This Safe, containing all my blooks, together with valuable papers belonging to myssif and sense to my neighbors and triends, and representing a value of over Twenty Taousand Bullars. ng to myself and some to my oregibers and fremds, and representing a value of over Twenty Thousand Bollars, (820,00) was in my Mil, which was destroyed on the high fo the 27th of July, 1800, and passed through the flory orders directabled. The Safe was on the second flows, and fell in the basesment of the Mill, and was subsected for six hours to an intense heatmong the rains, wouth was greatly increased by the combustion of a large quantity of grain coulding within the brick walls. After the fire the Safe was opened and the books and papers takes out in a same of perfect preservation, the paper not even being discolored.
