17 Mend Who Says So:

From the Rev. Levi G. Beck, Pastor of the Raptist Church, Pemberton, N. J., formerly of the North Baptist Church, Philadelphia.

I have known Heofland's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects that I was induced to recommend them to mark others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the stantian of these sillipticity is the stantian of these sillipticity is the stantian of the second of the silliptic silliptic stantian of these sillipticity is the stantian of the second of the silliptic si attention of those afflicted with the disease for which they recommended, to these Bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hoofland's Bitters ts intended to benefit the afflicted, and is "not a rum drink." Yours truly, LEVI G. BECK.

Encyclopedia of Religious Knowledge, and Christian Chronicie, Philadelphia.

Chroniefe, Phitadelphia.

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and edects. I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by 1r. C. M. Jackson, of this city, because I was prejudiced against them for namy years, under the impression that they were which an altechold is mixture. I am indebted to my friend Robert Sheomaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to ay thera, when suffering from great and long continued debility. The use of three bottles of these Bitters, at the beginning of the present year, was followed by evident reflet and restoration to a degree of bodily and mental vigor which I had not mation or degree of bodily and mental vigor which I had not left for six months owner, and that almost despaired of regalning. I therefore thank God and my friend for directing to the use of them.

J. NEWTON BROWN.

From the Roy. Jos. H. Kennard. Paster of the 10th Baptist Church.

Dr. Jackson: Dear Sir: I have been frequently requested to connect my name with commendations of different kinds of medicines but regarding the practice as out of my appropriate sphere. I have in all cases declined; but with a clear proof in various instances, and particularly in my muilty, of the use-fulness. Dr. Hoofsnd's German Binters. I depart for or a from my usual course, to express my full inviction that, for general debility of the restem and especially as Liver Complaint, it is a safe and the proporation. In some cases it may fail; usually, i doubt not, it will be very beneficial to

oss who halfer from the above cause.

Lours, very respectfully. J. H. KENNARD,

Eighth below Coutes Street, Philadelphia.

Frem Rev Warren Randolph, Pester of Baptist Church, Germantown, Penn.

Dr. C. M. Jackson - Dear Sir - Personal expe-tions canadies me to say that I regard the German inters, prepared by you as a most excellent medi-cine. In cases of severe cold and general debility I have been greatly benefitted by the use of the Bitters. I wars, truly. WARREN RANDOLPH.

From Boy. J. H. Turner, Paster of Hedding M. E. Church, Philadelphia.

Dr. Jackson; — Dear Sir: — Having used your German Bitters in my family frequently I am prepared to say that it has been of great service. I believe that it most caree of general debility of the system of the success of general debility of the system of the success and most valuable remedy of which I have any knowledge. have any knowledge.

Louis, respectfully.

BEWARE OF CULTURE PRITE.

## U. S. 7-30 LOAN.

The frecetary of the Treasury gives notice that rabactiptions will be received for Coupon Treasury Notes, payable three years from August 15th 1864 with semi-annual interest at the rate of seven and three tenths per cent, per annum,—principal and intercet both to be paid in lawful money

These notes will be convertible at the option of the helder at maturity, into six-per cent. gold bear ing bonds, payable not less than five nor more thatwenty years from their date, as the government may clost. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions most be for fifty dollars or some multiple of fifty

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be

prepared. As the notes draw interest from August 15, persons making deposts subsequent to that date must pay the interest accounted from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and unwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the rescipt of a bill for the amount, certified to by the officer with whom the deposit was made. N deductions for commissions must be made from the

Special Advantages of this Loan. IT IS A NATIONAL SAVINOS BANK, offering a higher rate of interest than any other, and the best seen. rity. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best eleculating medium of the country, and it cannot pay in anything better, for its own sweets are either in government securities or in notes or bonds payable in government paper.

It is equally convenient as a temporary or perma nent investment. The notes can always be sold for within a fraction of their face and accumulated inte rest, and are the best security with banks as collaterals for discounts.

CONVERTIBLE INTO A SIX PER CENT 4-20 GOLD BOND.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the curt rent rate for 5-20 Bonds is not less than nine per cent. premium, and before the war the premium on eix per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

ITS EXEMPTION FROM STATE OR MUNICI-PAL TAXATION.

But saide from all the advantages we have enumerated, a special Ast of Congress exempts all houds and Treasury notes from local taxation. On the average, this exemption is worth about two per cent. per anyum, according to the rate of taxation in vari ous parts of the country.

It is believed that no securities offer so great Inducements to lenders as those issued by the government. In all other forms of indebtedness, the faith and ability of private partles, or stock companies, or separate communities, only, is pledged for payment. while the whole property of the country is held o secure the discharge of all the obligations of the United States.

While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people. Duplicate certificates will be issued for all deposits, The party depositing must endorse upon the origin-From Rev. J. Newton Brown, D. D., Editor of the al certificate the denominations of notes required. and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department.

> Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and

First National Bank of Milton, And by all National Banks which are depositaries of Public money, and all

infection which we call Schoruta lurks in the constitutions of multitudes of men. It either produces or is produced by an enfectled, vitated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and the system to fall into disorde

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy impure air, filth and filthy habits the depressing vices, and, above all, by the venereal infection. Whatever he its origin, it is hereditary in the constitution, descending "from parents to children unte the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrotulous disease. Ayor's Sarsaparilla

is compounded from the most effectual anti-

lotes that medical science has discovered for

this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it made of the following diseases: King'a Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in ATER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten. the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Aven's SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffer-

functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of Sarsoparille, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more eftectual than any other which has ever been

available to them.

ing and danger of these disorders. Purge out the foul corruptions that rot and feeter

in the blood, purge out the causes of disease,

and vigorous health will follow. By its pecu-

liar virtues this remedy stimulates the vital

August 13, 1864.—19 THA BUT DE N 956 SOLIDIFIED DENTAL CREAM, Cleansing, Whitening

This article is prepared with the greatest care upon scientific principles, and warranted not to contain anything in the slightest degree deleterious to the teeth or gums. Some of our most confined Dental Surgeons have given their samption to and cheerfully recommend it as a preparation of superior qualities for cleaning, whitening and preserving the TEETH. It cleans them readily, rendering them beautifully white and pearly, without the lightest injury to the enamel. It is healing to the gums where they are alterated and sore. It is also an excellent disinfector for old decayed teeth, which are often exceedingly oftensive. It gives a rich cremay taste to the mouth, cleaning it thoroughly, and imparting a delightful fragrance to the breath.

PREPARED ONLY BY

A. HAW LEY & CO., Preserving the TEETH!

A. HAWLEY & CO.,
W. Cor. 10th., & Lombard Sts., Philadelphia
And sold by all Druggists. PRICE 25 CENTS.

TESTIMONIALS. TESTIMONIALS.

The following opinion of Dr. White, as to the high exteen in which he holds the Deutal Cream, must be sufficient evidence of its value; to quote other testimonials in detail is needless, contenting ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth.

Difficultiplia. April 13th, 1853.

Having carefully examined A. Hawley a "Solidified Deutal Cream." I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleaning and preserving the teeth

preparation for cleaning and preserving the teeth, and can be used by all persons with the utmost confidence, as its properties are perfectly harmless. Beliefs preserving the teeth, it promotes a healthy on to the gums, and imparts a pleasantness to the

breath.

AN INTERESTING HISTORY DR. SCHENK'S OWN CASE. WHILE LABORING UNDER CONSUMPTION And how his Pulmonic Syrup, Seaweed Tonic, and

Mandrake Pills act on the System in Curing that

The above is a correct likeness of Dr. Schenk taken nany years ago, after he had recovered from Con. umption; by a course of his "Schenk's Pulmonic " The likeness, although it does not represent him anything like as bad as he was at the worst yet it is in strong contrast with the hale and vigorous looks of the Portrait below, which is the true likeness of him at present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia, who will recognise both portrnits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds

New York, Wednesday, March 20, 1864.

TO THE PUBLIC. Thirty years ago I was in the last stages of Pul-nomary Consumption, and given up to die. I sesided in Philadelphia, and Dr. Joseph Parrish, then of this city, ordered me to Morestown. N. J., a distance of nine miles which took me two days to get there. On my arrival I was put to bed, and there haid for many weeks. This was my untive place, where all my family lived and haid died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my af-Thorston, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go too. Then I heard of the reme dies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripened the matter on my langs, and I had a so that it of the matter on my langs, and I

They soon ripened the matter on my tange, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great that it was with difficulty I could keep from eating too much. I soon geined my strength and I have been growing in flesh ever since. For many years I have enjoyed unintervapted good health, keeping the liver and stomach healthy with the Seawest Tone and Mandrake Pills, as I am of a hillion terrange. the liver and stomach healthy with the Scawcesi To-nic and Mandrake Pills, as I am of a billions temper-ament. My weight is two hundred and twenty pounds. On my recovery people would send for me far and near, to see if their cases were like mine. For this purpose I pay professional violisis the large cities. The consumptives wish to see the one that makes those medianes and who was cared of con-sumption by them. To make new langs is impos-tible; but cavities in the lange and chronic ulcera-tions of the branchial tabes can be healed. Such cases are dying hourly under the ordinay treatment of physicians, and just sucham carred by the proper of physicians, and just such are sured by the proper use of Schenk's Palmonic Syrup, Seasond Tonic, and Mandrake Pills.

I am nos a healthy man, with a large cavity in

and Mandrake Pills.

I am new a healthy man, with a large envity in the middle loke of the right lung the lower lobe very much hepatized and complete adhesion of the pieura. The left lungs is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too mach; they give medicines to stop the cough, to stop chill, to stop night sweats, heetic fever, and, by se doing, they derange the whole digestive powers locking up the secretions and eventually the patient sinks and dies. After I make a careful examination of the patient with the Respirameter, and find large enough left to cure, I direct the patient how to use the three remedies—Remove the came and they will all stop of their own accord. No one can be curred of consumption liver complaint, despetois, entarth canker, alcerated threat, unless the liver said stomach are neade heading. In New England the canker chrome catarrh, unless the five said stomach are neade heading in New England the canker chrome catarrh, unless the five said stomach are neade heading in the angle of the consumption of the control of the patient of the cancer that it is not pressed in them in any other accounts of the consumption in our with cancer those said space, and still be will get as temporary resist. Correct the consuch

burn it out with carest the and a gate, and all ther will get is temporary relief. Correct the remarks and liver, and they will not up three-dyes.

Good nutrition is the remody. If you have any disease in any part of the body, it wall remain there and decay more and more unity out one get the standard in the condition to direct food and make new blood to take the place of diseased matter. This is the only way to head cavities in the lungs and electronic theorems will do the matter in the lungs and electronic theorems will do the matter in the sunger and some and action which is the matter of the blood. When blood is careful and a form of the disease that careful medican are great surfect of the blood. When blood is some on the disease that careful medican are great surfect of the blood. When blood is not get the surpose of the blood of the disease place of the surfect of the street and storaged, when give it please of the street of the stre

matter in the system; but get the appearant to the character in the system; but get the appearant to the system; but get the appearant to the item and storage, but give it plouts of a trivial section of the Section o 9.475

thes tomach, and is it carried post off by five a the Mandrake Pills, the Pulmonic Syrap is unade into blood. This is the only way to cure consumption. If I cannot get a good appetite, and food does not digest. I cannot cure the patient Never mind the coagh; feinore the canse and will stop of itself.—This is the most trouble I have with my patients at my rooms. They say, "Doctor, I feel stronger, I can eat; my night sweats are better, and I feel better corey way; but my cough is so bad yet;" and they are astonished to hear me say that does not matter; remove the cause and the cough will sop of tuelf. Schenk's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bite to puss off. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are leading. Those that are billious, low-spirited, dreary, feeling stapid, coated tongue, peer appetitonerrous, atomach full of wind, gverything that is caten lise heavy, loss of memory, try one bottle of SCHENCK'S SEAWEED TONIC, and one box of SCHENCK'S MANDRAKE PILLS. It is only a cost of one dollar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that onjoys ordinary health, by using the Seaweed Tonic and Mandrake Pills occasionally, must get the digestive organs in such a healthy condition that they become fiesby. I can produce a number of my old consumptives patients now enjoying good health weighing nearly 200 pounds. I will conclude by relating three cures I have made in New York, and which are all different, and wish any one who feels an Interest in the matter to visit them. First is Mrs. Parlow, residing then at No. 107 Honston street Her husband walled upon me at my rooms. husband walled upon me at my rooms, 32 Bond street and wished me to call and see her. He said I could and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes. I called, and found her lying confined to her bed in the last stage of bronchial consumption and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed, her cough was very severe, the spit-box was half full of thick pus. Fulse 140, log swellen very much; and waves than all, she had chronic diarrhose. Her bowels had been moved eleven timer that day, told her that she had lungs amongh to be cured, but that this diarrhose had lungs amongh to be cured, but that this diarrhose had been of long standing, and her stomach was in such a ulcerated condition that I was airaid nothing could be done. She insisted I should try and do such a ulcerated condition that I was airaid nothing could be done. She insisted I should try and do what I could for her, observing that she could not last long in the condition she was in, and I could not make her any worse. I gave her first a dose of my Mandrake Pills, and the tonic and Syrup freely.—That was on Tuesday, and by the next sunday the diarrhoes was carried off, her appetite had returned and she could sit up in bed and out her dinner. She

was low-spirited, skiu sallow, tongue coated, bowels
costive, no appetite, and fast sinking into the grave.

The said tumor had been running over fourteen
years. I gave her Syrup. Tonic and Pills, and told
her to sake them just as the directions were printed.

She earne what better; her tongue had begun to
wesks somewhat better; her tongue had begun to
seem a little around the edges, her skin whiter and
her eves brighter and the tumor discharging very her eyes brighter and the tumor discharging very offensive matter, much faster than it had everdoue before. She kept gradually improving, and in about two months she came to my rooms very much fright-cued, saying that the tumor had nearly stopped ranning, and was healing up, and that every doctor had told her that if it ever healed it would cause her death. I told her that the discase had all left her tasten, and matter would heal the alter up. system, and nature would heal the ulear up. They are now leaded, and have been for about a yest and as he is a hearty and robust a woman is you will 6...; in a days walk. She is glad for any one to call on her, and takes great pairs to visit any one that she bears has anything like her case, and tries to get them to come and see me. The next case is Mis Scofield, from Stamford, Cons., Mrs. Bartholom. got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing sough, spit-ting range quantities of blood. I examined her lungs ting large quantities of blood. I examined her lang-with the respirameter, and in all my practice acver-found one with one lang so far gone and the other lang so sound. I could not give much excourage-neem. I thought she would die; but to my accou-ishment the Pulmonic Syrup, Seawed Tonic, and Mandrake Pills all seemed to go right to work, the lung is all healed over, leaving a cavity as large ar-a goose egg; good appetite, fine spirits, and has gained some therty-five pounds in weight. She has some cough yet, which I do not traits will leave her before June. I should think it would be of great interest to some unprojudiced physician to visit these onses, particularly Miss Scofield, or any of them who have been curred by my medicines. They are unahave been cured by my medicines. They are utus-erous in New York; but the above three all differ from each other; and if my medicines are doing what I represent they are, they about have the aredit and the afficied know where and how they may be cared.

JOHN KRIDER. 201 And Walnut streets. Philadelphia. LILLIES CHILLED IRON SAFE. The Only Safe Reliable against both Fire

and Burglary. I am now prepared to furnish three sizes of National Bank Safes. They are both Fire and Burglar-proof, with two distinct inside Burglar Safes, and three of my new Anti-Micrometer Locks on each safe, believed to be the only bank-lock now in use that has not been picked or cannot be picked by the aid of the micrometer. Those Safes all present four to six inches in thickness of solid iron, guaranteed to be the strongest, the most difficult to drill and to stand the most resistance against both fire and burglary of any Safe in the United States of the same size and cast.

I have on hand also, and will farhish all sizes of Bank Vault Safes, possessing all the advantages of the above against hurghary.

Also, all sizes of Mercantile Safes both burglar-proof and fire and burglar-proof.

Also, Ornamental Dwelling-house Safes, burglart proof, and fire and burglar-proof (warranted no damp).

Also, the strongest and changest Vault doors, for G. M. LAUNAN. All the above are Lillie's wronget and chilled

iron.

Also, six sizes Little's Wrought Iron Fire Proofs, warranted equal to any common Seter, at fully one-third less price.

Also, a general assortment of second-hand Safes. many of them pearly new, and of approved makers received in exchange for Little's Chilled from Safes Three are offered at or below muching releas.
