Mower For 1857 is the most complete machine in use, and the one best adapted to the wants of the Farmer

First.—Being wholly made of Inox it is more durable than any other.

Second. It is so simple that any person can readily manage it. Third. It is so strongly and well built, that it cannot easily get out of repair.

Fourth. It is neat and compact, occupying

less space than any other.
Fifth. The frame is so easily balanced that there is no weight on the horses' necks. Sixth. There is little or no side draft. Seventh. It will cut heavy and light grass

equally well.

Eighth. It cuts wet grass as well as drv.

Ninth. The new cutter har wheel lessens the draft at least one fourth in mowing.

Tenth. Two horses will work it with ease in any kind of grass or grain.

Eleventh. It is the only machine with the entter bar directly opposite the shaft of the driving

Twelfth. The open cutting blade effectually prevents clogging in any kind of grass.

Thirt-enth. It is changed in a few minutes of frem a mower to a Reaper.

Fourteenth. It is the only machine with a rear and side delivery for grain.

Fifteenth. It is the only machine which gives the Raker control of the grain, both before and aft r it reaches the platform.

S xteenth. The adjustable spring seat, and

new reaper shoe are capital improvements.

The subscriber is determined that there shall be no excuse for persons to purchase furniture in trial with more than 12,000 machines have proved the cities, as every confidence can be entertained about the quality and finish of his ware and

with age. Eighteenth. All the improvements for 1857 have been practically and thoroughly tested. Nineteenth. Every part of the machine is made by master workmen and in the most substantial manner.

Twentieth. Ketchum's Reaper and Mower is warranted to cut grass and grain as well as it can be done with a scythe or cradle.

In a word it is just the machine which a farmer can buy without any risk, because simple experience has proven that it is reliable in all its parts

FARMERS, send in your orders early, as the sales for the season have thus far been more than double that of last year.

Truth is Mighty, and Must Prevail. Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, February 27, 1857.

READING, March 4. The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a fur-nace, viz: The Safe inuse by the Paymaster of the Philadelphia and Reading Railread Company, in his office at Reading, manufactured by Farrels & Herring and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely

alike.
The fire was started at 81 o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chesnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Com-mittee, The Safes were then cooled off with vater, after which they were opened, and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examined and marked by the Committee. The books and papers taken from the Safe manufactured by Farrels & Herring were in our judgment. damaged fully fifteen per cent, more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and

impartial trial of the respective qualities of both

JACOB H. DYSHER. DANIEL S. HUNTER. Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Sales.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continue without some personal experience of in effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the sub-lie and dangerous diseases of the threat and lungs. While it is the most powerful ambide yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and asfect remedy that can be employed for initiatis and young persons. Farents should have it in store against the insidius enemy that sheats upon them unprepared. We have alundant grounds to believe the Christia Perconal saves more lives by the communication is provided to the content of the content of

more than to assure them it is still made the best it can be. We spare no cost, no care, no tall to produce it the most perfect possible, and thus afferd those who rely on it the best agent which our skill can furnish for their care. PREPARED BY DR. J. C.
