A POLITICAL MIRROR. "Ab ! would be but the giftie gi'e us, "To see our sel's, as others see us."

In some respects a newspaper may be considered a looking glass. In most cases, indeed, one can see and judge, not only of the habits and business character of the place in which it is published, but, frequently the editor, even when he is disposed to screen himself from the scrutinising eye of the public while peeping through the loop-holes and around the corners. In a paper, which presumes to call itself democratic, not one hundred miles from Danville, we find the following paragraphs, side by side, in which the editor unintentionally reveals, himself to the public.

"Wade Hampton is very tall, classical features, "black beard, conrageous and forty."

"Boston Corbett is said to divide his time in "New York, between cobbling and singing psalms." Now mark the difference-Gen. Hampton, who is noticed in a complimentary manneris perlinus the most rabid and uncompromising robel leader in South Carolina. Proud and aristocratic, he looks with contempt on Northern mechanics and white laborers, as the mud sills of society, and hates the North and all institutions calculahates the North and all institutions calcula-ted to clevate the mechanic and laborer to an equality with himself. Nov. 10th, for carrying it into execution. an equality with himself.

Boston Corbett, on the other hand, is an humble mechanic of the North, and a brave soldier, though only a sergeant. But Hampton fought for the Confederacy, and was the last to give up. Corbett fought for the Union, and what is worse in the eyes of some, shot Booth the assassin, and "That's what's the matter" In the same paper we find an article which, in defending Wirz and apologising for his crueltics to our prisoners, denounces the Judge Advocate who prosecuted him as "worse than abrate" man in the centre of the structure. After a and Stanton as a heartless scoundrel.

199" WAR BETWEEN SPAIN AND CHILL-The Government of Spain has been conboldened by its success in Peru to fall upon another Republic of South America, On the 17th of September, the Spanish Admiral Pareja appeared in Valparaiso harbor, and sent in a notification that the former explanations and apologies offered, and which the Spanish Minister in Chili had declared perfectly satisfactory, had been repudiated in Madrid. He then stated the interment. His neck was broken by the principle points of offense, and demanded fall. an immediate and satisfactory explanation and a salute of 21 guns to the Spanish flag, or he would at once break off all diplomatic relations. The Government of Chili refusing to accede to this demand, Pareja sent an ultimatum, to which the Chilian Congress replied by unanimously passing a declaration of war.

brief sketch of the career of Henry Wirze who lately suffered panalty of death for the murder of Union prisoners at Andersonville, may be interesting to the public. It was received from his own lips by a gentleman who visited hum, and, in point of accuracy, is perfect :

"I was born in Zurich, Switzerland; came to the United States, in 1849, at which time I was unable to speak English. I tried to obtain a position as assistant to some physician, but failed. Landed in New York city; afterwards went to Connecticut, from which State I went to Lawrence, Mass., where I was engaged in a shawl factory. After remaining there for soveral years, went to Kentucky, where I married ; I afterward went to Philadelphia, and thence to a plantation to Louisiana, where I was employed as a physician. I remained there until the breaking out of the war, when I enlisted in an independent company as a private ; was afterward made clerk of the Richmond prisons; I was soon made captain and Assistant Adjt. Gen. on Gen. Winder's stail; was wounded at Fair Oaks (the wound from which he now suffers); was then made Pro-vost Marchal of Manchester, Va.; was then sent on an inspecting tour of, the prisons in the bouth.

"In 1863 I went to Europe for the benefit of my health, where I remained three or four months; on my return I was put in charge of Andersonville Ga., until the Confederacy bursted up. Sentence and Execution of Wirze.

Capt. Wirze, the Andersonville jailor, was ound guilty by the Military Commission Wirze said he expected no reprieve, and ap-peared resigned to his fate. The sentence was duly carried out.

At 10,20 A. M. Wirze was taken from his ell and conducted to the scaifold crected In the prison yard. After the reading of his sentence and the order for his execution, while standing on the scaffold, his legs and hands were tied, and the noose passed around his neck, and the black cap placed over his head. All the proceedings occupied about threefourths of an hour. The culprit was perfeetly calm and protested his innocence to the last.

PROCLAMATION BY THE PRESIDENT.

Whereas, It has pleased Almighty God during the year which is now coming to an end, to relieve our beloved country from the fearful scourge of civil war, and to permit us to secure the blessings of peace, unity and harmony, with a great enlargement of

civil liberty ; and Whereas, Our Heavenly Father has also during the year graciously averted from us the calamitics of foreign war, pestilence and famine, while our granaries are full of the fruits of an abundant season; and Whereas, Rightcousness exalteth a nation. while sin is a reproach to any people :

Now, therefore, be it known that I, Aadrew Johnson, President of the United States, do hereby recommend to the people thereof, that they do set apart and observe the first Thursday of December next, as a day of National Thanksgiving to the Crea-tor of the Universe for these deliverances and blessings.

And I do further recommend that on that occasion the whole people make confession of our national size against his infinite good-ness, and with one heart and one mind implore the divine guidance in the ways of ational virtue and holiness.

In testimony whereof I have hereunto set my hand, and caused the seal of the United ates to be affixed. Done at the city of Washington, the twenty-eight day of October, in the year of our Lord one thousand eight hundred and sixty-five, and of the independence of the

PROCLAMATION BY THE GOVERNOR With feelings of the most profound grati-tude to Almighty God, I invite the good copic of the Commonwealth to meet in heir places of public worship on Thursday, he seventh day of December next, and raise their hearts and voices in praise and thanksgiving to Him, not only for the manifest ordinary blessings which, during the past year, he has continued to heap upon us, for abundant and gathering harvests, for thriv-ing industry, for general health, for domestic good order and government, but, also, most spressly and fervently for His unequaled years that they have been enabled to crush to the carth the late wicked Rebellion, and to exterminate the system of human slavery which caused it. As we wrestled in prayer with Him in the dark time of our trouble, then our brothers and sons were staking life and limb for us on a bloady field, or suffering by torture or famine in the bells of

Andersonville and the Libby, so now, when our supplications have been so marvelously for graciously answered, let us not with hold from Him the homage of our thanks-giving. Let us say to all, "Choose ye this

house, we will serve the Lord." Come then, ye people whom he hath so helped and led, come ye war-worn and mutilated men, whom He hath spared to return to
