THE peculiar taint or infection which we call SchoreLa lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes inthat fluid becomes incompetent to sustain
the reserve the vital forces in their
cligorous action, and
leaves the system to
fall into disorder and of the blood, wherein

decay. The scrofulous contamination is va-riously cancel by mercurial disease, low living, disordered digestion from unhealthy food, impure sir, fifth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever he its origin, it is herediary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the injunities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and beome ulecrous sores; in the stomach and Lowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease. Ayor's Earsaparilla is compounded from the most effectual anti-

dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That t does combine virtues truly extraordinary in their effect upon this class of countaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, sipelas, Rose or St. Anthony's Fire, Salt Rheum, Seald Head, Coughs from tuberculous deposits in the lungs, While Swellings, Debility, Dropsy, Wouralgia, Dyspepsia or Indigestica, Syphilis and Syphilitic Informations, Mercurial Diseases, Female Weaknesser, and, indeed, the whole series of complaints that arise from impurity of the blood. Minut, reports of individual cases may be found in Aven's American Almana, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have necess to some one who can speak to him of its benefits from personal experience. Serofala depresses the vital energies, and thus leaves its victims far more subject to discuse and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Ayen's SARRAPAL LLA, although it is composed of ingredients, some of which exceed the best of Saraoparilla in piterative power. By its aid you may protect yo, rech from the suffering and danger of these disorders. Purge out the foul corruptions that put and fester in the blood, purge out the causes . ' disease, and vigorous health will follow. By its recuhar virtues this remedy stimulates the vn. 1 functions, and thus expels the distempers

which lack within the system or burst out on any part of it. We know the public have been deceived ty many compounds of Sarropavilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its suspassing excellence for the cure of the utiliciting diseases it is intended to reach. Although under the samb name, it is a very different medicine from my other which has any other which has ever been available to them.

AYER'S CHERRY PECTORAL. The World's Great Remedy for Coughs, Colds, Incipient Con-sumption, and for the relief of Consumptive patients

in advanced stages of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the lest it ever has been, and that it niay be relied on to do all it has ever done, Prepared by Dn. AN INTERESTING HISTORY

Sunbury, January 23, 1892 .-

62 DR. SCHENK'S OWN CASE. WHILE LABORING UNDER CONSUMPTION And how his Pulmonie Syrup, Seaweed Tonic, and Mandrake Pills act on the System in Curing that Disease, and the

The above is a correct likeness of Dr. Schenk taken many years ago, after he had recovered from Consumption; by a course of his "Scheak's Pulmonic Syrup." The likeness, although it does not repreint him anything like as had as he was at the worst. et it is in strong contrast with the hale and vigorous ooks of the Portrait below, which is the true likeness of him at present time. The contrast between these two periralis is so great that many would not believe them to be the same person. Yet there are annieds of persons, in and around Philadelphia. who will recognise both portraits to be true represenintions. When the first was taken he weighed 197 pounds; at the Present time his weight is 220 pounds

NEW Your Wednesday, March 30, 1864. TO THE PUBLIC.

Thirty years ago I was in the last stages of Pul-monary Consumption, and given up to die. I resided in Philisdelphia, and Dr. Joseph Parrish, then of thu-city, ordered me to Morestewn, N. J., a distance of the nitles which took me two days to get there. On my arrival I was put to bed, and there faid for many weeks. This was lay native place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my af-

Brusserving the TESTIE!

This article is prepared with the greatest care upon it is the safest and most valuable remedy of which I have any knowledge.

These of years, at times been from discovering the ordinary treatment of physicians and caffe described by the proper section of the bound of the bound of the ordinary treatment of physicians and based are cared dying hearly more the ordinary treatment of physicians and based are cared dying hearly more the ordinary treatment of physicians and based are cared dying hearly more the ordinary treatment of physicians and such are cared dying hearly more the ordinary treatment of physicians and such are cared dying hearly more the ordinary treatment of physicians and the ordinary treatment of the poper of physicians and physicians and physicians and the ordinary treatment of physicians and physicians and based are cared by the proper of physicians and miss to the binds the bound of physicians and miss to the ordinary treatment of physicians and miss to the ordinary treatment of the proper of physicians and miss to the ordinary treatment of the proper of physicians and physicians and physicians and based are cared dying hearty more treatment of the proper of physicians and miss to the indication of physicians and the ordinary treatment of the proper of physicians and miss to the following opinion of Dr. White, as to the highest dying the ordinary treatment of the proper of physicians and said are carefully expensive the ordinary treatment of the proper of physicians and passed to accept the oright treatment of physicians and passed to accept the proper of p to stop the cough, to stop chift, to stop night swents, heethe fever, and, by so doing, they derange the whole digestive powers, looking up the secretions and eventually the patient ands and dies. After I make a careful examination of the patient with the litesprometer, and had lange enough left to cure. I direct the patient thow to use the three remedies.—Remove the cause and they will all stop of their own accord. No case can be cured of consumption, liver complaint, dyspepsis, catarrh, canker, absented threat, unless the liver and sionach are made healthy. In New England the canker chronic catarrh, ulcerated threat, chongation of uvula is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out with eaustic time and again, and all they will get is temperary relief. Correct the stomach and liver, and they will head up themselves.

Good natition is the remedy. If you have any discuss in any part of the body, it will remain there and decay mere and more until you can get the stomach in the condition to digest food and make new blood to take the place of diseased matter. This is the only way to heal cavities in the lungs and ulcerated brunchial tubes. Correct the stomach and liver and nature will do the healing. Many persons have and heater entil do the healing and ulcerated brunchial tubes. Correct the stomach and liver and nature will do the healing. Many persons have and heater of the blood to once diseased it eannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and give it planty of neurishing food it will make now blood, which will take the place of that which is diseased.

thes tomach, and is it carried post off by the a the Mandrake Pills, the Pulmonic Syrup is made into blood. This is the only way to cure consumption. If I cannot get a good appetite, and sood does not digest. I cannot cure the patient. Never mind the cough; remove the cause and will stop of itself.—

This is the most trouble I have with my patients at my rooms. They say, "Boctor, I feel stronger; I can ent; my night sweats are better, and I feel better, the every way; but my cough is so bad yet;" and they are astonished to hear me say that does not matter; remove the cause and the cough will sop of itself. Schenk's Senwed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the duets of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are billous, low-spirited, dreary, feeling stupid oated tongue, poor appetite, eather his heavy, lor: of memory, try one bottle of SCHENCK'S SEAWEED TONIC, and one box of SCHENCK'S MANDRAKE PILLS. It is only a cost of one dollar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed Tonic and Mandrake Pills occasionally, must get the digestive organs in such a healthy condition that they become fleshy. I can produce a number of my old consumptives patients new enjoying good health weighing nearly 200 pounds. I will conclude by old consumptives patients now enjoying good health weighing nearly 200 pounds. I will conclude by relating three cures I have made in New York, and which are all different, and wish any one who feels an interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband called upon me at my rooms, 32 Bond street and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was too far gons with Consumption to be cured; but she had heard of some great cures. I had made, and he desired to gratify her wishes. I cashed, and found her lying confined to her bed in the last stage of bronchial consumption and without doubt must have died soon. I examined her lungs, found both bronchiat tubes very much affected, but no cavities had formed, her cough was very severe, the spit-box was half full of thick pas. Pulse 130, leg swoiten very much; and worse than all, she had chronic diarrhoca. Her bowels had been moved eleven times that day, told her that she had lungs anough to be cured, but that this diarrhoca. an interest in the matter to visit them. First is Mrs been moved eleven times that day, told her that she had lungs abough to be cured, but that this diarrhoes had been of long standing, and her stomach was in such a ulcerated condition that I was afraid nothing could be done. She instated I should try and do what I could for her, observing that she could not last long in the condition she was in, and I could not make her any worse. I gave her first a dose of my Mandrake Pills, and the tonic and Syrup freely.—
That was on Tuesday, and by the "accounty the diarrhoes we". Mandrake Fills, and the toric and Syrup freely—i That was on Tuesday, and by the examining the diarrhoa was arrived on, her appetite had returned and she could sit up in bed and eather dinner. She is now well, and gave a long certificate, certified to by the Rev. Dr. Downing.

Mrs. Bartholomew, 83 West Party-fifth street, enne to my rooms with a tumor on her liver. She was low-spirited, skiu sallow, tongue coated, bowels costive, no appetite, and fast sinking into the grave. The said tumor had been running over fourteen years. I gave her Syrup. Tonic and Pills, and told ner totake them just as the directions were printed. She came back to my rooms, 32 Bond street in two weeks, somewhat better; her tongue had begun to clean a little around the edges, her skin whiter and

clean a little around the edges, her skin whiter and her eyes brighter and the tumor discharging very offensive matter, much faster than it had everdone before. She kept gradually improving, and in about two months she came to my rooms very much fright-ened, saying that the tumor had meanly stopped running, and was healing up, and that every docto had told her that if it ever healed it would cause her death. I told her that the disease had all left her system, and enture would heal the nicer up. They are now healed, and have been for about a year, and are now healed, and have been for about a year and she is a hearty and robust a woman as you will find in a days walk. She is giad for any one to call on her, and takes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me. The next case is Miss Scoffeld, from Stamford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting urge quantities of blood. I examined her lungs with the respirameter, and in all my practice never band one with one lung so far gone and the other ound one with one lung so far gone and the other lang so sound. I could not give much encourage-ment. I thought six would die; but to my aston shument the Pulmonic Syrup, Scawesi Toric, and Mandraka Pills all second to go right to work, the lung is all heated over, lonving a cavity as large as a goose erg; good appoint, fine spirits, and has gained some thirty-five pounds in weight. She has some cough yet, which I do not think will leave her before June. I should think it would be of great interest to some unprejuticed physician to visit these cases, particularly Miss Scofield, or any of them who have been cured by my needleines. They are numerous in New York; but the above three all differ from each other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they

may be cured. J. H. SCHENK, M. D. Dr. J. U. Schenk can be found at the principal office. No. 79 North 6th Street, Philadelphia, every Saturday, front 9 A. M. unillé P. M. to give advice free of charge, but for a through examination he charges three dollers.
