CARLISLE, Sept. 2, 181. DEAR AMERICAN :- Owing to the inclemeney of the weather this morning, we have dispensed with drill and all out door work, which gives me an opportunity to write a few lines to you. I had occasion to visit Harrisburg. on Monday, August 26th. I visited the "Sun-bury Guards." Seventy four men were already sworn in the United States service, and Capt. Gobin told me be expected the maximum

complement in a very few days.

The boys were all hearty, and of good cheer I was highly pleased to see Lower Augusta Little Mahanoy, Washington, Jackson and Cameron townships so well represented in the Company. It shows conclusively that the citizens in the raral districts are getting aroused; that they fully appreciate the peril in which their country is being placed by vilo and unscrupulous traitors. Our farmers' sons are not so easily awayed or excited as the citizens of cities and towns; they have their stendy employment, and do not wish to leave their daily avecations unless they feel assured that their presence is really needed. That hour has arrived, and they are already responding to the call. My rural friends, come forward with a steady but determined step; the arm of a great nation, in her hour of trouble is leaving on you for support. You are the life and soul of the greatest country upon the earth ;-"The Lord's Country," the destruction of which is not yet written in the bank of fate -Each of you combine within yourselves every element and virtue that constitutes an effi cient, true, and noble soldier. Every muscle is developed by honest industry. Come out in your might, and you will present such a solid phalanx to the enemies of your country, that

they will shrink from your sight. Wm. H. Russel's letters to the London Times are not of the most conciliatory nature he speaks of Americon soldiers as if England had pever met with them in former times .-The army that retreated from Bull's Run, of which his rich imagination enabled him to give such a plausible and graphic history, was composed of the same material which, at Surgeuse, knocked a born off John Bull. The and abuses; they must have Cotton, and if they do not behave themselves they may have such a dish of cotton served up to them as Jackson served up to them at New Orleans. They are evidently very much afraid lest some of Her Magesty's subjects would risk their money in the "American Lean." I do not know that we had any reason to expect much financial aid from their coffers; for every school-boy knows that her national purse is heavier loaded with debt than with specie .- | circumference. If we were to believe the miserable, one- year. sided barangue in her press now, we should be forced to admit the success or final fate of our great country depended upon the opening or shutting of the British purse : but experience has siready taught us differently. The American people are not only able to meet every financial emergency, but are also willing. Millions of dollars are daily being subscribed, in sums averaging from \$50 to \$50,000, from all classes of people. The poer widow throws in her mite which she has accumulated by years of economy. Then comes the millionare, with his pile, for he can find no other place on the face of the earth, where his money is so safe, and yet brings such high interest—7 and 3-10 of it by the laboring class of our community. Instead of it going to the money-mongers of the old world.

The late active manifestations of our Government cannot help but have a good effect at bell, we regret to say, lost a valuable horse home and abroad. The steady re-enforcing of on Monday last, in passing over the bridge at of our army, the training and bringing our troops to a strict military discipline, the strengthening of the Navy, the rapid collectory. THE COUNTY CONVENTION-THE BOOUS DEMOCRATS CARRY OFF ALL THE OF-FICES TO THE OTHER SIDE.

The convention of the Breckinridge Democrats of this county met at the Court House, in Sunbury, on Monday last. We do not mean to say that all were Breckinridge men, because we know that most of the Democrats of the lower end are good Douglas Democrats, and a number of these were present, but unfortunately the organization of the party is now controlled by Breckioridge leaders and persons who sympathize with the rebels, and no man who gives the least countenance at this time, to traitors, by creating divisions and dissensions, can be a true Democrat. In time of war party struggles for office should not be heard of. So said the lamented Douglas, in his last speech So says Mr. Holt, the late patriotic Secretary of War, under Mr. Buchanap. So says that distinguished words: Democrat and statesman, Gov. Dickinson, in the party, and have taken every office on those who know how such things are done - try. One of the leaders of this intrigue told us on Saturday, before the election, that all the offices were to go on the other side, but one-The secret clique who thus cheat the people are actually worse than the Know Nothings, and expect to carry out their vile intrigues under the name of Democracy. A number of the men engaged in this business were Federalists and Whigs, not many years ago, and having left their party for the sake of office, are ready for anything. What can be the object in throwing all the offices in the upper end, is a question more easily asked than answered. Are they more deserving, or are we only fit to be their servants, or is it because they have been plotting for a number of years to divide the county, and expect by getting all political power into their own 87. hands they can better accomplish their de-THE AMERICAN PHRENOLOGICAL JOUR. this place, condemued this course, and begged tion that they will remember it for years to (AL for September, contains biographical of them to prevent it. Such questions, at this time, may well be asked by Democrats of the Breckin. ridge stamp, but not by patriots. Why then should Democrats pass over the claims of their neighbors-good and capable men, and gut into the hands of the Breckinridge faction in the upper end all the offices, most of whom have been secretly siding the South by denouncing the war, while some of them, at least, not long since, openly declared their willingness to aid the South, if necessary.

Be it with Irishmen at all ever.ts, the lesson, the incentive, the animating conviction, the rallying battle cry in this temptuous time. THE GREAT REQUISITES .- Napoleon and Wellington always held that no army could be effective unless it was well clothed. With them the regimental tailor was a more important personage than a General of Division, for there was plenty of materials to make Generals; but a good general tailor required a combination of rare qualities. In our recent experience, an army was created almost by the sounding of a bugle. The 'Cameron's gathering" was magical; but good clothing was scarcer than good men, and ragged uniforms disfigured entire regiments. This evil is now at an end, the famous firm of Rockhill & Wilson having established a Military Clothing Depot at their Brown Stone Clothing Hall, Nos. 603 and 605 Chestnut street, above Sixth, and uniforms of faultless material, cut and made, are now produced there in unlimited quantities.

GUTTA PERCHA CEMENT ROOFING -- We invite the attention of our readers to the advertisement of Messrs. JOANS & CROS-LEY, New York, in another column.

The numerous experiments made for the last few years, to produce a substitute for tip, slate and shingle roofs, have at last led to a perfect triumph in the GUTTA PERCHA Cement Roofing offered by these gentlemen. Possessing in a great degree, the features

of elasticity, (which is a qualification of a Cement Roofing actually necessary and long after.) durability and cheapness, combined with the fact that it is weather and fire proof, its general adoption cannot be too earnestly urged. Their Gutta Percha Cement for coating and repairing Metal Roofs of all kinds and for preserving all metals from rust and corrosion-from its great durability and cheapness, is fast superceding points of every description heretofors used for such purposes

These materials (for which the First Premiums have been awarded by the American Institute and many of the principal State Fairs throughout the country,) are recemmed in the highest terms by the New York & Eric R R Co., and many of the principal Railroads North and Scath, and also by the officers of the leading Insurance Companies throughout the country.
