The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from August 15th 1864 with semi-annual interest at the rate of seven and three-tenths per cent, per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of

the helder at maturity, into six-per cent. gold bear ing bonds, payable not less than five nor more thatwenty years from their date, as the government may cleat. They will be issued in denominations of \$40. \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollats.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposis subsequent to that date must pay the interest accracal from date of note to date of

Eruptions, Pimples, Blotches, Pustules, Ulcers, Soree, and all Diseases of the Skin.

From Rev. Robt. Stratten, Bristol, England.

I only do my daty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SAISAPARILLA. My daughter, aged ten, had an afflicting humor in her cars, eyes, and hair for years, which we were unable to care until we tried your SAISAPARILLA. She has been well for some mouths."

From Mrs. Jone E. Rive, a well-known and much-

From Mrs. Jane E. Rice, a well-known and much-catesmed lady of Demissible, Cape May Co., N. J.

My daughter has suffered for a year past with a scrofulous cruption, which was very troublesome. Nothing afforded any relief until we tried your Sansaparlilla, which some completely enred her."

From Charles P. Gage, Esq., of the widely known Gage, Murray of Co., wangingtures of camelled papers in Nashan, N. H.

"I had for acveral years a very troublesome humor in my face, which grew constantly worse until it disflaced my rectures and became an intolerable affiliation. I tried almost every thing a manusculd of both advise and medicine, but without any relief whatever, and! I look your Sansaparlila. It immediately made my face werse, as you told me it might for a time; but in a few weeks the new skin began to force under the blotches, and continued until my face is as sanoth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your Safasaparlilla."

From Dr. Rolt. Savia, Housian St., New York.

9 Dr. Ayen. I selion fail to remove Eruptions and Scrafulous Sares by the persevering use of your SARAYARILIA, and I have just now enred an attack of Madignant Erysipolas with it. No alterative we passess equals the SARAYARILIA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Walcomm. Ohio.

6 For twelve years, I lad the yellow Erysipolas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The alerrs were so bad that the cords became visible, and the doctors decided that my arm must be amputant i. I began taking your SARSAYARILIA. Took two bottles, and some of your PILIS. Together they have cared me. I am now as well and some as no your Balls. Being in a public place, my case is known to overy body in thin community, and excites the wonder of all.

From Hon, Henry Manro, M. P. P., of Newcostle,

m Hon. Heavy Mouro, M. P. P., of Newcastle, W., a leading member of the Cauadian Parliament. "I have used your SARSAPARILLA in my family, for general debility, and for parifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted,"

with very academia results, and her confidence in commending it to the affilted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Burrey Sickier, Esq., the able editor of the Tankhannes Democrat, Pesnsylvania.

"Our only child, about three years of age, was attacked by pimples on his forchead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skiful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the fostering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your Salisapanilla, and applying the iodide of potash lotton, as you direct. The sore began to heal when we had finished the second. The child's cyclastics, which had come out, grew again, and he is now as healthy and far as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

Disease, and the

The above is a correct likeness of Dr. Schenk taken many years ago, after he had recovered from Con. sumption ; by a course of his "Schenk's Pulmonic Syrup." The likeness, although it does not represent him anything like as bad as he was at the worst. yet it is in strong contrast with the hale and vigorous looks of the Portrait below which is the true likeness of him at present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia. who will recognise both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds

NEW YORK, Wednesday, March 30, 1864.

TO THE PUBLIC. Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and Dr. Joseph Parrish, then of this city, ordered are to Morestown, N. J. a distance of nine miles which took me two days to get there. On my arrival I was put to bed, and there faid for many weeks. This was my native place, where all my family fived and had died of Consumption. Dr. Thornton, who attended my fother in his last fillness. Thorston, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go too. Then I heard of the reme dies I new offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

dies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripened the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great that it was with difficulty I could keep from eating too much. I seen gained my strength and I have been growing in flock over since. For many years I have enjoyed uninterrupted good health, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a billious temperation. My weight is two hundred and twenty pounds. On my recovery people would send for me far and near, to see if their cases were like mine. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is imposible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Such cases are dying hourly under the ordinay treatment of physicians, and just such are cured by the proper use of Schenk's Pulmonic Syrap, Seaweed Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity in

use of Schenk's Pulmonic Syrap, Seaweed Tonic, and Mandrake Pills.

I am now a healthy man, with a large eavity in the middle tobe of the right lung, the lower lobe very much hepatized and complete adheelon of the pleura. The left lungs is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicions do not cure consumption is they try to do too much, they give medicines to stop the crugh, to stop chill, to stop anght sweats, heatic fever, and, by so doing, they derange the whole digestive powers, locking up the secretions and eventually the patient sinks and dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure, I direct the patient how to use the three remedies.—Remove the cause and they will all stop of their own accord. No one can be cured of consumption, liver complaint, dyspepsia, catarrh, canker, ulcerated throat, unless the liver and stomach are made heatthy. In Now England this canker chronic catarrh, ulcerated throat, clongation of uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out with gaustic time and again, and all they will get is temporary relief. Correct the stomach and liver, and they will heal up themselves.

Good nutrition is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to digest food and make new blood to take the place of diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronchial tubes. Cerrect the stomach and liver and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified, it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and sionach, and give it plenty of nourishing food it will make new blood, which wil

the stomach, and is it carried post off by the a the Mandrake Pills, the Pulmonic Syrup is made into blood. This is the only way to care consumption. If I cannot get a good appetite, and sooi does not digest, I cannot cure the patient. Never mind the cough; remove the cause and will stop of itself.—This is the most trouble I have with my patients at my rooms. They say, "Doctor, I feel stronger; I can eat; my night sweats are better, and I feel better every way; but my cough is so bad yet;" and they are astonished to hear me say that does not matter; remove the cause and the cough will stop of itself. Schenk a Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the duets of the gail bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are bilious, low-spirited, dreary, feeling stupid, coated tongue, poor appetite, nervous, stomach full of wind, everything that is eaten lies beavy, loss of memory, try one bottle of SCHENCK'S SEAWEED TONIU, and one box of SCHENCK'S SEAWEED TONIU, and one box of SCHENCK'S SEAWEED TONIU, and ene box of SCHENCK'S SEAWEED TONIU, and the bottle of some dellar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed Tonic and Mandrake Pills occasionally, must get the digestive organs in such a healthy condition that they become fleshy. I can produce a number of my old consumptives patients now enjoying good health weighing nearly 200 pounds. I will conclude by relating three cures I have made in New York, and which are all different, and wish any one who feels an interest in the matter to visit them. First is Mrs. Farlow, r husband called upon me at my rooms, 32 Bond street and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was too fer gone with Censumption to be cured; but she had heard of some Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes. I called, and found her lying confined to her hed in the last stage of bronchial consumption and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no envities had formed, her cough was very severe, the spit-box was half full of thick pus. Pulse 140, leg swellen very much; and worse than all, she had chronic diarrhos. Her bowels had here moved eleven times that day, told her that she

been moved eleven times that day, told her that she had lungs arough to be cured, but that this diarrhoea had been of long sanding, and her stomen was in such a ulcerated condition that I was afraid nothing

had been of long sanding, and her stomach was in such a ulcerated condition that I was afraid nothing could be done. She insisted I should try and do what I could for her, observing that she could not last long in the condition she was in, and I could not make her say worse. I gave her first a dose of my Mandeake Fills, and the tonic and Syrup freely.—That was on Tuesday, and by the next sunday the diarrhosa was carried off, her appetite had returned and she could sit up in bed and eat her dimner. She is now well, and gave a long certificate, certified to by the Rev. Br Downing.

Mrs. Bartholomew, 83 West Forty-fifth street, exme to my rooms with a tumor on her liver. She was low-spirited, skin sallow, tongue coated, bowels costive, no appetite, and fast sinking into the grave. The said tumor had been running over fourteen years. I gave her Syrup. Tenic and Fills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street in two weeks, somewhat better; her tongue had begung to clean a little around the edges, her skin whiter and her eyes brighter and the tumor discharging very offensive matter, much faster than it had everdoue before. She kept gradually improving, and in about before. She kept gradually improving, and in about two months she came to my rooms very much fright-ened, saying that the tumor had nearly stopped chea, saying that the tumor had hearly stepped running, and was healing up, and that every doctor had told her that if it ever healed it would cause her death. I cold her that the discuss had all left her system, and nature would heat it culter up. They are now healed, and have been for about a year, and are now healed, and have been for about a year, and she is a hearty and robust a woman as you will find in a days walk. She is glad for any one to call on her, and takes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me. The next case is Miss Scotleid, from Stamford, Cenn. Mrs. Barthelomew got her down to see me, and she hear ever since at her house. When she first came to my rooms, she wan much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my practice never found one with one lung so far gone and the other lungs so sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pulmonic Syrup, Seaweed Tanic, and Mandrake Fills all seemed to go right to work, the lung is all healed over, leaving a cavity as large as before June. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Scofield, or any of them who have been cured by my medicines. They are num-erous in New York; but the above three all differ from each other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they may be cured.
