THE REBELS PROPOSE TO ARM THE NEGROES.—The best vindication of the poli- FOUNDRY AND MACHINE cy of the Administration in arming the negroes, is the fact, the rebels propose to do the same. The Richmond Enquirer thinks slavery should not be permitted to stand in the way of their independence, and says:

"We should be glad to see the Confederate Congress provide for the purchase of two hundred and fifty thousand negroes, pri sent them with their freedom and the pri vilege of remaining in the States, and equip drill and fight them." Slavery, the Enquire concluded, must "not be permitted to stand in the way of the success of our cause.' Other States may decide for themselves, but Virginia, after exhausting her whites, will fight her blacks through to the last man."

are one or two reflections which they suggest, not altogether of a consolatory kind looking from the Enquirer's stand point. It two-thirds of the Confederate armies all white men-have already run away from Davis and his man Cooper, and are now hiding in the mountain regions of Georgia and elsewhere, what proportion of the black levies can be expected to stand to their colors? Has the chivalry thus degenerated, that two-thirds of them absolubely reduse to digita for their own independence? Davis assured Col. Jacqued a few weeks ago, that two millions of his black staves had been emancipated by the advance of the United states armies. At that rate of emancipation is it not likely that the negroes may prefer to win their freedom at a chesper rate than THE undersigned. Auditor, suppointed by the the Enculrer proposes?"
