subsequently appointed Minister to the Court of St. James, in which position he continued until the death of President Taylor. From the time of his return to Massachusetts, Mr. Lawrence was almost entirely engaged in superintending his business affairs.

Mr. Lawrence was married many years ago to a daughter of Col. Bigelow, of Middlesex county, Massachusetts. Besides his widow, three sons and two daughters, all of whom are married, survive him. He was a man of commanding presence, pleasing address, and unbounded hospitality. He leaves a splendid monument of his liberality in the Lawrence Scientific School, attached to Harvard University, which he has bequeathed to the people of his native town. He was a generous and public-spirited citizen, a firm friend of American manufactures, and a man of great business tact and perseverance, who has left an admirable example to his younger countrymen by the integrity and application and the judicious uses to which he applied his great wealth.
