progress, and whatever may effect the intellectu-al, Moral, Social and Physical well being of mankind, dogmatic Theology alone accepted .-Its leading idea is the honoring of honest, uneful Work in whatever sphere or capacity, and the consequent elevation of the Labaring Class in knowledge, virtue and general esteem. It is ne-bessarily hostile to Slavery under all its aspects, to Intemperance in whatever form or degree with its accessories, to War save in the defence of Country and Liberty against actual invasion, and to every form of Gambling. Desiring to see Production extended and encouraged, while wild Speculation and urcless Traffic are curtailed, it Speculation and decless Trailic are curtailed, it favors the policy of sustaining and diversifying Home Industry by a discrimmating Tariil—a policy which tends to increase the price of Grain to the farmer while diminishing that of Bread to the artisan, by reducing the distance across which their representations. which their respective products are exchanged and, of course, reducing the cost of their transfer. Regarding Fillibusterism in all its phases, and every form and device of National covetousness with unqualified abhorrence as the bane of Republics and in their triumph the Grave of Equal Human Rights, we seek by every means to woo and win the attention of our counttymen from most among which we rank a Railroad through the heart of our territory to connect the waters of the Atlantic with those of the Pacific. Believing that the goods of this life are not yet fairly distributed, and that no one ready to work should ever famish in unwilling idleness, it lends an open ear to every suggestion of Social Improvement which does not countervail the dietates of eternal Morality nor war upon that natural right of every one to whatever he has fairly produced or honestly acquired, whose denial most sink mankind into the chaos and night of barbarism and universal squalor. With a pro-found conscienciousness that idlers, drunkards, libertines and profligates can never be other (in the main) than needy and wretched, it bears aloft the great truth that Prevention is better than Punishment—that the child trained up in the way he should go, will rarely in after years desert that way for the thorny paths of Vice and Crime-that a true Education-Religious, Moral and industrial as well as Intellectual-is the most effective temporal antidote to the errors and woes of our race. Had our hostilty to Human Slavery and the Liquor Traffic been more guarded and politic, our Daily issues would now be some thousands heavier and our Advertising far more lucrative; but of our patrimage generally we have no reason, no wish, to complain.

Pretexts to which no individual in his private capacity would have stooped have been relied on to justify the Stoppage of our papers within reach of their subscribers and rightful owners. and their retention in the Pest-Office till their value was destroyed. Postpasters have been schooled by rival journals- several of them living as their self-proclaimed aritity to serve as an antidote to THE TRIBUNS -as to their political duty to promote at our expense the dissemination of gazettes of adverse politics. We shall outlive this warfare, but we do not affect indifference to it.
