New OREANS, 25th August, 1859.

Dr. J. C. Aten: Fig. I cheerfully county with the respect of your agent, multroper to you some of the effects. I have readised with your Baraparilla.

I have creed with it, in my practice, most of the complaints for which it is recommercied, and have found its effects truly wonderful in the care of Disearch and Mercurial Disease. One of my patients had Symilithe uteers in his threat, which were consuming his patiet and the top of his mouth. Your Surseparills, steadily taken, cared him in the weeks. Another was stacked by secondary symplems in his ness, and the uteration had eaten away a considerable part of it, so that I believe the disearch would ston reach his built and hill thim. But it yielded to my similaritation of your Sarsaparilla: the ulcers bealed, and he is well again, not of course without some delinguation to his face. A woman who had been treated for the same disearch by mercury was suffering from this poison in her bones. They had become so certainties pinn in her bones. They had become so certainties pinn in her bones. They had become so certainties of your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your inheratory must be a great remedy; consequently, these truly remarkable receits with it have not surprised me.

Masses. Evass & Wayans,—Gentlemen:—The small size No. 1 Submander Safe which I purchased from your agent. Mr Admir R. Bart, in Lancaster City, on July 20th, 1858, has been subjected to a very severe test, which it withstead in a most astisfactory manner. This Safe, containing all my books, together with valuable papers belonging to myself and some 6s my neighbors and friends, and representing a value of over Twenty Thomsaud Dollars, (S.00,000) was in my Mill, which was destroyed on the night for the 27th of July 1860, and passed through the fiety ordeal ansenthed. The Sufe was on the second floor, and fell to the larsement of the Mill, and was subjected for six bout to an intense heat among the ruine, which was greatly increased by the condustion of a large quantity of grain confined within the brick walls. After the free the Safe was opened and the books and papers taken out in a state any other words from me.
Yours, respectfully, SAMUEL RANCK.

Another Victory for Evans and Watson's Salamander Safe. Gentlemen—It affords me much pleasure to inform you that the Safe No. 5. (upright) which I purchased of B. Stroad, your traveling agent, has passed through an exceedingly het fire in a three arous brick building, which heated the Safe to a white heat, so that the estructs of it appear melted; but if preserved my hooks and valuable papers to the amount of several thousand dollars, for which I feel thankful.
