## SALAMANDER FIRE

## THIEF-PROOF SAFES.

The largest assortment in the United States. Warranted to be equal to any now made, and will be sold on as Good Terms, as can be obtained from any other house in the Country, at EVANS & WATSON'S 26 South 4th Street, Philadelphia.

Truth is Mighty, and Must Prevail. Report of the Committee appointed to superintend the Burning of the Iron Sufes, at Reading, February 27, 1857.

READING. March 4. The undersigned, members of the committee, do respectfully report, that we saw the two Safes e iginally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a fur-nace, viz: The Safe inuse by the Paymaster of the Philadelphia and Reading Ruilroad Company, in his office at Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lentz, in his store, manufactured by Evans & Watson, and put in books and papers precisely

The fire was started at 8½ o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chesnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened, and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examined and marked by the Committee. The books and papers taken from the Sate manufactured by Farrels & Herring were in our judgment, damaged fully fifteen per cent, more than those taken from Evans & Watsou's Safe.

We believe the above to have been a fair and impartial trial of the respective qualities of both

JACOB H. DYSHER. DANIEL S. HUNTER. Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Sales.

THE SALAMANDER SAFES

OF PHILADELPHIA AGAINST THE WORSD EVANS & WATSON, No. 26 South Fourth St., Philadelphia.

Have had the sarest demonstra-tion in the following Certification, that their manufacture of Schi-mand I Safes has at length fully warranted the representations which have been made of them tendering in madeabled security against the territe element:

Philabelipita, April 12th 1856

Defination April 12th 1856
Messis Evans & Watson is tents with a finished as the barbest satisfaction to state to you, that owing to the very protective qualities of two of the Sahamasker Satos which we purchased of you some few months since, we saved a large pertion of our Jewelry, Books, Papers, & e., exposed to the calamitmous fire in Runstend Place, on the morning of the 11th inst.

When we reflect that these Safes were leasted in the tearth story of the instaling we occupied, and that they fell subsequently into a heap of forming tonia, where the runst concentration of heat caused she heavy places to melt, we cannot but regard the preservation of the valuable contests as a set convincing proof of the great security afforded by your Safes.

We final take much pleasure in tenamoroding them to men of luminess as a same recome against fire.

Mesors. Evens & Wats mad have be ofter you only testimony in favor of the great security afforded to my entire stock of jeweiry, books, popera. Ac., during the recent dissertous configuration in Hamilton place, from the fact that the same were contained in two of the Salamander Sales mainfeatured by you.

Having talled from the lifth story of the Artisan Bashling, where they were previously placeld and exposed to a vanilleat for a long time, the preservation of the valuable densitie seemed to every one who witnessed the opening and interior examination, a matter of profound association. To all who may require a perfect protection from the rayages of fire. I shall not beautite to recommend the use of your Safes, as I consider they have now indergone the most trying test.

Means Frans & Watson—Gentiemen—No doubt you will be deeply gratified to learn the glood condition on which I discovered my book, policy of insurance, certificates of stock, as dother valuable deaments, when on Friday has I opened the safe made by your firm.

With my knowedge of its great exposure, both to the intensity of the heat from so hot a fire as that which destroyed the Artena Harlfring, as also from the force of the full from its former elevation position in the third story. I could entertain but sheater unper prior in the necessary and the present of the destroy of the heat of any service to me, but as these fears would ever be of any service to me, but as these fears outdever be of any service to me, but as these fears c new happily removed, I feel it only due to say to ying at I can be efforth recommend the use of your Safes to who may wish to feel a confidence in the perfect se-city which such means provides against so frightful an ment.
