A press of advertising has crowded out a number of articles intended for this weeks paper.

This number of the American closes the 15th volume. The first number was issued September 12th, 1840. With but two or three exceptions, the American has appeared regularly on its day of publication, for the last fifteen years. We are pleased to say that its gradual and constant increase in business and circulation, has fully equalled our expectations—and that in both respects it now out ranks any paper in the county.

The steeple of the new Lutheran Church has been completed. It is a handsome and well proportioned structure. A new bell, of larger dimensions than the old one, and of excellent tone, has been placed in the steeple.

LARGE BECKWEAT.—We were shown a few days since, several stalks of Beckweat, which measured the feet three inches in length. It was grown by Abraham Clemens, on a farm of Mr. Hollas, near this place.

A Public Parade of the "United Sons of AMERICA," will be held in this place, on the 4th of October, when their New Hall will be dedicated. Messrs. BROWN and COATES, of Philadelphia, have been invited, and will be present to address the meeting on the occasion.

EATING SALOON.—Messrs. Fisher and Wharton, whose advertisement appears in another column, have opened an eating saloon in the place formerly occupied by Jas. W. Washington. They intend to provide for their customers all the luxuries of the season. They are young and enterprising, and deserve success.

The Codfish party last week were hounded with a story that E. Y. Bright had been taken up as a Candidate for Assembly. The Gazette was ready primed, but only left off a squib.

In Columbia county, at the late delegate election, a democrat was asked by an Inquisitorial Judge, if he was an American, "Yes," said he, "and any one that ain't, is a d-d tory." He was not questioned any further.

OUR FRIEND GETZ, of the Reading Gazette, has been nominated for the Assembly in Old Berks. That he will make an excellent member, and that he can be no doubt, Good editors,—and Mr. Getz is one—were fit for Governors, or even Presidents, in these times.

DANVILLE HOTEL.—In another column will be found the advertisement of Mr. Deen, the proprietor of this excellent Hotel. Mr. Deen's house is commodious and handsomely fitted up, and he spares no pains to make his guests comfortable.

The Gazette says, "H. B. Masser's attempt to connect the Democracy with Catholicism is a desperate game."

MAJOR DEWART AND THE POPE.

The Gazette says, that the editor of this paper "expressed great indignation last fall because Mr. Dewart wrote a letter from Rome, which, he (the editor) said was disrespectful of the Pope."—Now we have only to say that this is another of the fabrications that the editor so frequently resorts to in order to get himself out of a tight place.—We ask the editor of the Gazette to point out the article referred to, and so that he can have no excuse, we will exhibit the files of our papers to himself or any one he may designate. When we make charges of this character, we are always prepared with the "documents" to prove them. We defy him to point out a single line or sentence, that has the remotest allusion to any thing of the kind. Now, neighbor, unless you are entirely reckless of your character for veracity, you will see the necessity of producing the documents, in default of which, you will find yourself in another "tight place," from which a dozen Inquisitions or swearing committees, can never relieve you. Subterfuges and evasions will not avail you, for here is a statement which, if true, can be proved without any trouble.

In regard to Major Dewart, we have only to say, that he is not on trial at present. When his case comes on in October, 1856, we shall attend to him. His history still remains unwritten, and whether or no, we shall become his biographer, time and circumstances alone must determine.

THE GAZETTE AND RELIGION.

Our neighbors of the Gazette devoted the greater portion of their editorial labors to us, last week. The most of the facts as usual with the Gazette, about these times, exist only in the imagination of the editor. He accuses us of drawing religion "into the dirty mud puddle of politics." We presume they allude to the "dirty pool" occasionally stirred up by the foreman of the Inquisition in this place, and which we referred to heretofore. We were really not aware that the cod fish faction in this place ever had any religion, or made any such pretensions, until we saw their religious creeds paraded in the Deutscher (Dewart) Democrat, a bastard edition, of a new German paper, got up at Pottsville, especially to catch the Catholic and foreign vote of Schuylkill county.

We make no objection to any one on account of their religious belief or their place of birth—but we do object to this traffic in religious prejudices which has been carried on in this country to an alarming extent, and can only be put down at the ballot boxes.

The Sunbury Gazette endeavors to screen the Inquisition from censure, by asserting that in the appointment of Judges for Mt. Carmel, there was a vacancy which was afterwards filled up with the name of Fred'k. Fahrion. We have only to say that this is a mere after thought, so bold and clumsy that we doubt whether any one could be found stupid enough to believe it. If the Gazette and its counsellors possessed only the most ordinary discretion or judgment, they never would have given such a stupid invention as an excuse for their previous stupid and ridiculous blunder, as it makes the matter ten times worse than before, if true. The explanation of the Gazette amounts substantially to this,—that the committee could not find in Mt. Carmel township, more than two men fit for Judges, and they were therefore compelled to wait until the court could not find an individual for that purpose. Now we ask if this is not a legitimate conclusion deducible from the arguments or facts truly of the Gazette. A pretty state of affairs would be found in one township who can be trusted to hold an election.

The Gazette says we should have gone behind the record. The editor has read Blackstone to little purpose if such are his opinions. Every lawyer knows that we have no right to presume anything against the record.

THE GAZETTE ON THE TICKET.

The expense for the Gazette's opposition to Jesse C. Horton, the democratic candidate, is most unwise in point of fact, but is not lame and impotent in its conclusions. Jesse C. Horton was not only the political, but the warm personal friend of Governor Bigler. But this was perfectly in character with their previous course in opposing the democratic ticket, whenever it did not suit them. As an illustration, we quote an editorial paragraph from the Gazette, in defence of their opposition to one of the nominees of the party a few years since.

"However well it may be to regard party organizations and party nominations, it is certainly far better to elect good and faithful officers."

We ask the editor of the Gazette if he still holds to this doctrine, and whether it is recognized in the platform of the cod fish democracy. These documents are, sometimes, ugly things.

CHULASKY FURNACE.

The Furnace at Chulasky in this county, owned and conducted by our friend S. R. Wood which has been in almost constant operation for the last nine years, was stopped for repairs and improvement, some time since Mr. Wood, we understand, has availed himself of the experience of himself and others during this period, and has remodeled and refitted this furnace which has always been esteemed one of the best and most successful in the State.

He has enlarged the Bosh, raised the Furnace nine feet making it hold about double the amount of stock that it originally held.—He has also put up new boilers and new hot blast pipes and oven, making them twice the capacity of the old ones. On the whole we suppose it as complete a Furnace as is in the State.

It was "blown in" on Wednesday last by the regular founder, Robert Vincent and we are pleased to hear it is doing well. The importance of these establishments are well known to those in the neighborhood, we have always advocated their protection and they have our best wishes.

We trust that friend Wood will reap the reward his enterprise and industry so richly merits.

The River is abating at Pottsville.

SUNBURY AND ERIE RAILROAD.—

The opening of the link of this road between Milton and Northumberland, has been postponed until the 28th inst. The city council were not able to attend on the 20th, the day which had been fixed upon. We observe that both the bridges between this place and Northumberland, are making rapid headway. The stone work will all be completed in the course of a month, and by the middle of November, the bridge can be made passable for locomotives.

We hope the short link necessary to connect the Philada. and Sunbury road, with the Sunbury and Erie, in this Borough, will also be ready at the time, so that coal trains can run through from Elmira to the Shamokin mines without any stoppages or transhipments. In the mean time flats will be used for the transhipment of cars between this place and Northumberland.

P. S. The first locomotive over the road, came to Northumberland on Thursday evening last.

In reply to the charge of having boasted of their support of the Know Nothing candidate for Senator, in their own paper, the Gazette says:

"Perhaps our neighbor can remember the occasion of that article, which was written at the time when the friends of Gen. Cameron in Sunbury were charging Mr. Taggart of ingratitude, as they represented that they had voted for him at the time of his election."

We remember nothing of the kind. The friends of Gen. Cameron are not in the habit of making asses of themselves.

If they could be guilty of such treachery, they would hardly be silly enough to publish it to the world.

IMMIGRATION INTO THE UNITED STATES.

The Washington Union publishes statistics of the immigration into the United States in Sunbury were charging Mr. Taggart of ingratitude, as they represented that they had voted for him at the time of his election."

We remember nothing of the kind. The friends of Gen. Cameron are not in the habit of making asses of themselves.

If they could be guilty of such treachery, they would hardly be silly enough to publish it to the world.
