

THE WHEELBARROW BET.

Major Ben Perley Poore, of Newbury, Mass., early in the Presidential campaign, made a bet with Colonel Burbank, of Boston, that he could get the votes of the people in a wheelbarrow from his own residence to that of the winner, a distance of 30 or 35 miles. Major Poore lost the bet. A correspondent of the Traveller, who fell in with the Major on his way to Boston, thus describes the scene:

SOUTH DANVERS, Nov. 5.
"En route from Newburyport for this place, and when about twenty miles distant from Newburyport, on the temple, my attention was attracted to a man some distance in advance, who was harnessed to a wheelbarrow, and was diligently climbing the steep hill which rose before him. When I obtained a nearer view of the strange team, you may imagine my surprise to discover that it was my friend, Major Ben Perley Poore. He was in fine spirits, and was fulfilling the conditions of his bet with Col. Burbank, of Boston. As I tried the weight of the load on the wheelbarrow, the Major exclaimed, 'You may wheel that barrel of apples in that direction as far as you please, but not one inch in the advance.' As I indulged in some feelings of merriment at the novelty of his position, he said:—'Mr. P., this may be for you, but there is more reality than poetry for me.'"

[From the Boston Bee.]
Yesterday afternoon, Mr. Thompson, conductor on the Boston and Maine Railroad, reports to the Bee office that Major Poore was at Lynnfield, at 4 o'clock, and would probably arrive in Boston on Monday morning, and on Monday evening. Major Poore is described as being dressed appropriately for the occasion, wearing a pair of overalls, commonly worn by laboring men, and a coarse, green baize jacket. He is reported to be in excellent condition. On his arrival he will be only received by a large number of citizens, and Colonel Burbank is expected to welcome him to Boston in a speech that will be creditable to his own self.

Since the above was in type, we learn that the Major arrived with his wheelbarrow at Malden, last evening, having made the distance of twenty-four miles yesterday. After "putting up his team," he took the cars for Boston, and was quite lionized last evening. He wears his green jacket with becoming grace and dignity. Arrangements are making for a great reception to-day. It will be the effect of the campaign.

Mr. Poore on the subject of Apples.—Major Ben Perley Poore, the late Filmore candidate for Congress in the Sixth District, Mass., arrived in Boston, yesterday afternoon, with his wheelbarrow and barrel of apples—which he had wheeled all the way from West Newbury, a distance of thirty miles, in two and a half days. The job was in fulfillment of a bet with Col. Burbank, the Fremont State Senator elect, that Filmore would get more votes in Massachusetts than Fremont. The Major, wheeling his apples, was escorted up State street about 2 o'clock, by the Filmore Clubs of Boston and Cambridge, a militia company, and a mounted cavalcade of citizens. The novelty of the performance collected many thousands of the people, and the Major was greeted with tremendous and tumultuous applause on all sides. He delivered the apples to Colonel Burbank on the steps of the Fremont House, where both gentlemen delivered congratulatory speeches, amounting to the barrel. Ten thousand people were present.

We ought to justice to Col. Burbank to state that when he ascertained that Major Poore had started, he despatched a note to him releasing him from the fulfillment of his bet. But the Major immediately wrote a reply upon the head of the apple barrel, in which he announced his firm determination to put the apples through, according to contract.

We copy the correspondence below:—
TREMONT HOUSE,
Dear Major— I am very sorry that what you have already done, and am willing to take the will for the apples. Don't trouble yourself to wheel them any farther. I'll release you from the tediousness of your wagon.
Yours, for Fremont, Freedom, and the best real estate in Kansas.
R. I. BERDANK.
Major Ben Perley Poore.

ON THE ROAD,
P. M. J.
Dear Colonel—When I entered the campaign I determined to give no quarter and take no one. I shall proceed with the apples, and you may rest assured that they will be wheeled into the Fremont House.
Yours, for Filmore and the Constitution,
Ben. PERLEY POORE.
P. S. I shall be very dry when I get to the Tremont House.

LOCAL INTELLIGENCE.—The Mystery of *Croquet Baking*.—We called yesterday at the croquet bakery of Messrs. James D. Mason & Co., to witness the operation of the new machinery for the manufacture of croquet, making of bread. Many are familiar with the old revolving oven which has been in use for some time past; but he has recently had erected another on a new principle, which recycles from the first to the fifth floor. The oven is about 22 feet high, and is fitted with a central shaft, supported by four iron shafts, with arms like the paddle wheel of a steamboat, to which are attached twenty-four perforated swinging shelves. The opening of the oven is on the second floor, and the machinery is so arranged that the shelves are brought up and down by means of a belt, and remain stationary for fifteen seconds, a sufficient time to fill it with crackers for baking. The wheel revolves, and when the shelves are brought immediately under the leading door the shelves are tilted, and the bread discharged into the receiving baskets. The whole time required for the revolution of the oven is ten minutes, and will bake fifty barrels of flour in twelve hours. As soon as bread is discharged it is hoisted to the upper story, where it is dried ready for packing.

In the preparation of the dough the flour is first passed through a sifter, which sifts a barrel of flour into a large tub, after which it is partially mixed and thrown into a kneading mill, which works with a wormer, and consistency. It is then passed through a heavy cast iron roller, and then again through a smaller roller before it is placed in the machine by which it is rolled to the required thickness, and cut into forms. For the whole of this work the labor of but three men and four boys is required. The whole of the machinery, including the steam engine and boiler are new and improved. For the baking of loaf bread the oven could also be used to advantage, and would bake one hundred and twenty barrels of flour in twelve hours. The cake department is on the first floor, and several men are constantly employed in the work, one ordinary hand being used for baking them. There is in this department a small hand machine for mixing dough, which does its work admirably. The establishment has an extended range of 10 feet, depth of 60 feet, and is five stories high. The first and second floors contain most of the machinery, while the upper floors are for the packing of the manufactured articles and the storage of materials for the work. It is now one of the largest in the United States.—*Balt. Com. Advertiser.*

Wholesale Poisoning.—At a camp meeting on the 6th, at Liberty Grove, Penn., fifty-five persons who had dined at the tent of Mr. J. F. Shanley, were taken sick with the usual symptoms of having taken poison, and a negro woman died. The rest are recovering and it is supposed that the poison was prepared by a negro belonging to the family.

MYSTERIOUS AFFAIR.

Under this head, the Mobile Tribune gives an account of an affair which occasioned some little interest. About four or five miles from that city there is a dense swamp, which persons who have visited the place may remember as being one of the most dangerous looking places imaginable.—Through this swamp there runs a deep ditch, and in this ditch, a short distance to the right of the road, a box has been found, containing a pillow, two coarse linen shirts, a cutton flannel undershirt, and a linen shirt, all deeply dyed with blood. Near this spot, were indications that a horse had been tied to a tree, and in the ditch, a hole was found in the edge of the undershirt, evidently cut with a knife; there was a corresponding cut in the linen shirt, around which there was a quantity of blood, and the inference is, that the person wearing it had been stabbed in the back with a knife. The body, however, has not been discovered.

TERRIBLE DEATH.—A young man named Yutzky was accidentally killed near Berlin, Somerset county, Pa., on the 31st ult. He had been at the steam mill near Berlin with a two horse wagon, and in returning home a man named Stull attempting to pass him with a loggy, Yutzky's horses took fright and ran off. Yutzky fell between the bounds of the wagon, with his head to the ground, and in this position he was dragged a distance of a mile, bruising and mangling his head and face in a terrible manner.

New Advertisements.

THE NEW-YORK WEEKLY TIMES,
A LITERARY AND NEWS JOURNAL FOR THE FAMILY AND FIDELITY.

Upon the termination of the Presidential contest now close at hand, the proprietors of the New York Weekly Times intend to introduce various and extensive changes in its character, which will render it still more attractive to the great mass of the people of the United States. Its columns will then be less exclusively occupied by political news and discussions, and will be much more largely devoted to Literature, General News, and interesting Miscellaneous Reading. It will be made emphatically and especially a Newspaper for the Family and the Female, containing Literary, Original and selected, Biographical Notices, Sketches of character, Letters from abroad, Anecdotes, and generally whatever will be most entertaining and most instructive to the great mass of Newspaper Readers.

Among the conspicuous attractions of the Weekly Times will be:
AN ORIGINAL NOVEL,
By a popular American Author, written expressly for its columns, and abounding in interest and merit. This will be published in successive numbers, commencing about the 15th of November, and will probably be completed in six months.

The Weekly Times will also contain a series of Letters from Europe and the East, by one of the ablest and most popular writers in the United States—embracing Notes of Incident, Adventure and Observation in Europe, Egypt, Arabia, the Holy Land, and forming one of the most interesting series of Foreign Sketches ever published in this Country.

Besides these continuous articles, prepared expressly for the New Series of the Weekly Times, it will contain, every week, a great amount of original correspondence, domestic and Foreign. Miscellaneous literary anecdotes and sketches. Notes of scientific discovery, geographical and critical notices, reviews of new and valuable Books, choice Poetry, original and selected, &c., &c.

In addition to its Literary and Miscellaneous character, the Times will give, in a clear and condensed form, all the news of day. From all quarters of the world, and in all departments of activity, embracing Agricultural, Commercial and Financial Intelligence, prepared expressly for its columns, and for the use of those in all parts of the country, who desire to be kept informed upon all these topics.

With a synopsis of all important documents, valuable speeches, and the proceedings of the several State Legislatures. Foreign News, as given in the Letters of Special Correspondents, and in Extracts from the Newspaper Press of England and the Continent—and the MISCELLANEOUS NEWS
Of Accidents, Crimes, Disasters, Personal Motives, &c., both at home and abroad.

The Weekly Times will also contain editorial articles discussing all the leading events of the day, in such a manner as shall promise to be most widely useful and instructive. In its political department the Times will be **Wholly Independent of all Political Parties.** Speaking freely and boldly its own Opinions, condemning public men and Public bodies for whatever may be wrong and upholding and sustaining them in whatever they may do for the advancement of the public good. It will advocate equal and exact justice to all men,—the preservation of the Union upon the principles of the Constitution, and the improvement of the condition of all classes by Education, Morality and Religion. It will not waver in its support of any section, nor countenance any infringement of the constitutional rights of any portion of our common country. But it will resist all attempts to subordinate the general good to sectional ambition, or to undermine those great principles of Human Liberty which form the basis and foundation of our Republican institutions. It will be moderate but firm in its tone,—seeking to convince rather than intimidate, respectful towards those who differ from it, conservative in its tendency, and devoted zealously and steadily to the elevation and advancement of the people.

The Weekly Times will be printed upon handsome paper, in clear type and in elegant style—each number containing eight pages or forty-eight columns—presenting every week a larger amount of choice reading and News than can be obtained elsewhere at the same rate. It is designed to make it once *The best and Cheapest Family Newspaper in the United States.*

FREMONT,
THE MUSTANG CANDIDATE.
Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal guard. Mr. Fremont remarked, in his dispatches to President Filmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send a liberal supply of Mustang Liniment, it would save 25 per cent of his losses." This is very important for all Farms and Liveries to know. The Mustang Liniment is a wonderful relief for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galls, Sprains, Spavins, Ringbone, &c., upon horses—Beware of imitations. The Mustang is sold by all respectable dealers everywhere.

The best remedy I have ever found for Coughs, Hoarseness, Influenza, and the pulmonary affections of a Cold, is Ayer's Cherry Pectoral. The constant use of this medicine has shown it to be the best for the cure of the above diseases. I have used it myself and in my family ever since I was a child, and it has cured me of every ailment of the kind. It is a safe and reliable remedy, and is sold by all druggists and chemists.
