

U. S. 10-40 BONDS.

These Bonds are issued under the Act of Congress of March 3d, 1863, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period not less than ten nor more than forty years from the date of issue, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first day of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only by the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds drawn interest from March 1st, by paying the accrued interest in coin—or, in United States notes, or the notes of National Banks, adding five per cent (for premium) or receive them drawing interest from the date of subscription and deposit. As these Bonds are.

EXEMPT FROM MUNICIPAL OR STATE TAXATION.

the value is increased from one to three per cent, per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEREST

in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness the faith or ability of private parties or stock companies only is pledged for payment, while for the debts of the United States the whole property of the country is liable to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any amount, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 31 day of March, 1864, was \$768,955,000. The interest on this debt for the coming fiscal year will be \$15,637,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of \$169,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will double raise the annual receipts from customs on the same amount of imports, to \$150,000,000 per annum.

Instructions to the National Banks setting out how agents were not found from the United States Treasury until March 23, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the First National Bank of Philadelphia, Pa.

Second National Bank of Philadelphia, Pa.

Third National Bank of Danville, Pa.

And by all National Banks which are depositaries of Public money, and all

RESPECTABLE BANKS AND BANKERS throughout the country, acting as agents of the National Depository Banks will furnish further information application and afford every facility to subscribers.
