Wilmington, Sept. 17, 1859 — Messis. Evas & Watson, Philadelphia.

Gentlemen: — The Salamander Fire-Proof Safe of your maniure, purceased by us from your Agent, Ferris and Garrett, of our city, some nine months ago, was severely tried by burgins lost Saturday night, and although they had a stedge hummer, cold chasels, and grupowder, they did not succeed in opening the Safe. The lock being one of "Hall's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of tee afterny to enter it, and if the above facts are of any service, you are at liberty to use them.

Yours, truly,

Great Fire !- Another Triumph ! ! KNOXVILLE, Tennessee, March 13th, 1559.

Measure Eyans and Watson,—Gentleman—It affords me arreat pleasante to say to you that the Salamander Safe, which I purchased of you in February, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse, together with several others, was burned to the ground in March last. The Safe full through into the jeel-lar, and was exposed to intense hear for six or eight hours, and when it was taken from the rains and opened all its contents where found to be in a perfect state, the books and the papers not being injured any whatever. I can cheerfully recommend your Safes to the community, believing, as I do, that they are as near fire-proof as it is possible for any Safe to be made.

HOSTETTER'S

STOMACH BITTERS.

It is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has in-troduced to this country a preparation bearing his name, which is not a new medicine, but one his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Bitters have no equal. Diarrhosa, dysentery or flux, so generally contracted by new sattlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestic organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great

necess

preparation in the scale of medical science. which fixes its relentless grasp on han, reducing him to a mere shat time, and rendering him phy-mentally useless, can be driven "by the use of HOSTETTEK'S SITTERS. Further, none of the cases can be contracted, even
