

New Bishops.—The general convention of the Episcopal Church recently in session at Philadelphia, has organized three new Dioceses in the new Western States and Territories, and appointed three new Bishops. Rev. Milton Lightner, formerly of Danville, Pa., and afterwards of Reading, and now rector of the Episcopal Church in Detroit, is one of the new Bishops, having received the appointment of Bishop for Utah and Dacotah. The appointment of Mr. Lightner is deemed a very good one, but we apprehend it will not be very acceptable to his family. The Bishop of Utah will necessarily assume jurisdiction over ground now occupied by Brigham Young, who claims to be Bishop, Governor, Ruler and High Priest of that Church and State in Utah, and if he tolerates a rival near the throne it will only be because he has more fear of our artillery than he has of the Lord.

Secretary McCulloch in a public address made at Fort Wayne, Indiana, last week, explained the manner in which he expected to control the finances of the country. The principle underlying the Secretary's system is that the sooner we come back to paying as we go, and avoid the fatal influences of an inflated currency, we shall sooner reach a healthy prosperity. The Secretary advises us to economize, find the legal tenders, contract the currency gradually, and return to gold as the standard and representative of value.

The Philadelphia Press made its appearance last week as a double sheet eight page paper. The increasing business of the Press warranted a change, which gives more reading, and more space for advertising. The establishment was removed to Seventh and Chestnut streets. The Press merits the enviable position it occupies as an independent, able and enterprising journal.

THE NEXT CONGRESS.—The Chicago Republican says the following is the best estimate that can be made of the political complexion of the next House:

Table showing political composition of the next House: Union, Dem. Twenty-four Northern States have elected, 140 41. To elect in Northern States, 2 00. Eleven Southern States have elected, 7 4. To elect in eleven Southern States, 9 47. Total, 150 92. Union majority 58 in a House of 242 members.

As respects the Senate, should the nine Southern and unrepresented States all elect Democrats, and should they all be admitted, that body would stand:

Table showing Senate composition: Union, 47. Democrats, 27. Union majority, 20.

THE ELECTORS.—In 63 Counties the Union majority is nearly 20,000, which will be increased by the Counties not yet heard from, and being a clear Union gain as compared with the election in 1862, of a little over 24,000. The Legislature will stand about as follows:

Table showing Legislature composition: Senate, 20 13. House, 69 31. Union majority, 44.

Gen. Robert E. Lee has signed and filed in Washington the following oath: 'I, Robert E. Lee, of Lexington, Va., do solemnly swear, in presence of Almighty God, that I will henceforth faithfully support, protect and defend the Constitution of the United States, and the Union of the States thereunder; and that I will, in like manner, abide by and faithfully support all laws and proclamations which have been made during the existence of rebellion with reference to the emancipation of slaves. So help me God.'

High Prices of Boots and Shoes.—The journeymen shoemakers of New York, made a strike a few days ago for an increase of 25 per cent. on their wages, which was reluctantly granted by the employers. The latter, however, held a meeting, and announced that hereafter the price of first-class calf skin boots would be \$19 to 21, and of patent leather, \$22 to 24—an increase of \$2 to \$3 on present prices. Somebody will have to go barefooted.

TERRIBLE MISTAKE.—Two physicians in the town of Sillabou, Randolph county, (Ill.) purchased, last week, a quantity of calomel from a druggist in Chester, and administered it to some forty of their patients. It subsequently appeared that corrosive sublimate was mixed with the calomel. At last analysis several persons had died from the effects of the poison, and several others were not expected to live.

FROM WASHINGTON. WASHINGTON, Oct. 24. The Secretary of the Interior received today a telegram from J. G. Sanborn, President of the Commission to negotiate with the Indians of the Upper Arkansas, dated at the council ground, October 23d, stating that the treaty had been concluded with the Cheyennes, Arapahoos and Apaches. Terms had been agreed upon with the Kioways and Comanches, and they had sent out runners for six white prisoners held by them, who were expected to return in six days, when a treaty would be signed, provided they brought in the prisoners. The Cheyennes and Arapahoos are destined to be sent to the West, where they will be supplied to be forwarded immediately from Fort Leavenworth, to prevent suffering among them during the coming winter.

Supplies will be forwarded under the direction of the Indian bureau. THE NEW ISSUE OF FIFTY TWENTIES. It is estimated that the amount of bids for the new issue of fifty-twenty bonds, funding compound interest notes and certificates of indebtedness, will considerably exceed the limit originally fixed upon, owing to the bids coming in so rapidly that the Treasury Department could not ascertain when the total sum had been subscribed. A large number of bids being in transit, near the close, from different parts of the country, and the Secretary being unwilling to deprive those who had subscribed from completing their investments, it is probable that the issue may be extended to sixty millions, but will not be allowed to exceed that amount.

A report from Halifax says that there is a negro insurrection in Jamaica.

EUROPE. Important Diplomatic Correspondence between Minister Adams and Earl Russell. FATHER POINT, Oct. 23.—The steamship Iberian, from Liverpool, October 13th, via Londonderry, October 18th, has arrived off this point. GREAT BRITAIN. A meeting of the Atlantic Telegraph Company has authorized an increase of capital by one hundred and sixty thousand shares of £5 each.

Important Correspondence Between the English and American Governments. Important diplomatic correspondence between Mr. Adams, the American Minister, and Earl Russell, is published in the London Gazette, of the 11th inst. The correspondence begins with a letter from Minister Adams, dated the 7th of April last, in which he calls the attention of Earl Russell to the official reports respecting the ravages of the Shenandoah, and announces that for the clearest reasons, the American Government cannot avoid entailing the responsibility upon Great Britain.

The reply of Earl Russell is dated May 4th. He says that the duties of Great Britain towards the United States are not measured by the losses which the commerce of the latter may have sustained. The question is simply whether the Queen's Government have faithfully and honestly performed the duties which international laws and their own municipal laws imposed upon them.

THE ITURBIDE FAMILY.—A letter from the city of Mexico to the New York World, says: "The most appropriate decree of the day was that which related to the family of Augustin Iturbide, the unfortunate first Emperor of Mexico. His two grandsons, Augustin and Salvador, as yet more children, have been made 'Princes of Iturbide' and Josefa, the surviving daughter of the first emperor, is made a princess. These titles are not hereditary. The princes and princess will take rank next to the Imperial family. As the emperor has no child, this act is significant as a step towards the establishment of a Mexican dynasty through the family of the first Emperor Iturbide. And, as one of these infant princes is the son of an American lady from Georgetown, D. C. (Miss Green, married to Don Angel Iturbide), we may yet see an emperor on the Mexican throne who is half Yankee."

A CITY OF THE DEAD.—In Greenwood Cemetery, New York, there have been up to this date 44,400 interments, averaging one for the last few years of 7,000 per annum. Large sums, amounting to at least \$2,000,000, have been expended by the corporation, but these figures would appear insignificant contrasted with the disbursements of private owners. Probably there are a dozen instances where individuals have disbursed between \$20,000 and 30,000 in the improvement of private property. Opulent citizens seem to vie with each other in honoring the dead.—New York Journal of Commerce.

Gen. Robert E. Lee has signed and filed in Washington the following oath: 'I, Robert E. Lee, of Lexington, Va., do solemnly swear, in presence of Almighty God, that I will henceforth faithfully support, protect and defend the Constitution of the United States, and the Union of the States thereunder; and that I will, in like manner, abide by and faithfully support all laws and proclamations which have been made during the existence of rebellion with reference to the emancipation of slaves. So help me God.'

A report from Halifax says that there is a negro insurrection in Jamaica.

MEXICO. The Flight of Juarez Confirmed. Maximilian Issues a Proclamation to that Effect. New York, Oct. 23. The steamer Liberty brings Havana advices to the 18th. Mexican advices, from Vera Cruz to the 15th, had been received at Havana.

Maximilian had issued a proclamation, dated the 2d instant, in which he officially announces the departure of Juarez from Mexican territory. Maximilian says: "The issue which Don Benito Juarez has sustained with so much valor and constancy has at last succumbed, not only to the national will, but also according to the same law that he invoked in support of his title, (meaning that the term for which Juarez was elected President had run out), and even the brigandage of small parties, into which the cause had degenerated, is abandoned by the departure of the chief from his native territory."

General Espinos is going to Lower California to bring that part of Mexico under the sway of the empire.

Not much worthy of mention has occurred in Havana. Vessels arriving from Barcelona and other parts of Spain are put under close observation, for fear of cholera. Rumors are in circulation of several cases occurring in this city, but they are very doubtful.

There are now 170 students at the Virginia University at Charlottesville, including 10 from Maryland. Troubles are brewing between the Mormons and the United States Government. Polygamy is in danger.

A recent earthquake in Santa Cruz three many houses down, but no lives were lost. It was also felt in St. Domingo. The court of Appeals of New York has decided that national bank stock can be taken by the State.

A convention of internal revenue assessors from nine or ten States met at Albany, on the 24th inst. The tomb of Daniel Webster has lately been opened and the remains found in perfect preservation.

A monument to cost \$8,000, to be erected in Genesee county, New York, in memory of General Wadsworth. One hundred tons of cane are daily manufactured into paper at St. Louis. Coal is selling in Cincinnati at \$7.50 per ton.

Queen Victoria's journey to Scotland cost her \$7,500. She goes in style. It is stated that Flora Temple has been sold for \$15,000.

THE KENTUCKY SYNOD.—The Kentucky Presbyterian Synod is in session at Louisville. Dr. Breckinridge has entered upon the war path by introducing a series of resolutions against troublesome preachers and disloyal members of the Synod.

"The Apostle," said the Elder, "was moved by many kinds of doctrine." "Yes," replied Mr. Partington, looking over her spectacles at the Elder, "there's where he was wrong. What did he want to try so many kinds of doctrine for when Pinkerton's wahoo and Calisaya Bitters would have kept him perfectly regular. The Elder confessed the thing had never struck him in that light before, and the old lady was going on to elucidate further, when her attention was attracted by Ike, who was trying to pour some Bitters down the cat's throat with a funnel.

"ATTENTION, SOLDIERS OF OUR LATE ARMY."—Many Discharged Soldiers have claims of which they have no knowledge. By sending for a Circular to L. Brown & Co., of No. 2 Park Place, N. Y., information will be furnished which may be valuable. Oct. 21, 1865.—3t.
