

THIRTY-FOURTH CONGRESS.

WASHINGTON, January 27. SENATE.—Mr. Broadhead presented the memorial of Horatio Hubbell, of Pennsylvania, showing that in 1849, in conjunction with Col. John D. Sletten, he caused to be prepared for Congress a paper showing how a submarine telegraph could be constructed, and where it could be carried through his rights as proprietor were fully secured, by being made a member or director of the Company, or in some other way. As the subject had passed away from the Senate, the bill was laid on the table.

FARMERS.—The Indian appropriation bill was then taken up, and, as Senate adjourned, several amendments were made. Mr. Campbell, of Ohio, from the Committee of Ways and Means, reported an amended Tariff Bill, perfecting the former one so far as the majority of the Committee are concerned. Mr. Campbell states that the bill reduces the annual revenue fourteen millions of dollars.

GARDENERS.—The House discussed the bill giving their control of the revenue of the Accounting officers of the Treasury. Mr. Jones of Tennessee said that it would be unprofitable. Mr. Cobb of Georgia said he hoped that the House had not so far as to reverse the action of the First Comptroller of the Treasury, who had undertaken to lecture the House, not only for increasing the salaries of their officers, but for their own sake.

OWNERS OF PLOTS.—The House then considered the bill for the purpose of extending the term of the President in his annual message, and vindicated the principles of the Democratic party. On motion, the House then adjourned until 7 o'clock, when a session will be held for the purpose of debating only.

FROM KANSAS—GOV. GEARY'S MESSAGE.

St. Louis, Jan. 20.—The Republican has an advance copy of Gov. Geary's Message to the Kansas Legislature. In laying down the principles which he will guide his administration, he says a jealous regard for the delicate security and sanctity of the ballot box, with an unhesitating freedom of popular sovereignty, guaranteed in the organic act, establishing the territory; the preservation of the currency, based on gold and silver; free and safe immigration from every part of the country, a determination to submit to no invasion of the sovereignty of the territory, entire religious freedom, a free press, free speech, the right to assemble, and discuss all questions of public interest, trials by juries impartially selected, the sanctity of the writ of habeas corpus, the repeal of all laws inconsistent with the Constitution of the United States and the organic act, are the ideas by which his policy will be shaped. His views on the subject of slavery are embodied in the following passage:—The durability and imperative authority of the State Constitution, when the interest of the people require a State Government, and the direct popular vote necessary to give it sanction and to elect its proper officers, are for all to decide, and the political questions which involve a well regulated Commonwealth. The Governor advises the Legislature to let slavery alone, where the Constitution places it; to forego legislation in reference to it until the State Constitution is formed. He recommends that the errors and omissions in the statute book be corrected; he denounces the Federal act, and recommends its repeal; he denounces the present mode of selecting judges, and recommends their selection by the people. The adoption of the ballot box plan is insisted on. He recommends a law requiring a residence in the territory of ninety days, and in certain districts for ten days, to prevent illegal voting. He denounces a recent act of the Federal law, which levies a tax on all property for the special protection of the slave owners. The balance of the message, which is an able and upright document, is devoted to local affairs.

CHINESE NORTHERN SUGAR CANE.

SUGAR SCANE.—An old and well known subscriber to the American Agriculturalist, who has tried this plant, interesting and promising, will be supplied with at least two hundred and fifty perfect seeds, free of charge, if they send a prepaid (3 cent) envelope, ready directed, to mail them in. This number of seeds will plant six to ten square rods, and produce an abundance of seed for a dozen or twenty acres another year, should it be wanted. N. B.—Full directions for culture, treatment, &c., will be given in the Agriculturalist during the Spring and Summer. The publisher has just received a large new supply of first rate pure, fresh seeds from France, to be added to his previous large stock of American growth. He has no more to plant over two hundred acres, and a large quantity for sale, but now all on hand will be divided among subscribers to the Agriculturalist. (Distribution from Jan. 20 to Feb. 25.)—Some 200 or more applications are received daily, and 15,000 packages of about 300 seeds each are being made up. The Agriculturalist is generally acknowledged to be the best journal in the country, devoted only to Soil Culture in all its various departments. It is the "best," because of its great variety of plain practical, reliable instructions. For one dollar a year you get a large, beautiful and very valuable volume of two hundred and eighty-eight large double quarto pages.—This Journal is alone worth many times its cost to every one. Those subscribing for the Agriculturalist will thus get the Sugar Cane Seeds for "less than nothing."

ONLY ONE OF ONLY ONE NUMBER.

N. B.—The above is an outline of that got up under the excitement and bustle of attending to nearly 15,000 new subscribers letters of inquiry, & as much better as possible will be furnished this year, and the capital December No. (1856) will be furnished to 3,000 new subscribers for 1857, first received. God save the Commonwealth. HENRY WEISE, Sheriff, Salisbury, January 17, 1857.—

PROCLAMATION.

NOTICE is hereby given that a Special Court for the trial of cases in the Common Pleas will commence at the Court House in Salisbury on Monday the 9th of February of one week. Jurors and others interested will attend. Given under my hand at Salisbury, the 10th day of January in the year of our Lord one thousand eight hundred and fifty-six, and in the Independence of the United States of America the 81st. The First Snow Storm in the City in Mexico.—In London a newspaper of the city of Mexico, speaks in its number of the 21st of the snow there, thus:—"Last night, at half past nine o'clock, a very heavy snow storm, which lasted several hours. Never have we seen this phenomenon so common in altitudes higher than ours, in Mexico before. It also excited, to a high degree, the curiosity of the inhabitants of the capital.

with many valuable hints. This is a special feature of the journal. The Editor lays out and works before him, and materially aids and systematizes his plans.
