TUNSELLING THE BROAD MOUNTAIN .- We understand that Mr. Poole, an engineer of the Mine Hill Railroad, has been for some time engaged, under the directions of that Company, to make reconnoissances for the location of the proposed tunnel through the Broad Monntain. This is one of the most important public improvements ever under-taken in this region, as it will develope an immense extent of coal territory which can have no other outlet to the East, except by means of heavy ascending grades and in-clined planes. The rock to be cut-through is the conglomerate of the coal formation. and although very difficult and costly to penetrate, it is confidently asserted that the work can be executed at a cost of less than \$2,000,000. It will pay the interest of five times that smount. The tunnel will vary from 23 to 3 miles in length; but the selec-
