SPALDING'S PREPARED GLUE meets all such emergencies, and no homsehold can afford to be without it. It is always rearly and up to the sticking point. There is no longer a necessity for imping chairs, aplinters veneers, headless doils, and broken cradles. It is just the article for cone, shell, and ether ornamental work, so popular with ladies of refinement and taste.

This admirable preparation is used coold, being chemically held in solution, and possessing all the valuable qualities of the best cabinet maker's Glue. It may be used in the place of ordinary municipe, being vasily more adhesive.

(820,000) was in my Mill, which was destroyed on the night for the 27th of July, 1800, and passed through the fiery ordeal unscathed. The Safe was on the account flier, and fell to the basement of the Mill, and was subjected for six hours to an intense heat among the ruins, which was greatly increased by the combostion of a large quantity of gram confined within the brick walls. After the fire the Safe was opened and the books and papers taken out in a state of perfect preservation, the paper not even being discolared. This fact was, however, to many bystanders, a better recommendation of your Safes than could be expressed in any other words from me.
