ANOTHER EDITION OF MONEY RECEIPTS. - The London Times of October 10 has a letter from N. Wales, which says: On Thursday we had one of the finest eruptions of Vesuvius possible to be seen. Towards seven at night the crater appeared all on fire, long flames suddenly arose from it then the lava gushed out from a very broad surface, and with very great rapidity, in the direction of the Fosse della Parione, and in less than three hours it had run over all the distance that crater from the Arto del Cavalla, the place where the famous hermitage which serves as a refuge for travellers of all countries, for no foreigner comes to Naples without making the ascent of Vesuvius. Thanks to the fine mountain road the government has had made, you can ascend it easily in three hours. All the quays of Naples were thronged with people, admiring this beautiful eruption.

BREWER TREASURE COMING TO LIGHT. - The Peninsula (Del.) News says: - The people of the lower part of Sussex, continue to pick up silver coins along the coast. A friend informs us that, according to the best information he can collect, there have been found eight to nine thousand dollars collected altogether. The coin dates as far as 1718, and is in circulation all over Baltimore Hundred. - The prevailing opinion is that it is the money which was buried by Gibbs and Walmley, the two notorious pirates, who, after, confiding in the safety of their money in the sand in that neighborhood.

EXCELSOIR PATENT BED.
(Gaul's) Spring, September 2d 1856.)
FOR which a diploma was awarded at the Eighth Exhibition of the Mass. Charitable Mechanic's Association.
This is an entirely new application of spiral springs to beds, making a more comfortable, neat, and cheaper spring bed than has been offered to the public, applicable to old as well as new beds.
The peculiar position of the springs elevate the head slightly, saving the trouble of building up the head with extra bolsters.
The construction is so simple, and every part so expensively made, that they can be taken up and put on again, without the necessity of having them washed, as they are only fastened by a button.
The Springs used are made expressly for these beds on a Patent Spiral Spring Machine. The public need only use this bed to appreciate it.
The subscribers are authorized to purchase, near and distant, but to have no hiding places, and to give entire satisfaction to all who may favor them with their custom.

THE WITHERED HEART,
By T. S. ARTHUR.
THIS is a large 12mo. volume, Price \$1.50, with a fine mezzotint engraving, and is one of the most thrilling tales ever written by the author. It shows how a man may seem to be the world all that is good and noble, and yet be a traitor in his family, and finally send his wife to a mad-house.
We publish Mr. Arthur's new books, also works of History, Geography, &c., for which we want Agents in all parts of the United States to whom the largest commission will be paid, also an extra commission in the way of gifts.

EXCELSOIR PATENT BED.
(Gaul's) Spring, September 2d 1856.)
FOR which a diploma was awarded at the Eighth Exhibition of the Mass. Charitable Mechanic's Association.
This is an entirely new application of spiral springs to beds, making a more comfortable, neat, and cheaper spring bed than has been offered to the public, applicable to old as well as new beds.
The peculiar position of the springs elevate the head slightly, saving the trouble of building up the head with extra bolsters.
The construction is so simple, and every part so expensively made, that they can be taken up and put on again, without the necessity of having them washed, as they are only fastened by a button.
The Springs used are made expressly for these beds on a Patent Spiral Spring Machine. The public need only use this bed to appreciate it.
The subscribers are authorized to purchase, near and distant, but to have no hiding places, and to give entire satisfaction to all who may favor them with their custom.
