Gentlemen S:—I know from practical experience that iron well galvanued with ence will not condise or tust one particle. I can widely say, after everal years' experience in the manufacture of chain for chain-pumps and water-drawers, to which I have tested the allinity of iron and rine that it the process be conducted properly. It is a perfect weld of the two.

Nearly one year ago my family commenced using one of your Wringers. It now perfects all of its functions as well as it did the first time if was used, and has become an indispensible arisele with as. I have closely observed several other iteals of chains wringers, the medius operands being different trying to produce the same results as the Pannam Wringer, but in my judgment they have failed. The Pannam Wringer is as near perfect as persons and I can cheerfully recommend it to be the best in use.

Second. To obtain the contribution of one day's revenue of from all the great employing establishments, firms, corporations, companies, railroads, and Third. To obtain the contribution of one day's in-Third. To obtain the contribution of one day's in-come from every retired person, and person of fer-tune—male and female—living upon their means, and from all clergymen, lawyers, physicians, dentists, editors, authors, and professors; and all other per-sons engaged in the learned or other professions. Much of this work must be performed by the per-ronal influence and efforts of ladies and gentlemen associated, or to be associated, with the committee carrying out the plan.

associated, or to be associated, with the committee earrying out the plan.

The Committee feel the responsibility of the work they have undertaken, which, to be successful, will require a very perfect ranification of their plan, and they therefore call upon the earnest people to assemble themselves together in every town, township, and county, and form organizations of ladies and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing counties, the coal and oil regions, and in the agricultural districts — especially let there be organizations in the larger towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends fighting the battles of their country in the armies of the nation.

thies of the nation.

The work of this committee may be prosecuted where no other effort can be made for the fair, as in the mines of the coal regions. A day's earning of the miners, and a day's product of the mines, can be obtained, where no portable article could be procured for transportation. Indeed, there is no part or section of these States where the day's labor may not be obtained, if organizations can be formed to reach them.

The Committe cannot close wirhout urging upon all preprietors of establishments the duty of taking prompt and energetic action to secure the benefit of the day of labor from all within their control.

The Committee deem it unnecessary to do more than thus to present the subject to the people of the three States insued. In the coming campaigns of our armies the labors of the "Sanitary Commission" will be greatly augmented. By the first of June 700,000 men—one of the largest armies of modern times—will be operating in the field. So large a force, scattered over regions to which the men are unsatinated, must necessarily carry along with it an amount of sickness, suffering and death, to say nothing of the gathered horrors of the battle field.

These sufferings it is our bounded dary, as men and Christians, to relieve. A great and enlightened people, enjoying the biossings of a Government of their own making, cannot refuse assistance to men suffering to maintain its authority, and we will not believe that the Great Central Fair, franwing its products from the three States of Pennsylvania, New

I do this the more readily in regard to Hoofand's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Sheomaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these litters, at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend of regaining. I therefore thank God and my friend

AND THE PRIENDS OF SOLDIERS AND THE FRIENDS OF SOLDIERS

We call the attention of all laving relations or friends in the army to the fact that "HOOFLAND'S tierman Bitters" all cure nine tentile of the diseases induced by expessive and privations incident to camplife. In the lies, published almost daily in the new papers, on the arrival of the sick, it will be no tiered that a very large proportion are suffering from debitity. Every case of that kind can be readily cured by Hoofland's tierman littlers. We have no hesitation in acting dust, if horse Bitters were freely used among our notitives hundreds of lives might be saved that otherwise would be best.

The proprietors are daily receiving thankful letters from sufferers in the army and hospitals, who have been restored to health by the use of these Bitters, sent to them by their friends.
