THE PRESIDENT'S MESSAGE ON UTAH

He Considers the Difficulties Terminated-No Occasion for the Volunteers-Governor Cumming's Communication to Secretary Cass.

WASHINGTON, June 19. A message was received by Congress to-day, from the President, enclosing a copy of the despatch from Governor Cumming, dated May 2d, received at the State Department

yesterday. From the tenor of this despatch, the President says he has reason to believe that our difficulties with Utah have terminated, and he laws been restored. He congratulates Congress on this auspi

cious event, and he expresses the opinion that there is no occasion to make an appropriation for the three regiments of volun-teers recently authorized for the purpose of quelling the disturbances in Utah, and for he protection of emigrant trains and supplies. Texas can be defended by the regular roops now within her limits.

Ex Governor Young paid him a visit of ceremony as soon as he was sufficiently relieved from the fatigue of his journey to receive company. In a subsequent interview, ex Governor Young evinced a willingness to

spect, Governor Cumming presumed, met with the entire approval of a majority of the Salt Lake community.

The territorial seal with other public property was tendered to Governor Cumming by Wm. H. Hooper, the late acting Secretary of the Territory. The records and library remain unimpaired. Gov. Cumming entered upon the performance of his official duty. With feelings of profound regret, he learned that the agent, Mr. Hurt, was charged with having incited to acts of hostility the Indians in the Vinta valley. The information came from Mr. Hooper. He hoped that Mr. Hurt would vindicate himself from the charges,

yet they demand an investigation. Governor Cumming has informed General Johnston that he would probably be compelled to make a requisition for a sufficient orce to chastise the Indians.

At every point he was recognized as the Governor of Utah, and received with a military salute, the houses being illuminated in

Having heard numerous complaints, Gov. Cumming caused public notice to be posted, signifying his readiness to relieve those who deemed themselves aggrieved by being ille-gally restraized of their liberty, and assuring the protection of all persons. He kept his office open at all hours, night and day, and registered fifty-six men, thirty-three women, and seventy one children as desirous of his protection, and expressing their disposition of proceeding to the United States. A large majority of these people were of English birth, and were promised assistance to be removed.

Governor Comming says that his visit to the Tabernacle will never be forgotten. There were between three and four thousand persons assembled for the purpose of public worship. There was the most profound si-lence when he appeared. Brigham Young and Governor Cumming addressed them for half an hour, telling them that it was his purto the services rendered by the Mormon battalion in the Mexican war, and recapitulated a long chapter of their wrongs. The tumult fearfully increased, but an appeal from Brigham Young restored calmness. Several at terward expressed regret at their behaviour. A temperary arrangement has been made vith Professor Theos. Weaver, a graduate of Jefferson College, to open and conduct a session of the classical department of the Mission Institute in the Lecture room of the English Lutheran Church. This is a large and comfortable room, which will afford am ple accommodations for the use of the School during the present summer. In the ensuing autumn it is designed to inaugurate all the departments fully, viz: the Theological and friends and customers. Classical, and also the Susquebanna Female College. But in the mean time the Classical Department will be opened and carried for ward as above announced The branches of study to be taught will embrace all those usually taught in our best Schools, and students will bave every attention paid to them in order to promote their education as adequately as possible. The course of instruction is designed to be a liberal and thorough one; and the rates of tuition are to be as moderate as they can be justifiably made. Students are therefore invited to report themselves at once. and to be present as early as possible after the opening of the session, as it will be to their own advantage to be on hand at an early period of the session. Students will, however, be received at any time during the term.

Boarding, rooms, &c., can be had on rea-sonable terms. And efforts will always be made to accommodate students as much as can be, in order that they may be enabled to pursue their studies economically and satis factorily.

For further information, address THEO'S. WEAVER, Principal of the Classical Dep. of Mission Institute.

Holloway's Pills .- Liver diseases of all kinds tend to the destruction of that organ. Some-times it is reduced to a mere shell, which a blow would break up, before the disorder kills the patient. Surely none but a madman would neglect such a complaint until the fatal crisis arrived, when ne had at his command an unfailing remedy. Holloway's Pills produce a more potent effect upon the liver than any other medicin al compound, vegetable and mineral. The symptoms of bilious maladies are yellowness of the eyes and skin, pain in the right side, and, in remittent cases, chills and fever. Any human is offered cheap at wholesale or retail. being thus afflicted may cure himself within ten days by taking Holloway's Pills in conformity with the directions.

Bilious Cholic and Cramp in the Stomach can be relieved in 10 minutes, in every case, by using from 5 to 30 drops of DU VALL'S GALVANIC OIL,

well as America.

3 The Peculiarities of his system of medication—dif-We as America.

2 The Peculiarities of his system of madication—differing from every other ever yet adopted—does not make sick to make well; nor tear down to build up again—discarding all dangerous drugs and poisonous minerals.

3. His imprecedented experience in Hespital practice where every form of disease was presented for his freatment and in cases of death, an examination of the dead body mode, and the appearances of the affected carefully noted down by his own hand for future reference. These notes and observations thus made when completed will form two large volumes of five number opens each, which will be published for the benefit of the Medical procession.

4. In addition to this, his vast experience, agained by travelling nearly five years, training thousands onlinely, have afforded great advantages for observation and the study of all diseases incident to the human family. In this period of time he has traveled a distance nearly equal to two entire circuits of the giobe, and has seen, prescribed for and been consulted by nearly 30 themsand invalids.
