Salarshors will receive either Reviewed or Conpon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U.S. Treasurer. and can be transferred only on the owner's order .-Conjon Boads are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, selding Fifty per cent for premium,) or receive them drawing interest from the date of subscription and deposit. As these Bouds are

#### Exempt from Municipal or State Taxation,

there value is increased from one to three per cent. per somen, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEREST in currency, and are of equal convenience as a perneanest or temporary investment.

It is believed that no securities offer so great in queements to lenders as the various descriptions of U.S. Bonde. In all other forms of indebtedness, the faith or ability of private parties or stock companies only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal

and interest in coin. These Bonds may be subscribed for in sums from \$50 up to any magitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted inte money at any amount, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March. 1804, was \$768,965,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscat year, ending June 30th, 1864, has been as far at the rate of over \$100,000,000 per annum

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum. Instructions to the National Banks acting as loan agents were not issued from the United State Treaeary until March 26, but in the first three weeks of

April the subscriptions averaged more than TEN MILLIONS A WEEK. Subscriptions will be received by the First National Bank of Philadelphia. Pa. Second National Bank of Philadelphia, Pa-

### Third National Bank of Philadelphia, Pa. First National Bank of Danville, Pa. And by all National Banks

th are depositaries of Public money, and all BESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the National Depository Banks,) will furnish further informution on application and AFFORD EVERY PACILITY TO SUBSCRIBERS.

JOHN KRIDER.

2nd and Walnut streets, Philadelphia. February 27, 1861—6m AN INTERESTING HISTORY

DR. SCHENK'S OWN CASE. WHILE LABORING UNDER CONSUMPTION And how his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills act on the System in Curing that

Disease, and the

The above is a correct likeness of Dr. Schenk taken many years ago, after he had recovered from Consumption; by a course of his "Schenk's Pulmoni Syrup." The likeness, although it does not represent him anything like as bad as he was at the worst. yet it is in strong contrast with the hale and vigorous looks of the Portrait below, which is the true likeness of him at present time. The contrast between these two pertraits is so erent that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia, who will recognise both portraits to be true representations. When the first was taken he weighed 107

NEW YORK, Wednesday, March 30, 1864. TO THE PUBLIC.

Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and Dr. Joseph Parrish, then of this city, ordered me to Morestown, N. J., a distance of nine miles which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called and gave no one week. was called, and gave me one week to fix up my si-fairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the reme dies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system. whole system.

whole system.

They seen ripened the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As seen as that began to subside, my cough, fever, pain, night sweat—all began to leave me, and my appetite became so great that it was with difficulty I could keep from eating too much. I soon gained my strength and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good health, keeping the liver and stounch healthy with the Seaweed Tonic and Mandrake Fills, as I am of a bilitious tumpersment. My weight is two hundred and twenty nic and Mandrake Pills, as I am of a billions temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me far and near, to see if their cases were like mine. For this purpose I pay profusional visits in the large order. The consumptives wish to see the one that taskes these medicines and who was cured of consumption by them. To taske new lungs is impositive but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Such causes are dying hourly under the ordinary treatment of physicians, and just such are cared by the proper use of Schenk's Pulmonic Syrup, Scawcol Tonio, and Mandrake Pills.

and Manirake Pills.

I am now a healthy man, with a large cavity in the middie lobe of the right long the lower lobe very much hepotitized and complete adhesion of the plears. The left lange is sound, and the upper lobe of the right long is sound and the upper lobe of the right long is in a tolerably healthy condition. The great reason may physicians do not cure consumption is they try to do not man, they give medicines to step the earth, to step child, to step eight sweats, health fiver, and, by so doing, they derings the whole disposite powers locking up the secretions and reaching the patient with the large transition of the patient with the heaptonicate, and had longs enough left to cure. I direct the polaria board hey will all stop of their own a lost of they will all stop of their own a lost of the large threat and so careful consumption, iver some point, depopess exturit, canker ulterated throat, indeed the liter and stops he is to make healthy in New largeation of walls, is more presently. they to New England this camber chronic enterth, whe rested throne, shoughting of united is more prevalent than the any other section of the country. Thus is troughtened to the country. Thus is troughtened to the anneal three section of the country. Thus is troughtened to the anneal time and again, and all they will get is transparaty rotar. Correct the chonesch, and fitter, and they will have be transpared to the body it will remain there and disagrams are any discussed in any part of the body it will remain there and disagrams are made and a way more and in the fitter and ingitiar. This is the country way to be all events food and make new blood to take the process of discountry way to be all events the atomach and irrer and nature will do the bessing. Many process and an idea that events medicance are great particular to the blood. When there is no considered it is discounted to some as the discountry and discountry and allowed the some as the discountry and the blood. When there is not get the apparatus for the blood. It is discount to the come as the discountry and the little of the blood of the blood. When there is no concess that events and discountry and give it pieces of the blood. It is discountry and give it pieces of the blood is the little and discountry and the heat proportion of the state that the piece of the blood is a will enter the all the some and the heat proportion of the state of the state

LADIES' SPRING AND SUMMER FANCY DRESS GOODS, The state of the stemach, and it is carried off by the aid of the Mandrake Pills, the Palmonic Syrup is made into blood. This is the only way to core consumption. If I cannot gure the patient Never mind the cough it can blood. This is the only way to core consumption. If I cannot gure the patient Never mind the cough it can be stored to the Post Office, SUNDURY, PENN'A., Hard for the post of the cough is not down. This is the most trouble I have with my patients at my rooms. They ray, "Doctor, I feel stronger; I can cat; my night sweats are better, and I feel het for office, so that the cough is so bad yet;" and they can estemabed to hear me say that does not matter; remove the cause and the cough will support they are astemabed to hear me say that does not matter; remove the cause and the cough will support they are astemabed to hear me say that does not matter; remove the cause and the cough will support they are astemabled to hear me say that does not meat; my night sweats are better, and I feel het ter overy way; but my cough is so bad yet;" and they controlled the matter overy way; but my cough is so bad yet;" and the cost of tin roofs.

matter; remove the cause and the cough will support teelf. Schemk's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so competed that the Mandrako Pilis cannot unlock the ducts of the gail bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stounch healthy and there is lees danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are bilious, low-spirited, dreary, feeling stupid, coated tongue, poor appointe, nervous, stomach full of wind, everything that is eaten lies heavy, loss of memorry, try one bottle of SCHENCK'S SEAWEED TONIC, and one box of SCHENCK'S SEAWEED TONIC, and one box of SCHENCK'S MANDRAKE PILLS. It is only a cost of one dellar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed Tonic and Mandrake Pilis occasionally, must get the digestive organs in such a healthy condition that they become fleshy. I can produce a number of my old consumptives pulicular new enjoying good health, maintained and the condition that they become fleshy. I can produce a number of my old consumptives pulicular new enjoying good health, maintained and the condition that they become fleshy. I will conclude by relating three cures I have made in New York, and which are all different, and wish any one who feels an interest in the matter to visit them. First is Mrs. If Farlow, residing then at No. 107 Houston street. Her husband called upon me at my roous, 32 Bond street. Her husband called upon me at my roous, 32 Bond street had a laid side was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and the desired to gratify her wishes. I called, and found her lying continued to her bed in the last rage of brouchial consumption and without doubt must have died soon. I examined the fletted, but no cavities had formed, her cough was very severe, the spit-box was half full of thick pus. Pulse 140 leg swollen very much, and were than all, she had chronic clairaches. Her bowels had what I could for her, observing that she could be done. She insisted I should try and do what I could for her, observing that she could not had been of long standing, and her stomach was in such a ulcerated condition that I was afraid nothing could be done. She insisted I should try and do what I could for her, observing that she could not have on Tuesday, and by the next sunday the diarrhoes was carried off, her appetite had returned and she could sit up in bed and cat her dinner. She is not up to be the could not be shed, and gave a long certificate, certified to by the Rev. Dr Downing.

Mrs. Bartholomow, SS West Forty-fifth street, eame to my rooms with a tumor on her liver. She was low-sparited, skin zallow, tongue conted, bowed, one of persons visiting Philadelphia to his new Ground Floor Gallery, where he has introduced newly-patented conterns, and there are the cost of a new roof.

Everybody Can be an Artist.

COOPER'S

PHOTOGRAPH AND ART GALLERY,
No. 1338 Chesant Street, opposite the U. S. Mint. Gallery Reception and Operating Rooms ALL ON tenters and she could sit up in bed and each er dinner. She was contributed to the country of an interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107 Houston street. Her

eame to my rooms with a tamor on her liver. She was low-spirited, skiu sallow, tongue conted, bowels coative, no appetite, and fast sinking into the grave. The said tumor had been running over fourteen years. I gave her Syrup. Tonic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street in two weeks, somewhat better; her tongue had begun to clean a little around the edges, her skin whiter and her eyes brighter and the tumor discharging very offensive matter, much faster than it had ever done bakes. So bear around the capen is not had a contraction of the skin whiter and her eyes brighter and the tumor discharging very offensive matter, much faster than it had ever done offensive matter, much faster than it find ever done before. She kept gradually improving, and in about two months the came to my rooms very much fright-ened, saying that the tumer had nearly stopped running, and was heating up, and that every doctor had told her that if it ever heated it would cause her death. I told her that the disease had all loft her system, and nature would heat the ulcer up. They are now heated, and have been for about a your, and

she is a hearty and reduct a woman as you will find in a days walk. She is glad for any one to call on her, and lakes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me. The next case is Miss Se field, from Stamford, Conn., Mrs. Bartholomow got her down to see me, and she has been ever since at her house. When she first came to my rooms, she at her house. When she first came to my resons, she was much emaciated with a distressing cough, splitting inrige quantities of blood. I examined her langs with the reproducter, and in all my practice never found one with one lung so far gone and the other langs o sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pulmonie Syrup, Seaweed Tonic, and Mandrake Pills all seemed to go right to work, the lung is all healed over, leaving a cavity as large as a goese egg; good appetite, fine spirits, and has gained some thirty-five bounds in weight. She has gained some thirty-five bounds in weight. She has a going every gg; good appetite, the spirits, and has gained some thirty-five pounds in weight. She has some cough yet, which I do not think will leave her before June. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Scoffeld, or any of them who
