These symp-bans are often the produce to serious lituess. Some it of sickness is everying upon you, and should be averted by a timely use of the right rem-edy. These, if not reflered, senet upon themselves and the surrounding segment of the body, and observed upon themselves and the surrounding segment surrounding, suffering, and disease, While in this condition, eparased by the decaugation, take Ayer's Fills, and see here directly they restore the natural action of the system, and with it the longitude fielding of beatht again. Dn. J. C. Aven. Sir: I have been repeatedly cured of the worst heminiche any body can have by a dose or two frywar Pills. It seems to arise from a four stomach, which they cleanes at once.

Billous Disorders - Liver Complaints. Prom Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperiont, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of belieus com-

plands than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is wor thy the confidence of the profession and the people. The confidence of the profession and the people.

Stn: I have used your Fills in my general and hospital practice ever since you made them, and cannot besitate to say they are the leaf exthactic we employ. Their regalating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have solden found a case of bettern discuss so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physician of the Marrine Hospital.

Dysentery, Diarrhoa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I held them in extsem as one of the best aperious I have ever found. Their alterative effect upon the liver makes from an excellent remody, when given in small doses for bilicus dyneutery and diarrham. Their sugar-coating bakes them very acceptable and convenient for the use of women and children.

Dn. Aven: I have used your Fills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and parify the blood, they are the very best remedy I have ever known, and I can contidently recommend them to my friends.

Constipation, Costiveness, Suppression, Rheumatism, Gaut, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaugha, Montreet, Conada.

Too much cannot be said of your Pills for the cure of costiceness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the programitor of others that are worse. I believe cativeness to originate in the liver, but your Pills affect that organ and cure the discase.

From Mrs. E. Stuort, Physician and Midwife, Boston. I find one or two large doses of your Pills, taken at the proper time, are excellent premetives of the natural servation when wholly or partially suppressed, and also very effectual to cleans the stomach and expel corner. They are so much the best physic we have that I resemmend no other to my patients.

FROM THE "HOME JOURNAL." "Of all the child-furniture we have ever seen no article combines so much of those two important things—health and happiness—as the Ad-justable Patent Steel Spring Saddle-Horse, in-vented by Iesse A. Crandall, It is not dangerous, like a common rocking-horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is so like the gullop of a live horse that the child never wearies of it. This atest of child-novelties is exceedingly elegant and artistic in design; and so adinetable, substantial, and durable, that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made large and strong snough to sustain grown persons.
