

Local Affairs.

We are requested to state that the Rev. J. R. Chanoff will deliver a National sermon at the Methodist E. church, in this place, on Monday evening next, the 11th inst.

TRAIN ACCIDENT.—The small train from Baltimore, due here at 4.30 P.M., on Monday last, did not reach here until 8 o'clock in the evening. The delay was caused by the breaking of a wheel of the engine, in the vicinity of Glen Rock. The engineer, George Henry, had his leg broken. No other persons were injured.

SANITARY FESTIVAL.—The proceeds of the Sanitary festival, held at the state house on Thursday and Friday evenings of last week, by the ladies of this place, amounted to \$178.70. The contributions for the aid of the soldiers, raised by the ladies, throughout the entire week, amounting to \$178.70, have been more liberal and enterprising than the ladies of Sunbury.

CALEB BARTON, Sen., one of the oldest and most respectable citizens of Bloomsburg, Columbia county was killed on the Bloomsburg and Lock Haven Rail Road, on Tuesday night the 20th inst. Mr. Barton had been absent from home some twenty years, superintending improvements to his property in Ohio, and had returned to Rupert station on the Catawissa Railroad, about midnight, and then started on foot for home walking up the Bloomsburg and Lock Haven road, when it is supposed he was struck by the engine of a coal train, as he felt the train was morning dead, with out and brakes indicating the death in this way. He was about 70 years of age.

NEW YEAR.—New Year was not observed as a holiday, in this place, and business went on as usual. About noon, some few young men, intent on having a little sport, made their appearance on horse back in the style of St. George's Cavalry. But as the day was very cold, and which did not do freely on account of the late addition to ice liquors, they therefore took the hint that such fun was not very agreeable, and turned in after a short parade, to rest on the better parts of mankind.

COLD WEATHER.—The weather this winter has been subject to sudden changes from a moderate temperature to severe cold. The river, at this place, was closed for the second time, this winter on Saturday night last. The ice on the river is from four to five inches thick and some of our citizens have already commenced filling their houses. The ice taken, is considerably out in the river, that near shore being more or less dissolved by the turbid water.

SNOW.—About three inches of snow fell on Monday night. There is a good foundation of snow, and a few inches more would bring out the best of the winter, but that which in this case, but those that ring out merry peals in chimes.

BRICK YARDS.—We are pleased to learn that B. Hendricks of this place, is about commencing the manufacture of brick by steam power, and an industry so long and abundantly supplied, with excellent brick, at reasonable prices. Hereafter there will be no excuse in putting up frame buildings of brick walls when the latter will cost no more than the former, at the present rates of lumber. And when we take into consideration that fact that a brick house is twenty-five per cent more than a frame one, we are surprised that many frames are erected. Undoubtedly this was owing to the fact that brick could not be readily obtained. In Reading and other places where brick are cheaper and abundant frame buildings large or small can be seen.

We understand that Mr. S. Gehlinger has sold out his brick yard in Milton, who will also commence the business.

COURT.—The present term of Court was well attended and considerable business was transacted, especially in the sessions. The criminal calendar is growing larger every year, and sometimes occupies half the term. A number of civil cases were concluded on account of the absence of George F. Miller, Esq., whose health we regret to learn is such, that he has gone to New York for medical and surgical treatment.

We are glad to learn that Dr. G. W. Belter, who was severely injured by the car on the night before Christmas, is rapidly recovering and is considered out of danger.

COLD.—It is nothing new to our readers to be told that it is cold. They are feelingly reminded of the fact, but it may be so very much that they can be at all, in the style of the late style of Hays & S. E. Carter's, that of any one else. They are manufactured by himself and are warranted to be a good article. See yourselves, three doors east of Friling & Grant's store.

The three-story brick building at the corner of Market Square and Second street, lately the property of Edward T. Beck, Jr., was sold last week to Mr. Bennett of Juniata county, for three hundred dollars. Mr. Bennett intends to enlarge the building for a hotel.

LEAF YEAR.—This is the one thousand eight hundred and ninety-four, will be Bi-centennial or Leaf Year. It is so called because it leaps over a day more than a common year, in this common year there are 366 days, in leap year 366. It is said that during this year, more bi-centennial committees than in the other three, and for this several reasons have been assigned. Carrying nothing about reasons, we hope the bi-centennial committees will be able to say in the language of Shakespeare:

And I wish in having such jewels; As twenty years, if all their souls were put in. The water Nectar, and the dew of youth.

A BLESSED DAY.—Somebody has said, and truly too, that Sunday is a blessed day to man who necessarily catches but brief glimpses of home during the toiling week; who is off in the morning while the little eyes are closed in slumber, nor back at night until they are closed in sleep. What would he know of the very children for whom he is toiled, and who are breathing the fresh air of Sunday? What honest workman's child will ever forget this day, when clean and neat, it is his privilege to climb papa's knee and hang about his neck, and tell him all the news which he makes up by his own little wits. "Narrow," did we say?

We recall the words, for it widens out into the boundless ocean of eternity. Sunday for the working man is so. It would have it—a day followed by sweet, pure, home influences; when the little babe, quite complete, shall rest from labor, and there shall write it down the blessed day of his life.

"Of all the week the best, Emblem of eternal rest."

THE BRITISH CONSUL.—L. Scott & Co., of New York, continue to receive the leading British and Quarterly and Bi-Monthly Magazines. By this arrangement the American publisher is enabled to offer to his subscribers the most complete and up-to-date list of the merits of these periodicals. They contain the pleasant fruits of the season, wit, and genius of the age, and are a source of constant pleasure to the scholar, the professional man, or the intelligent reader. They are published with a view to the interests of the general public, and with whatever of interest may be found in science, literature, morality and religion. While they are not intended to be a substitute for any of the papers published in this country, they are far from being a poor substitute. In this respect they occupy a position which should be glad to see established. It is a question of general interest, and one which should be given to the public. It will be well to be on the alert for the publication in only a few days of the week.

PROCEEDINGS OF COURT—JANUARY SESSIONS 1894.—Continued from our last issue. Same as Joseph Vastus—Indictment amount and battery, by cutting and stabbing. No true bill. Roy & Adams to pay costs.

These proceedings grew out of an attack made on Mr. Adams, who is and was a Conductor on the Bloomsburg and Lock Haven Railroad. The occurrence took place at the hotel of Mr. Joseph Van Kirk, in Northumberland, last spring, when according to the testimony of Mr. Adams, Mr. Vastus made an unprovoked attack on him, in the rear of the hotel with a knife, inflicting injuries upon Mr. Adams, which prevented him from attending to his duties as Conductor, for some months. The case excited considerable interest at the time. It will be seen that cross bills were sent before the Grand Jury, or, in other words, Mr. Vastus having prosecuted Mr. Adams, the two bills were sent by the Grand Jury, together, with the witness of both parties, the grand jury constituting that body, the tribunal for the trial of the two cases, a matter of doubtful propriety except in extremely rare cases, when the ends of justice cannot be reached otherwise. Mr. Vastus is a resident of St. Louis, and Mr. Adams of Luzerne county.

Same as Isaac S. Wynn—For. and Bnd. and Sedition, and over to prevent next term. Same as Wm. Gaud—Assault and Battery. No true bill. Same as Thos. Gibson, Martin Gibbons and Michael Gibson—Assault and Battery. No true bill. Patrick Hester, the prosecutor sentenced to pay the costs.

Same as James Dougherty—Assault and Battery. True bill. Same as Robert H. Hester the prosecutor sentenced to pay the costs.

Same as Michael Dougherty—Assault and Battery. True bill. Same as Oranget M.—Complicity. True bill. Same as Walter Williams—Surety of the Peace. Sentenced to pay costs, &c.

Same as Robert Hutchinson and others—Indict. A true bill was found against the following named persons, viz: Robert Hutchinson, J. S. Griner, W. D. Dumas, Russell Lyman, Israel Hill, Joseph Hitejohn, George W. Dixon, Joseph Long, David Hays, Jos. Miles, Hunter Miles, Joseph Blye, Geo. Armstrong, Jno. Hinkel, Peter Sarrch and F. Belsol. This case grew out of a disturbance at Turbotville, as a festival given to the returned late monthmen, last May, when it is alleged, some persons calling themselves Copperheads rushed in and got up a general fight. The trial is not concluded as we go to press, but if there is any virtue in the strong, clear and concurrent testimony of numerous respectable citizens, the defendants never can be convicted. The attempt to implicate Rev. Mr. Miller, proved a complete failure.

Patrick Timmes, Joseph Morley, J. D. Brianan, Martin Ryan, and Wm. Hartley. Sentenced, each to pay a fine of \$3 and the costs of attachment by contempt of Court in not appearing as witnesses.

DIARIES FOR 1894.—A few more left and for sale at the shop of Anna Painter.

Letter from the Sunbury Guards. DEAR WILBERT: A keen northern has been blowing for the last two weeks, and brings with it a cold wind, which is not so much a "man born" hint upon their overcoats and shawls, and so cold was it that the deer creatures were no where to be seen; so the supposition is they were seeking the heat of a friendly fire in an out-house kitchen. (You are aware that the private dwellings are without chimneys or any contrivance for fire.) Indeed our own men felt the change severely, so much so, that the great coats of Uncle Sam were worn by the guard, and any quantity of them were to be seen as one might expect to see them in the streets of the town. In the Sergeant's room, where I am now quartered, which is at the Barracks, where I "speak the life," we have fire night and day, and I assure you it is very comfortable. Some thirty of our regiment have been on the main line for the last month, cutting logs, wood, &c., to be used for different purposes in this command. The boys were very much pleased with their trip, and their hardy looks, on their return, proved that the "hewing of wood" was no injury to the health or good appearance of the "bowl of hygieine." To be used for different purposes there, and among them was the celebrated chief, Tiger-Lily, who, when asked his age, replied, "fifty cools," meaning that many winters. The party traded with the Indians, and by that means had a supply of fresh pork, venison, fish, &c. The present season is the carnival of the citizens of this city. They have been enjoying themselves during the holidays with balls, parties and masquerades, in fact, their festivities have not been confined to what is done at home, usually celebrated twice a year, beginning with the first of December, and continuing to the first of January. Their masquerades are similar to our old-fashioned Ball-shakes, only they have the fun to themselves—do not throw apples, cakes or nuts to the children for a reward, but they made for the streets, headed by a negro and Dago (Spanish) with fiddle and guitar, and after satisfying their ambition in making themselves ridiculous, retire to some private house, where young ladies have already assembled, and are all evening with performances on the "bed and toy."

In the way of parties, the people here have been more fortunate this year than that of last. A few days before Christmas a vessel arrived from New York, and on it a good lot of turkeys, potatoes, turnips, onions, &c., &c., to be used for different purposes and well did all parties go in when they were put up at auction, but right smart did they pay for the whistle. Turkeys brought the snug price of from five to six dollars a piece, and other articles in proportion—the turkeys were sold at a profit, and I have often bought of an Augusta farmer for fifty or seventy-five cents. Every family that could raise the amount purchased one for a Christmas dinner. I was amused in one case where a woman paid six dollars for a golden hen, and another sent to a store for a fine and small (eight) turkeys, and a lot of potatoes, paying for that amount, showing that whatever privations she had to put up with, a turkey had to grace the Christmas table.

The Engineer Department are busy on the works of Fort Totten, the Fort and its fortifications that are now being erected on this Island. In doing so, a large amount of labor is required, which is mostly done by men brought from the northern cities—men of such character as those who resisted the Army of the Potomac in the Fall of 1862, and in the late war of the Rebellion, and who were engaged in the game and got worsted. Two of the party attacked a gentleman, abused negroes in his employ, stoned his house and threatened the life of his next day they were identified, and in their own defense were sentenced to undergo an imprisonment of six months at hard labor in Fort Jefferson, Tortugas, without pay.

The boys are all well and in good spirits. With respects to those in the old wood sheds generally, I remain, H. D. W. (H. D. W. is the name of the writer.)

Annual Statement of the Bank of Northumberland, Pa., Dec. 31st, 1893. The following is a statement showing the condition of the bank on the above date: No. of Depositors, 12,000; Capital, \$1,000,000; Surplus, \$200,000; Loans, \$500,000; Real Estate, \$100,000; Total Assets, \$1,800,000.
