ARRIVAL OF THE ATLANTIC. LATER FROM EUROPE.

LATER FROM INDIA—Capture of Delhi—Confined—King of Delhi Surrendered—His Life Spared—His Two Sons Shot—Lucknow Relieved—The Panic in Europe—Important Financial News—Bank and Mercantile Failures—The Bank Rates Advanced to 10.

New York, November 22.—The steamship Atlantic arrived this evening, with Liverpool dates to Wednesday, the 11th inst.

The Atlantic brings £20,000 sterling in specie.

The news brought by the Atlantic is very important. It embodies later advices from India, and the progress of the financial crisis. The stringency in the money market continued unabated, and the Bank of England had again advanced the rate of discount one per cent., making the present rate of 10 per cent.

The latest advices from Liverpool announce that the City Bank of Glasgow stands solvent on Wednesday morning.

Messrs. Dennington & Co. have failed. Their liabilities are estimated at £20,000,000 sterling; also, the Western Bank of Scotland, which deposits amounting to £6,000,000 sterling.

Messrs. Babcock & Co., of Liverpool and New York, have also failed. Their liabilities are said to be £300,000. Several other failures have announced, with liabilities of smaller amounts.

These advices have been received, confirming the capture of Delhi. The garrison at Lucknow had been relieved by General Havelock just as the enemy were ready to blow it up. A large portion of the city had also been captured. Gen. Niall has been killed.

The king of Delhi surrendered to the British troops, and his life has been spared. His two sons were shot.

The Atlantic Telegraph Company had decided to renew operations for the laying of the cable the latter part of June next, commencing at the middle of the Atlantic, as originally designed.

Messrs. Glass and Elliott had commenced the construction of additional cable, making three thousand miles in all. Easton & Amos were building new paying out machines.

The London Times devotes a leader to the remarkable coolness of Americans under the existing crisis, in which it strongly cures the uncontrolled issue of paper money.

The Directors of the Bank of France had an audience with the Emperor, and unsuccessfully urged a duty of three per cent. on the exportation of specie. The Emperor reported himself in favor of an advance of the rates of discount to eight per cent.

Operations in the French manufacturing districts were completely stagnant.

The financial pressure had reached Sweden and Norway.

The Bank of Frankfurt and Bank of Prussia had raised the rate of discount to 7½ per cent.

The Senate of Frankfort has interdicted the residence there of an old political refugee named Froehel, who some time since had become an American citizen. The American Consul had protested against this interdict, and threatened to suspend his relations unless the order for the expulsion of Froehel is recalled.

A Russian war steamer had been wrecked in the Caspian sea. The captain, three lieutenants, and eighteen men were drowned.

The Paris Patrie urges the suspension of specie payments. It is regarded as certain that the government will be compelled to adopt some stringent measures. French finance is not, however, of a character to justify the gloomy apprehensions which prevail in commercial circles. The specie reserve of the Bank of France is two hundred millions, against one hundred and fifty millions of the corresponding period last year.

IMPORTANT FROM INDIA.

London, Wednesday Morning.—The following telegram, hitherto passed was received this morning at the foreign office: Delhi, which fell into our hands on the 20th of September, was entirely occupied on the 21st, and the whole of the enemy expelled. In the assault of the 14th, sixty-one officers and eleven hundred and seventy-eight men, being one-third of the storming party, were killed and wounded. General Nicholson died of his wounds on the 21st.

The old king said he was ninety years of age when he surrendered to Capt. Hodgeson, about fifteen miles south of Delhi. He was accompanied by his other wife. Their lives were spared. Two of his sons and a grandson were also captured by Capt. Hodgeson, about five miles from Delhi, and were shot on the spot. Two moreable columns were despatched from Delhi, on the 23d, in pursuit of the enemy. By accounts from Agro, one column appears to have reached the neighborhood of Aligarh and the other that of Muttra, on the 25th of September.

General Havelock, with twenty-five hundred men, crossed the Ganges, from Cawnpore, on the 19th of September, and relieved Lucknow on the 25th, just as it was ready to be blown up by its besiegers.

On the 20th the enemy's entrenchments were stormed, and on the 23d a large part of the city was taken. Four hundred and fifty British were killed and wounded. Gen. Neill was killed.

A slight rising of the rebels took place near Nasirpur, in the Benares Presidency, the suppression of which Lieut. Henry was killed. The Madras troops defeated the mutineers of the fifty-second regiment, near Kandee, and killed one hundred and fifty of them.

LATER FROM EUROPE.

St. John's, N. F. via Quebec, Nov. 24.—The U. S. mail steamer Vanderbilt passed off Cape Race on Sunday afternoon, and her news package was successfully transferred to the news yacht of the Associated Press. The telegraph lines having been interrupted between Cape Breton and Maine, the news service was prevented yesterday, and it can only be sent to-day via the Canadian lines and Quebec.

The steamer North Star, from New York on Oct. 21st arrived at Southampton on the 13th inst.

A fearful financial panic occurred in England, the day after the Atlantic sailed.

All the Banks refused to discount in any

specie.

The Typographical Association of Harrisburg is being revived.

places, became more cheerful on learning that the Government had authorized the banks to extend its issues.

The British Parliament will meet immediately.

The Bank of France had raised its discount on ninety days bills, to 10 per cent.

The English ship Dunbar, bound to Australia, was wrecked off Sydney. One hundred and forty passengers, and all the crew were lost.

INDIA.

The latest advices from Delhi say that the extent of the British loss has not yet been ascertained, but it is believed to be less than twelve hundred.

The mutineers of the Gwalior Contingent had been subdued, by cutting off their supplies. It was reported that Lucknow, which was relieved on the 25th of September, was again besieged by Nana Sahib, with fifty thousand rebels.

All the city people found in Delhi were bayonetted by the British troops.

Many Europeans were found in the city, fighting in the ranks of the rebels.

BRADESTROMS.—The circular quote marks the market as declining for all descriptions.

LECTURE ON JAPAN.

Mr. W. H. Doty delivered a lecture on Japan, last evening at Concert Hall before a somewhat small audience on account of the inclement state of the weather.

The lecturer commenced by saying that the Empire of Japan has for a long period of time engaged the serious attention of the commercial men and government of the United States. For the last six years that isolated empire has been an object of great interest to the civilized world and the United States had opened the ports which for centuries had been closed against older nations, and through which the powers of Europe have since entered and started a trade with its people.

The government of Japan is shared by ecclesiastical and military sovereigns. The spiritual sovereign's court is held at Macao, the religious capital of the country, and contains 24,000 priests who have in charge 4,000 temples in this immense city. His council is 200 grand high priests of the first rank who occupy with him a portion of the palace.

The Sogou or Emperor resides at Jeddo, and is assisted by a council of hereditary princes who are all kind of feudal system prevails. The departments and districts are governed by a chief and four vice governors who are assisted by many secretaries and watched by as many spies. Governmental work is done by S. G. Godrich (Peter Parley). Handbooks bound in cloth gilt, and illustrated with 200 beautiful engravings, \$1.50 and \$2. Price \$3. Sold only by agents to each of whom a special district will be given. Applications should state what counties they would like to canvass. The book is now ready. Copies will be sent by mail, post paid, on receipt of the price. Bills on all solvent banks taken at par. The "Hans Journal," says of this work: "No family whatever should be without it." For full particulars regard to an agency, address,

KLINE'S GROVE UP TO DATE!
