THE BOMBARDMENT OF PENSACOLA.

UNITED STATES STEAMER RICHMOND, I.

OFF FOR PICKENS, NOV. 23, 1861.

This morning at about 10 o'clock Pickens again opened fire and the Niagara steamed into long range of the forts, directing us to remain where we are until further orders. As I write (2 P.M.) Warrington is burning and the fire is going on between Pickens and our batteries. The United States storeship National Guard has just arrived.

During the engagement the "Richmond" alone fired on the first day 562 shot and shell using nearly 6,000 lbs. of powder. I tell you old boy, there was some noise Friday. Pickens is all right thus far, and can hold out forever if kept supplied with ammunition and provisions.

The island about the fort is covered with shot and shell thrown from the enemy; it looks as though the skies had rained 10 inches and drizzled 42 pound shot.

Our old ship is in a very bad state. A ram

hit her, a 10 inch shell hole to starboard

and all the forward copper off from the

Toronto iron roof. How much more we

can stand without going in the box remains

to be seen, but we continue to keep our spirits and are ready for present.

Nov. 24, 2 P.M., Sunday.—No firing

either side, day of rest. Pickens has one

gun dismounted, one man killed, one mortally

wounded, one slightly wounded. Warrington

and the entire north side of the Navy Yard

is a mass of smoking ruins. Pickens fired

mortars all last night at regular intervals.

ANOTHER ACCOUNT.

Our correspondent on board the United

States bark Ethan Allen, writes under date

of Tampa Bay, Fla., Dec. 1, as follows, in

regard to the bombardment:

"The bombardment of Fort McRae and

Barracks, the Pensacola Navy Yard and

the batteries therabout, commenced upon

the 22nd ult. The Niagara went inside

of Fort Pickens as near the enemy or the depth

of water would allow, and blazed away on

Friday and Saturday. Forts McRae and

Barracks were silenced completely, the

former being set on fire. Warrington was

laid aside, and the rifle works of the enemy

were squashed by the Richmod, which vessel

threw 500 shot and shell into them, from 10

A. M. to 2 P.M. The loss on our side was

only two killed and twelve wounded. On the

land side it was larger."

The steamer is, I think, either sunk

or permanently disabled; I wish we could

have had another day of it. It was splendid

fun and good target practice. Not a gun

was disabled on the parapet, and only

one in casemate. The shell which disabled

the latter came into the embrasure, struck

the side and glanced down, landing and wedging

itself between the breach of the gun and

the lower part of the carriage. Fortunately

it did not burst, but the bricks which it seat-

tered around wounded seven men.

The Niagara and Richmod did good

service on the first day, and with the aid of

"Battery Scott" silenced McRae entirely.

The flag on McRae was shot away, and on

the second day our battery shot away the flag

in Barracks fort.

Our flag was torn a little, but it did not

come down during the affair.

The following official report has been

received:

HEADQUARTERS DEPARTMENT OF FLORIDA,

PORT PICKENS, NOV. 25, 1861.

General.—It is with much pain that, after

the wonderful escape of my command from

the missiles of the enemy, I have to report

to you a most melancholy accident, the result

of gross carelessness, which has just

occurred.

In order to prevent accidents, I ordered all

the shot and shell of the enemy to be collected

lest the men might tamper with some of the loaded shells. This was accordingly

being done, when one of the men tried to

empty a shell by knocking it against another, he being surrounded by a crowd.

An explosion ensued followed by that of

another shell, instantly killing five and

wounding seven others.

I am General, very respectfully, your

obedient servant.

HARVEY BROWN,

Colonel Commanding.

Brigadier General L. THOMAS Adjutant

General U. S. Army.
