MANUFACTURERS OF

And Sole Agents in the City of New York for

**CREAM OF TARTAR SUBSTITUTE,**

Invented by Prof. Eben N. Horsford, of Harvard University. Office, 11 Old Slip, Hanover Square, (up stairs,) NEW YORK.

THE high price which Cream of Tartar commanded in 1854, together with the alarming extent to which its dangerous adulteration had been carried, with other considerations, induced the distinguished Chemist, whose name is given above, to commence what proved to be a long and laborious scientific research, to discover a desirable substitute therefor.—His efforts were crowned with abundant success, and hundreds of thousands of pounds of the Substitute have been sold and used during the last five years, throughout the United States and the Canadas.

The following true comparison of its nature and the results of its use, with those of Cream of Tartar, will convince the most incredulous of its value.

Cream of Tartar is a bi-tartrate of Potash.

This Substitute is a simple Phosphate, and contains nothing but what is found in beef-steak, and in corn, wheat and other cereals, and is therefore highly nutritious. It also has a health-giving influence, and supplies that for which there is a constant demand in the system.

☞ It is sold for a much less price than Cream of Tartar.

**INFALLIBLE**

# LINIMENT,

THE

*GREAT REMEDY*

*For Rheumatism, Gout, Neuralgia, Lumbago, Stiff Neck and Joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache, and all Rheumatic and Nervous Disorders.*

For all of which it is a speedy and certain remedy, and never fails. This Liniment is prepared from the recipe of Dr. Stephen Sweet, of Connecticut, the famous bone setter, and has been used in his practice for more than twenty years with the most astonishing success.

As an Alleviator of Pain, it is unrivaled by any preparation before the public, of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically, Rheumatic Disorders of every kind, and in thousands of cases where it has been used it has never been known to fail.

For Neuralgia, it will afford immediate relief in every case, however distressing.

It will relieve the worst cases of Headache in three minutes, and is warranted to do it.

Toothache also will it cure instantly.

For Nervous Debility and General Lassitude, arising from imprudence or excess, this Liniment is a most happy and unfailing remedy. Acting directly upon the nervous tissues, it strengthens and revivifies the system, and restores it to elasticity and vigor.

For Piles, as an external remedy, we claim that it is the best known, and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a radical cure.

Quinsy and Sore Throat are sometimes extremely malignant and dangerous, but a timely application of this Liniment will never fail to cure.

Sprains are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected.—The worst case may be conquered by this Liniment in two or three days.

Bruises, Cuts, Wounds, Sores, Ulcers, Burns and Scalds, yield readily to the wonderful healing properties of Dr. Sweet's Infallible Liniment, when used according to directions. Also, Chilblains, Frosted Feet, and Insect Bites and Stings.

**Self-Adjusting Clothes Wringer**

Simple, Economical, Durable, and is not Liable to get out of Order.

The Self-Adjusting Clothes Wringer, is one of the greatest improvement of the nineteenth century, and has only to be known and tried, to come into general use. The saving of clothes, in pressing out the water between two rubber rolls, instead of wringing or twisting, will amount to enough in a short time, to pay for a machine.

Every one is aware, that the twisting or wringing of clothes, stretches and breaks the fibres; but this machine presses them so evenly, that a newspaper thoroughly soaked, can be wrung, without breaking it in the least, and it works so easily, that a child twelve years old can operate it without trouble. Hot water does not injure the rolls, and woollen goods can be wrung out of boiling water to prevent fulling, which cannot be done by hand.

In Starching, it is invaluable especially on large articles, such as Ladies' Skirts, &c., as it leaves the starch in the clothes perfectly even. It will wring the largest bed quilt or the smallest pocket handkerchief, drier than can possibly be done by hand, without alteration in less than one-eigth the time. The machine is so simple that it is not liable to get out of repair.

The great improvement in this, every every other Wringing Machine yet invented, is, its Self-Adjusting arrangement, requiring no alteration, to wring a handkerchief or bed quilt consequently, the most ignorant servant can execute it.

The machine is made of wood, and so arranged, that no iron can possibly come in contact with the clothes, thereby avoiding all danger of injury to the clothes, by iron rust.

This is the most simple and effective Clothes Wringer yet invented. Those purchasing can use them two weeks, and if they are not perfectly satisfied, return them, and their money will be refunded.
