Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; conse-eventive year, unplease parish by disorders

stand the attacks of other diseases; conse-quently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and in-

contaminated constitutions.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these adlicting disorders prevail. This "Cure" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the de-velopment of the disease, if taken on the first ap-proach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in billous districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for eure and protec-tion. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitu-tion. Those cured by it are left as healthy as if they had never had the discase. The ever and Ague is not alone the consequence of the miasmatic poison. A great variety of disor-

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disor-ders arise from its irritation, among which are Neuralnia, Rheumatism, Goud, Headache, Blind-ness, Toothache, Earache, Catorrh, Asthma, Pal-pitation, Painful Affection of the Spleen, Hyster-ics, Pain in the Bouchs, Colic, Paralysis and De-rangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cunn" expels the poison from the blood, and consequently cures them all alke. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occa-sionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disthat will be exercised from the system, and cannot accumulate in sufficient quantity to ripen into dis-case.
