A New State out of Texas .- A writer from western Texas says the German, French Swiss, Hungarian, and other European settiers in northwestern Texas are to a man in favor of forming a new State out of the western portion of that State; and to a man they are opposed to slavery. There are many set-tiers from the Northern States among them, too, and together he thinks they can com-mand ten thousand votes already. The letter is written by Mr. Wilcox, a member of Congress from Mississippi, who has lately returned from a visit to Texas. By the act annexing Texas it is provided that it may be divided into two or more States, and it is quite probable that such a division will ere long be demanded.

FIGHT BETWEEN A RATTLESNARE AND HOGS. The State Rights Democrat, published at Elba, Ala., narrates the following: "Two gentlemen were lately in the woods, when their attention was attracted by an uprorious noise of hogs. Thinking that something un. common was to pay, they repaired to the spot and found that the hogs had been in a fight with a very large rattlesnake. The fight, from appearances, had been a long and desperate one. The snake was torn to pieces, three hogs dead and a fourth one dying .-They say that as the last hog would groan, the snake would raise his head, being unable to do anything else. The snake and fourth hog soon died. They report that for thirty yards around, the grass and ground was torn up. The snake was seven feet long. The hors in the fight had demolished all the rattles except one.

THE ARNANSAS MIGRATION TO KANSAS,-The Chicago Democratic Press, a strong anti-Nebraska paper, says:

"A heavy emigration from Arkansas to the southeastern portion of the Territory, is reported as now taking place. They are persons who, having seen the evils of slavery, and desiring to e-cape it, have came to Kan-ess to aid in making it a free State. These men report that emissaries came into their country asking pro-slavery men to emigrate to Kansas, and aid in making it a slave state. They got no volunteers for that purpose, the slave holders being too well posted to bring their slaves in contact with the anti-slavery mon of the Torritory.

TENNESSEE .- Gov. Johnston in his recent message to the Legislature, recommends the adoption of resolutions instructing the Senators and Representatives in Congress, from Tennessee, to urge the passage of a national the Judiciary system of the State. The Governor also renews his proposition for so amending the Constitution of the United States, that the President and United States Senators be elected by a direct vote of the people, and that the Supreme Judges shall be elected for toelec years, and not "during good behavior."

Our readers will recollect that Governor Pollock immediately after his inauguration, appointed Gen. Power, of Beaver county, Adjutant General of the State, in place of General Bowman, of Bedford, who held the Adjutant General of the State, in place of General Bowman, of Bedford, who held the office under a commission from Gov. Bigler. The latter declined to surrender the office, on the ground that his appointment under the law was for three years, and that his term would not expire until August, 1856. The matter was referred to the Supreme Court, and that body has decided that Gen. Bowman is entitled to exercise the duties of the office medicine is more universally taken than a is entitled to exercise the duties of the office for the full term of three years from the date of his commission; and can only be removed before the expiration of his term for good and sufficient cause.
