Putnam Manufacturing Co: GENTLEMEN:—I know from practical experience that iron well galvanized with zinc will not oxidize or rust one particle. I can safely sny, after several years' experience in the manufacture of chain for chain-pumps and water-drawers, in which I have tested the affinity of iron and zinc that if the process be conducted properly, it is a perfect weld of the two.

Nearly one year ago my family commenced using one of your Wringers. It now performs all of its functions as well as it did the first time it was used, and has become an indispensable article with us. I have closely observed several other kinds of clotheswringers, the modus operandi being different, trying to produce the same results as the Putnam Wringer, but it my judgment they have failed. The Putnam Wringer is as near perfect as possible, and I can cheerfully recommend it to be the best in use.

FOR THE U. S SANITARY COMMISSION,

OFFICE OF THE COMMITTEE ON LABOR, Incomes and Revenues, No. 118 South 7th St., Philadelphia, March 15, 1864-No. 118 South 7th St., Philadelphia, March 15, 1864.

The Committee on Labor, Incomes, and Revenues of "The Great Central Fair," invite co-operation with them in the particular work for which they have been appointed. As no portion of the people are more patriotic than the working men and women of the country, it is but just and proper that they should alike have an opportunity to centribute to the objects of the Fair. The most equable plan for accomplishing this, and, at the same time, the cust-est one, is to ask for the contribution of a single day's labor from all classes in the community. To reach every department of industry or art, will be a work of great labor, but, if attained, will be productive of immense results.

immense results.

The success of the plan will depend upon the hearty co-operation of every element of influence within
our limits, and we invite all the guardians of the
industrial interests, and all others, to take hold with
us in furthering this great work of patriotism and umsnity.
The committee is charged with the following duty.

wit: First. To obtain the contribution of "one day" First. To obtain the contribution of "one day's labor," or earnings, from every artisan and laborer, foremen, operative, and employee; president, cashier, teller, and elerk of every incorporated and unincorporated company, railroad, and express company employing firm, bank, manufactory, from works, oil works, mill, mine, and public office; from every private banker and broker, importer, autioneer, and merchant; clerk, agent, and salesman; designer, finisher, and artist; publisher, printer, and mechanic; from every Government officer, contractor, and employee; grocer, butcher, baker, and dealer; farmer, horticulturist, and producer; from every mantua maker, milliner, and female operative; every individual ongaged in turning soil, tending the loom, or in any way earning a livelihood, or building a fortune within the States of Pennsylvania, New Jersey and Delaware.

Second. To obtain the contribution of one day's "revenue" from all the great employing establish-

"revenue" from all the great employing establish-ments, firms, corporations, companies, railroads, and works.

Third. To obtain the contribution of one day's in-

Third. To obtain the contribution of one day's income from every retired person, and person of fortune—male and female—living upon their means,
and from all clergymen, lawyers, physicians, dentists,
editors, authors, and professore; and all other persons engaged in the learned or other professions.

Much of this work must be performed by the personal influence and efforts of Indies and gentlemen
associated, or to be associated, with the committee

sonal influence and efforts of ladies and gentlemen associated, or to be associated, with the committee carrying out the plan.

The Committee feel the responsibility of the work they have undertaken, which, to be successful, will require a very perfect ramification of their plan, and they therefore call upon the carnest people to assemble themselves together in every town, township, and county, and form organizations of ladies and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing counties, the coal and oil regions, and in the agricultural districts—especially let there be organizations in the larger towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends fighting the battles of their country in the armies of the nation.

The work of this committee may be prosecuted where no other effort can be made for the fair, as in the mines of the coal regions. A day's earning of the miners, and a day's product of the mines, can be obtained, where no portable article could be procured for transportation. Indeed, there is no part or section of these States where the day's labor may not be obtained, if organizations can be formed to reach them.

The Committee carnet, close wirhout regions are section.

them.

The Committe cannot close wirhout urging upon all proprietors of establishments the duty of taking prompt and energetic action to secure the benefit of the day of labor from all within their control.

The Committee deem it unnecessary to do more than thus to present the subject to the people of the three States named. In the coming campaigns of our armies the labors of the "Sanitary Commission" will be greatly augmented. By the first of June 700,000 men—one of the largest armies of modern times—will be operating in the field. So large a force, scattered over regions to which the men are unaclimated, must necessarily earry along with it an amount of sickness, suffering and death, to say nothing of the gathered horrors of the battle field.

These sufferings it is our bounded duty, as men and Christians, to relieve. A great and enlightened people, enjoying the blessings of a Government of their own making, cannot refuse assistance to men suffering to maintain its authority, and we will not believe that the Great Central Fair, drawing its products from the three States of Pennsylvania, New Jersey, and Delaware, so affluent in all mineral, agricultural, and industrial wealth, shall fall behind any similar offort which has yet been made for the relief of the Nation's children.

of the Nation's children.

As it is desirable not to Multiply circulars, no further authority than this circular will be necessary

further authority than this circular will be necessary for any employing firm or company, or any respect-able committee of ladies and gentlemen to proceed at once in the work of this committee; and it is hoped that under it, organizations will spring up in all the towns and busy regions of the States of Pennsylvania, New Jersey and Delaware. Subscriptions will be thankfully acknowledged in the newspapers of Philadelphia, and it is very desirable that they commenced to the contraction for desirable that they commence at once as each fresh acknowledgment will stimulate further effort in other

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I sam indebted to my friend Robert Sheomaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost deepaired of regaining. I therefore thank God and my friend for directing to the use of them. for directing to the use of them.

LITERARY MEN, STUDENTS, and those working hard with their brains, should always keep a bottle of Hoofland's Bitters near them, as they will find much benefit from its use, to both mind and body, invigorating and not depressing.

AND THE FRIENDS OF SOLDIERS AND THE FRIENDS OF SOLDIERS

We call the attention of all having relations or friends in the army to the fact that "HOOFLAND'S therman Bitters" will care nine tenths of the diseases induced by exposures and privations incident to camp life. In the lists, published almost daily in the nowpapers, on the arrival of the slock, it will be no tired that a very large proportion are suffering from clothity. Every case of that kind can be readily cured by Hoofland's German Bitters. We have no heattation in stating that, if these Bitters were freely used among our noticers hundreds of lives might be saved that otherwise would be lost.

The proprietors are daily receiving thankful letters from sufferes in the army and hospitals, who have been restored to health by the use of those Bitters, sent to them by their friends.
