

OPINIONS.—We refer our readers to another opinion of the Attorney General of the United States, in regard to the credit of recruits.

General Grant has made a special requisition for more money to buy muskets from the Rebel deserters, who are allowed twenty-one dollars for their guns on coming into our lines.

Desertions continue to average about a hundred per day from Lee's army.

Local Affairs.

In consequence of loss of time occasioned by the flood, we only issue a half sheet this week.

The repairs of the bridge on Market street, should be attended to at once. The Turnpike Company should be notified, and measures taken to renew the bridge at once.

The great decline in gold must necessarily reduce the price of all kinds of goods especially imported articles. Coffee should be worth more than 23 for the best sugar 20 cents per pound.

The town of Selingsgrove, proper, has not suffered any damage from the flood, but that portion on the site of Quas, was completely inundated.

The Rail Road bridge at Linden, above Williamsport, was saved by running a train of cars loaded with rail road iron on it.

The rebels are vigorously organizing their forces in military companies. This is the last hope of the rebel cause.

The premium on gold has come down wonderfully. On Tuesday it was quoted at 154. Its highest point since we saw it was 200.

Coran—Owing to the extraordinary freshet, there was no court this week. Court opened on Monday morning, and after a few minutes made adjourned.

The bill report that a child lashed fast to a piece of timber had been caught coming down the river, is, of course, a canard, without any foundation.

THE MAILS.—The mail from Philadelphia, which was brought to this place on Tuesday evening by the accommodation train, the train only came to the Shamokin bridge. Two wagon loads of mail bags were deposited in the Post Office.

WELLS.—Mr. Campbell, the builder of the machine shop, at this place and Renova, who came down from the latter place in a small boat, that the damages of the freshet here, are trifling as compared with the destruction of property above us.

THE EDITOR OF THE SELINGSGROVE TIMES, advertises in the New York Printer, the sale of his establishment. If he does not find a purchaser very soon, it will not be long before, as every movement of Sherman and Sheridan, renders rebel stock, always valueless, still more worthless.

RAIL ROAD TRAINS.—The only train running south of this place at present, is the accommodation train which leaves Sunbury at 7:40 in the morning and returns at 4:30 P. M. The Shamokin train runs once a day, at present, leaving here at 4:30.

REMOVAL OF THE OFFICE.—The work of tearing down the old county buildings to be used as a site for the new Court House, has necessarily caused a removal of the office. The Register, Geo. A. and the Probationary, Mr. Tolson, occupy that portion of Mr. Donnell's building, lately occupied by Miss Susan Donnell, etc.

THE GRADING FOR THE second track of the Northern Central road has been considerably completed. It is gratifying to know that it has preserved the original track from any injury, which without this protection might have been very considerable.

SOME VERY exaggerated reports were circulated in regard to the flood at this place. There has been no loss of life, or even danger, and but little, if any, injury to real property. The greatest loss is the injury to the railroads and bridges.

AMONG those caught from home by the flood, was our neighbor S. P. Wolerton, Esq., who was at Emporium, about 100 miles up the Erie road. As all trains were stopped, he walked 72 miles to Hyman Run, and purchased a small boat, and from that point, in company with Mr. Rodgers of Williamsport, he floated down the swollen stream.

FORTY CENTS PER HOUR.—This was the wages paid laborers, by Mr. Arms, resident engineer, for work in repairing the damaged bridge on the Northern Central road below town by the freshet.

THE RAIL ROAD.—The repairs of the Northern Central Road below town, occasioned by the great flood Friday and Saturday, were completed on Wednesday evening, and the trains are again running over the track, and had been entirely washed away. A large force of laborers under the able and efficient direction of Mr. F. C. Arms, the resident engineer of the road, at this place, accomplished a work that looked as if it might require weeks to complete.

A NOBLY JUMPER, who was one of a lot of recruits in Illinois, was on his way to join his regiment, and when near Springfield, leaped from the car window while the train was moving fifteen miles an hour.
